Attention Redistricting Group,

The "We All Win" map is a fair, balanced, and needed approach to support the forward-looking planning of our city's democracy and social vibrancy. It not only creates an opportunity for Latinos, but also creates an opportunity in three other wards for the African American, Native American, and Somali communities.

As we are approaching elections, having a Latino ward in Minneapolis creates the opportunity to have a Latino running for city council, who will represent the Latino community in south Minneapolis.

This kind of community leadership is *imperative* for the successful future of our state - I urge you to support it in your decision making this afternoon.

Thank you,

Sarah Hollows

resident of South Minneapolis
