Pedestrian Estimated Daily Traffic (EDT)

Updated December 2014

Legend

- **Annual count location (Cycle A)** — Counted once a year
- **Regular count location (Cycle B)** — Counted once every three to four years

Facilities

- Bikeable or walkable facility
- Bicycling and walking prohibited

Pedestrian EDT

- No data
- 1-249
- 250-499
- 500-999
- 1000+

Pedestrian EDT is representative of typical weekday traffic in September.

The geographical extent of pedestrian EDT is made using anecdotal knowledge of the author and analysis of similar corridors. EDT is not visually represented for special count locations (Cycle C).
