Background/Supporting Information:

On March 8, 2012, the City Council designated the location, streets and improvements proposed to be made in the 15th St E (5th Av S to Chicago Av S) area neighborhood. The cost estimate for this project is \$345,000 and is financed by net debt bonds and special assessments.

The location of the 15th St E project is from 5th Av S to Chicago Av S. This part of 15th St E is MSA Route No 281 and was last paved in 1966.

The street resurfacing would be a mill and overlay of the street surface with plant mix asphalt and other paving related improvements as needed. This paving project is scheduled for summer of 2012 and will be constructed by the City's workforce. An exact start date has not been set.

The street resurfacing special assessments were determined by applying the 2012 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The 2012 resurfacing assessment rates as follows:

\$0.56 /sq ft – Non-Residential

\$0.20 /sq ft – Residential

The proposed total assessment amount for the 15th St E project is \$69,746.47. Individual assessments of more than \$150 would be collected over 5 years beginning on the 2013 real estate tax statements with interest charged at the same rate as the City pays in interest for selling assessment bonds. Assessments of \$150 or less would be collected in their entirety on the 2013 real estate tax statements with interest charged at the same rate as the City pays in interest for selling assessment bonds. Information has been provided in the Notices as to how persons may prepay the special assessments in full without interest if they so choose.

The City Council has passed resolutions whereby a deferment of a special assessment may be obtained by showing hardship for any homestead property owned by a person 65 years of age or older or retired by virtue of a permanent and total disability.
