RE: 2013 Transportation Economic Development (TED) program grant awards

Dear Mr. Kotke,

Congratulations, the I-94 7th St. Off-Ramp and Repurposed 5th Street Off-Ramp project has been selected to receive funding through the Transportation Economic Development program.

The project has been approved to receive a maximum of \$6,790,000, subject to the MnDOT cost participation policy, for trunk highway fund eligible expenses. This grant is conditional as follows:

1. The project must be let for construction on or before June 5, 2015.
2. The TED contribution towards the cost of the project is capped. The applicant accepts responsibility for the balance of funding necessary to deliver the project.
3. The grant is a MnDOT contribution towards the project.
4. MnDOT will not consider requests for additional funding for this project under future competitive grant programs.
5. The offer of funding under this program does not waive any of the required project approvals. Should all necessary approvals not be obtained, MnDOT will withdraw this grant.
6. The applicant agrees to work with MnDOT district officials to create and regularly update a schedule of project development activities in MnDOT's Project Management System.

All program grantees will need to continue to work with MnDOT to ensure a successful project delivery. Please work with John Griffith in MnDOT's Metro District Office. Please also keep TED Project Manager Matt Shands informed of the project's progress.

An Equal Opportunity Employer

We look forward to assisting you throughout the project development process. If you have any questions, please contact Matt Shands at (651) 366-4893 or at matt.shands@state.mn.us.

Sincerely,

Charles A. Zelle
Commissioner
