ARTICLE XIII. CONSERVATION DISTRICTS

599.710. Purpose. This article is established to maintain and enhance the visual character, land use, or activity evident in its notable architectural detail, building type, or development pattern by regulating changes to those attributes and adopting design guidelines for properties within a defined area. As part of the city's comprehensive program of historic preservation, it is the intent of this ordinance to promote the use and conservation of notable properties or districts for the education, inspiration, pleasure, and enrichment of its citizens and for the long-term sustainability and vitality of the city. Conservation districts are designed to not only maintain but also expand the roster of buildings, structures, and sites that contribute to the visual character and support the land use and activity of the district. The value of existing and proposed buildings in conservation districts is measured by the extent to which they embody the conservation district's notable visual character and support its land use and activity.

599.720. Establishment criteria. (a) The following criteria shall be considered in determining whether properties are eligible to be in a conservation district:

(1) The district is contiguous and:

a. includes at least one complete block face with two or more principal buildings; or

b. is centered upon the intersection of two or more streets, with all corner lots included in the district.

(2) Seventy-five (75) percent of properties embody notable attributes common to the district:

a. distinctive characteristics of an architectural or engineering type or style, or method of construction; and

b. a landscape design or development pattern distinguished by quality of design or detail, innovation, rarity, or uniqueness; or which may include scale that creates a cohesive identifiable setting.

599.730. Initiation of conservation district plan. Application for initiation of a conservation district plan shall be submitted on an application form approved by the planning director and shall be accompanied by evidence documenting the consent of owners who represent one-third (1/3) or more of all tax parcels, and notification of all owners of all tax parcels, excluding streets and alleys, within the proposed conservation district boundary. The commission shall review all complete applications. If the commission determines that the subject district appears to meet the criteria for establishment contained in section 599.720, the commission may direct the planning director to prepare or cause to be prepared a conservation district plan and design guidelines. Complete applications will be acted upon in the order that they are received, with no more than two applications in 2015 and no more than one application per city sector (north, east, downtown, south, and southwest) processed simultaneously.

599.740. Design guidelines. (a) *In general.* Conservation district design guidelines shall be drafted by the planning director with the active participation of property owners in the proposed district. Design guidelines shall not be adopted or applied so as to prohibit uses allowed by the zoning code. Design guidelines regulating building bulk may be more restrictive than the zoning code when based upon the notable attributes, as identified in the conservation district's plan. Design guidelines shall be limited to regulating some or all exterior elements solely for the purpose of perpetuating and proliferating the district's notable attributes, as identified in the district's plan. Conservation district design guidelines shall clearly identify all changes requiring review for compliance with this ordinance. Design guidelines may establish that a public hearing is required for the construction of principal and accessory structures or the addition or removal of floor area to existing principal or accessory structures. All other changes shall be reviewed administratively unless those changes require a public hearing review pursuant to the Minneapolis Code of Ordinances.

(b) *Owner consent.* Prior to heritage preservation commission adoption, but not amendment, guidelines shall be submitted to the planning director, accompanied by evidence documenting the consent of owners who represent two-thirds (2/3) or more of all tax parcels, excluding streets and alleys, within the proposed conservation district boundary to both the establishment of the proposed conservation district and the proposed design guidelines. Evidence of two-thirds (2/3) consent shall be obtained within one (1) year of the date the planning director initiates work upon a conservation district plan application. The planning director, upon written request, may for good cause shown grant up to a six (6) month extension to this time limit. No additional owner consent is required for changes to the design guidelines that the heritage preservation commission adopts during either the initial conservation district and design guideline establishment process or any subsequent conservation district design guideline amendment process.

599.750. State historic preservation office review. The planning director shall submit all proposed conservation district establishments, amendments, repeals, and design guidelines to the state historic preservation officer for review and comment. The state historic preservation officer shall have sixty (60) days from said date of submittal to provide comments to the planning director.

599.760. City planning commission review. The planning director shall submit all proposed conservation district establishments, amendments, repeals, and design guidelines to the city

planning commission. City planning commission shall have sixty (60) days from said date of submittal to provide comments to the planning director. In its review, the city planning commission shall consider but not be limited to the following factors:

- (4) The consistency of the proposed conservation district with applicable development plans or development objectives adopted by the city council.
- (5) The consistency of the proposed design guidelines with the establishment criteria.
- (6) The effect of the proposed district on the long-term sustainability and vitality of the city.

599.770. Heritage preservation commission review. Following acceptance of a complete plan, the heritage preservation commission shall hold a public hearing to consider the proposed conservation district establishment, amendment, or repeal as provided in section 599.170.

599.780. Commission recommendation. Following the public hearing, the heritage preservation commission shall make findings with respect to the proposed conservation district establishment, amendment, or repeal and shall submit the same together with its recommendation to the city council. In making its findings and recommendation, the commission shall consider the establishment criteria contained in section 599.720, the information contained in the plan, the state historic preservation officer's comments, the city planning commission's comments, the planning director's report, and all testimony and evidence received at the public hearing relating to the conservation district establishment, amendment, or repeal.

599.800. Adoption. The heritage preservation commission shall adopt conservation district design guidelines concurrent with the review of conservation district plans.

599.810. Initiation of conservation district amendment or repeal. Once established, a conservation district amendment, including amendment to design guidelines, or repeal may be initiated by the submittal of evidence documenting the consent of owners who represent two-thirds (2/3) or more of all tax parcels, excluding streets and alleys, within the conservation district boundary.

599.820. Conservation certificates. (a) *In general.* A conservation certificate allows the city to review proposed exterior changes subject to conservation district design guidelines.

(b) *Application for conservation certificate.* An application for a conservation certificate shall be filed on a form approved by the planning director and shall be accompanied by all required supporting information, as specified in section 599.160.

(1) The change will not materially impair the visual character of the conservation district as evidenced by the consistency of the proposal with the applicable design guidelines adopted by the commission.

(2) Granting the conservation certificate will be in keeping with the spirit and intent of the ordinance.

(b) *Demolition of any property.* Before approving a conservation certificate that involves the demolition of any property in a conservation district, the planning director or heritage preservation commission shall consider the consistency of any proposed new construction onsite with the design guidelines for the conservation district adopted by the commission, in addition to any other review requirements mandated by the Minneapolis Code of Ordinances.
