Background/Supporting Information:

On February 15, 2008, the City Council approved the Asphalt Pavement Resurfacing Program. The purpose of this program is to extend the life of some city streets which are not scheduled for any preventative maintenance, renovation or reconstruction in the foreseeable future. This resurfacing program is targeting neighborhoods and MSA streets that are at a point in their life cycle where a new surface will extend the street's life and improve ride quality and neighborhood livability, and help slow the overall deterioration of our City street system.

The purpose of this letter is to designate the location, streets and improvements, and establish the special assessment improvement proceedings for street resurfacing.

The location of the Upton Av S street resurfacing project is from 43rd St W to 54th St W. This segment of Upton Av S is MSA Route No 201. Various segments of Upton Av S were built in 1951, 1966 and 1984.

As provided in Chapter 10, Section 8 of the City Charter, submitted herewith are lists of parcels with owner's names, as nearly as can be readily ascertained, which would be benefited by and assessed for the Upton Av S Street Resurfacing Project.

Also submitted is a cost estimate of \$419,174 for the Upton Av S Resurfacing Project.

The street resurfacing special assessments would be determined by applying the 2012 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The approved 2012 resurfacing assessment rates are as follows:

\$0.56 /sq ft – Non-Residential
\$0.20/sq ft – Residential
