- Loading zone activity included the installation of a valet zone and the removal of two obsolete loading zones as requested by various business owners.
- Parking zone activity included two no parking clearance zones installed to improve safety and a 60-minute parking zone installed at the request of a business owner.
- To facilitate several bicycle-lane projects, three no parking zones were installed, three were removed, and two were amended. In addition to the parking zone changes, two loading zones were removed and one no stopping zone was installed.
- The high number of disability zone installations this quarter was the result of a backlog of requests from the third quarter.
