Supporting Information

The federal Emergency Solutions Grant (ESG) Program provides funds that may be used for a variety of purposes including addressing specific housing stability service needs of persons who are homeless or are threatened with homelessness. The funds that are being issued can be used for services similar to those under the Federal Homeless Prevention and Rapid Re-Housing Program, which ended in May 2012. Those services include Homelessness Prevention and Rapid Re-Housing: both components fund housing relocation and stabilization services (including rental application fees, security deposits, utility deposits or payments, last month's rent and housing search and placement activities). These funds may also be used for short- or medium-term rental assistance for those who are at-risk of becoming homeless or transitioning to stable housing.

The City, in collaboration with the Minneapolis and Hennepin County Office to End Homelessness issued an RFP on September 9, 2013 seeking responses from service providers within Minneapolis. Staff received three proposals. The proposals were reviewed by staff from both the City and Hennepin County. The following proposals are being recommended for funding:

Catholic Charities, \$31,250 – For continuing their Housing First program, which focuses on housing and stabilizing homeless adults without children in crisis housing through a rapid re-housing program that focuses on housing search and placement as well as limited financial assistance.

St. Stephens, \$128,750 – For continuing their Family Re-Housing program, which provides intense case management and rental assistance for high barrier homeless families. Services include a complete assessment of needs, counseling, advocacy, intensive in-person case management, connections to social services, ongoing evaluation and housing with appropriate supports to enable self-sufficiency and prevent return to shelter.

One additional application was received by a non-profit agency proposing services for re-housing homeless families in Minneapolis. This application was not funded due to lack of resources.

The review of these proposals included the following elements:

1. Ability of the applicant to serve Minneapolis resident homeless families and single adults without children including unaccompanied youth who reside in a Hennepin County funded homeless shelter
2. Proposal eligibility under the federal ESG program rules
3. Consideration of an applicant's proposal to provide leverage/matching funds
4. Ability of the applicant to provide for the participation of at least one homeless or formerly homeless person(s) in a policy-making function in the organization
5. Ability of the applicant to participate in a Homeless Management Information System (HMIS) and will be required to collect data on all universal elements as defined in HMIS

6. Overall quality, thoroughness and clarity of the applicant's proposal
7. Applicant's capacity, programming readiness, general qualifications and experience of staff
8. Proposal's ability to meet HUD and Heading Home Hennepin priorities, goals and objectives.
9. Applicant's financial and operating capacity, management approach and involvement
