

Request for City Council Committee Action from the Department of Community Planning and Economic Development

Date: March 26, 2015

To: Lisa Bender, Chair, Zoning and Planning Committee

Referral to: Zoning and Planning Committee

Subject: Appeal of the decision of the Board of Adjustment to grant reasonable accommodation pursuant to the 1988 Federal Fair Housing Act to waive the spacing requirement for a proposed supportive housing facility in the existing structure at 2118 Blaisdell Ave.

Recommendation: The Zoning Administrator, in consultation with the City Attorney's Office, administratively approved the request for reasonable accommodation on November 24, 2014. The decision was subsequently appealed to the Board of Adjustment.

The following action was taken by the Board of Adjustment on February 19, 2015:

Action: The Board of Adjustment adopted staff findings and **denied** the appeal of the decision of the Zoning Administrator to grant reasonable accommodation to waive the spacing requirement for the property located at 2118 Blaisdell Ave.

Absent: Sandberg

Aye: Cahill, Finlayson, Johannessen, Ogiba, Saufley, Thompson

Motion passed

Ward: 10

Department Information

Prepared by: Joseph R. Giant, City Planner, 612.673.3489

Approved by: Steve Poor, Zoning Administrator

Presenters in Committee: Joseph R. Giant

Community Impact

- Neighborhood Notification: The appellant is a board member of the Whittier Alliance Neighborhood Organization. Notice of the Zoning and Planning Committee hearing in regards to this appeal was mailed on March 5, 2015.
- City Goals: See staff report
- Comprehensive Plan: See staff report
- Zoning Code: See staff report

- End of 60/120-day decision period: 120-day period was extended by applicant from February 5, 2015 to April 6, 2015

Background/Supporting Information:

This appeal is in regards to a request for reasonable accommodation to waive the required quarter-mile spacing requirement in order to allow a supportive housing facility for persons recovering from alcoholism or drug addiction at 2118 Blaisdell Ave. Pursuant to the 1988 Federal Fair Housing Act Amendments, reasonable accommodations in rules and procedures requested in order to grant disabled persons equal access to housing must be granted if the required findings of disability, necessity, and reasonableness are met. The requested modification would eliminate the spacing requirement, allowing the applicant to apply for a conditional use permit from the planning commission in order to authorize the facility.

The following actions were taken by the Zoning Board of Adjustment on February 19, 2015.

Board Members: Sean Cahill, John Finlayson, Eric Johannessen, Dan Ogiba, Matt Perry, Dick Sandberg, Jacob Saufley, Ami Thompson

Board members absent: Dick Sandberg

Committee Clerk: Fatima Porter 612.673.3153

ITEM SUMMARY

Description:

Item #2- 2118 Blaisdell Avenue (BZZ# 6915, Ward 10) (Joe Giant)

Ted Irgens has appealed the decision of the Zoning Administrator to grant reasonable accommodation pursuant to the 1988 Federal Fair Housing Act to waive the spacing requirement for a proposed supportive housing facility in the existing structure at 2118 Blaisdell Avenue.

Action: The Board of Adjustment adopted staff findings and **denied** the appeal of the decision of the Zoning Administrator to grant reasonable accommodation to waive the spacing requirement for the property located at 2118 Blaisdell Avenue.

Absent: Sandberg

Aye: Cahill, Finlayson, Johannessen, Ogiba, Saufley, Thompson

Motion passed

TRANSCRIPTION

Staff Giant presented the report.

Chair Perry: Thanks for that presentation Mr. Giant. I'm just going to take a moment here before we take questions to do what I usually do with appeals, which is a matter of process here. Appeals of the Zoning Administrator are not variances. It's a technical point but I need to make that. The Board's job is narrowly defined to determine whether the Zoning Administrator correctly interpreted and administered the current provisions of the zoning ordinance that are the subject of this appeal. Furthermore, and this is important, it is not this board's responsibility to determine whether zoning ordinance is correct or should be changed.

We are not a policy body. There are your city council people to talk to and your mayor, if you want to talk about policy. So in this particular case, we are addressing a narrowly defined technical issue. Was the decision of the Zoning Administrator correct to grant reasonable accommodation pursuant to the 1988 Federal Fair Housing Act to waive the spacing requirement for a proposed supportive housing facility; and with that, Mr. Cahill?

Board member Cahill: Thank you Mr. Chair and Mr. Giant. Mr. Giant, I wonder if you could comment briefly what was the original purpose of the quarter mile requirement.

Staff Giant: Would you like to speak to that Steve? Steve Poor is our city Zoning Administrator.

Chair Perry: Mr. Poor.

Zoning Administrator Steve Poor: Good afternoon Chair Perry, board member Cahill. Spacing requirements have a long history in the U.S. about trying to mitigate the secondary deleterious effects, bad effects over a concentration. However in most municipalities throughout the country, they've been disbanded. The justice department has questioned whether they're even legally enforceable particularly relating to the Federal Fair Housing Act. The City has had them in place for some time. They have routinely been overcome for request that had spacing requirements for these types of facilities. At various points in recent history the City Council has actually considered removing them. For whatever choice or for whatever reason they have chosen not to remove that requirement, so it remains on the books. But its original intent was to mitigate potential secondary deleterious effects on these uses. I think in point of fact, there has been little evidence over the years to demonstrate that those secondary deleterious effects have manifested themselves.

Chair Perry: Thank you.

Mr. Poor: I just want to say for the record Mr. Chair. We're joined by the city attorney; his role here is to monitor but not so much to participate in the discussion. I think staff could answer questions that you have but I just thought I'd make you aware of who joined the dais today.

Chair Perry: Thank you, I should have done that, thanks for doing that for me. I'm going to do a couple of bookkeeping things before we have you back Mr. Giant. If the folks who are standing up want to continue to stand up, you may. Or you can sit down in room 319 which is just a little bit down the hall. It has audio and visual and chairs. And you still get to speak if you'd like to. So I give you that opportunity if you don't want to stand up. Second thing that I want to talk about is time. I'd like a quick show of hands of who wants to speak today. Raise your hand. Ok. That is not as many people as I thought. So what I will do is; the appellant will get 15 minutes to make their case. The original applicant, NuWay, I will also give 15 minutes to make their case. And contrary to what that says up there, I'm going to give each person who is not either the appellant or the original applicant, two minutes to make a statement. And so, with that, Mr. Giant, can we have you back up for any further questions the board might have. Are there additional questions from the board? I have a

couple of questions. The appellant makes a claim that the act, the Federal Fair Housing Act, does not consider former people who have had substance control addictions to be disabled, but you in your statement said it's recognized that that's the case. Can you please reconcile those two things for me?

Staff Giant: Thank you board chair. You'll find it in my staff report; I have a direct quote from the Fair Housing Act that specifically addresses those two conditions, drug use and alcoholism. I'd be happy to find those and read them to you.

Chair Perry: That's ok. What I'm asking you is, if you can tell me, if the Act does in fact cover those groups of people or not. If that appellant is.....

Staff Giant: Thank you board chair, the Fair Housing Act covers alcoholics and addicts that are no longer engaged in using but are seeking treatment for it.

Chair Perry: Thank you. That helps with that question. I have another question. Which has to do, I think the appellant, sort of, the appellant gets to make their case, I'm not trying to make the case for them. There are a few points I want to get clarified in my head. The request for accommodation from a zoning regulation pursuant to the Federal Fair Housing Act, the City should make findings with respect to the following three issues. Second one is the request for accommodation necessary to afford such person equal opportunity use and enjoy a dwelling. I'm not getting what a dwelling means. Is it the dwelling? Or is it any dwelling? What does that mean?

Staff Giant: Thank you board chair. In a sense it gives them the right to the dwelling of their choice. This particular project happens to be twenty two dwellings, but it doesn't detract from the fact that the people that will be residing in them are considered handicap. The facility works in conjunction with itself and with the treatment center. But, long story short, it does not detract from the fact that the people who will be residing in there have the right to the dwelling of their choice in the facility.

Chair Perry: I guess my, I think the issue the appellant brings up and I'm wondering about and I think you tried to address is, there are many, many other housing opportunities for people with these disabilities to find a place to live, near by the treatment center. I guess I'm wondering what's the city's position is on that?

Staff Giant: Thank you board chair. A couple of points about that; one the housing that is being requested is intended to treat the disability. So, it's not just any housing, its housing that is intended to ameliorate the effects of the disability. Placing somebody in an affordable housing situation doesn't necessarily contribute to the treatment of that. It may be affordable, does it place them in an alcohol, drug free environment, not necessarily. Further, as I mentioned, existing facilities may not treat that type of disability; may not be appropriate to treat that type of disability so that doesn't directly contribute to the treatment of that particular handicap.

Chair Perry: I think Mr. Nilsson would like to weigh in on this.

Asst. City Attorney Erik Nilsson: I will. Just a point of clarification Mr. Chair, the standard is stated in the Lydia House case directly. Mr. Giant did state it correctly but this maybe states even more succinctly. The case says that in the context of the Fair Housing Amendment Act, “necessary” is a showing that the desired accommodations will affirmatively enhance a disabled person’s quality of life by ameliorating the effects of the disability. So it means that the zoning ordinance cannot give disabled people less opportunity to live in certain neighborhoods which is emphasized than people without disabilities. And the case goes on to state, the entire reasonable accommodation standard. But that is the guiding case for your decision today.

Chair Perry: Thank you that helped me. Any other questions from my colleagues; still? Ok, I have one last question. The appellant makes, quotes and cites, Family Style St. Paul versus City of St. Paul quite a bit as sort of one of the defining cases for their argument. I’m wondering if you could sort of shed light, is that in fact the case or is there, are there other, is there other case law that we should be aware of. And I see Mr. Nilsson is wanting to weigh in on this as well.

Mr. Nilsson: Sure Mr. Chair. Hopefully we could just answer some of these legal questions so that the public hearing doesn’t devolve into some sort of legal argument which we shouldn’t be. We’re largely here on a fact finding mission. But, the Family Style case, to be clear, was not a FHAA (Federal Housing Amendment Act) reasonable accommodation case. It did not decide reasonable accommodation. It was a spatial challenge to a St. Paul spacing ordinance that was a quarter mile spacing with regard to community, residential facilities, group homes for the mentally ill. And it was a challenge to that. And the case concluded that the goal of deinstitutionalization through dispersal was a legitimate goal to uphold the ordinance. So, it did not delve into reasonable accommodation in the aspect you’re looking at today. And so in terms of testimony, what you might hear in that case, one of the facts that was noted, was that that particular provider Family Style was seeking to establish 21 of their facilities, so the same provider, for the same disability within a block and a half radius. And that’s noted in the case. However, again, that does not establish some sort of bright line rule for purposes of a necessity analysis, a reasonableness analysis under the FHAA, and to keep that in mind as well. And finally, I think going back to your first question, just to clarify again, the disabled element of this analysis today is largely undisputed. I think as Joe stated, they’ve also provided an affidavit in that regard. And so I think effective testimony today will largely focus on the other two prongs and not the disability prong, I don’t think will go a long way.

Chair Perry: Thank you MR. Nilsson. I think that answers all the questions I have at the moment, so thank you Mr. Giant, Mr. Poor and Mr. Nilsson for answering my questions. And with that, I want to just reiterate, its 15 minutes for the appellant, 15, and again I want to recap how we do this. We’re going to have the appellant come up, and then they can use up 15 minutes of their time, in whatever way they want to make their case. Everybody who agrees with the appellant then will come up, magically as I’ve been asking questions, this now shows two minutes. Everybody subsequent to the appellant will get two minutes to make a statement. Then I will ask NuWay to come up, give them 15 minutes, up to 15

minutes, they don't have to use all that time to make their case. And everybody who agrees with NuWay or disagrees with the appellant will then make a statement of up to two minutes. SO with that, is the appellant present? If you could give your name; as he's getting up here, the drill will be name and address for the record even if you signed in outside. So, name and address for the record sir.

Ted Irgens (2115 Pillsbury): I'm across the alley from 2118 Blaisdell. I am technically the appellant but I think there's some confusion about that that I'd like to clear up. I noticed in NuWay's attorney's comments about the appeal, they said, oh this isn't the neighborhoods position. This isn't the Whittier Alliances position. There were very few people at that meeting who voted against us and we don't think its representative. You should all have in your packets now, the results of a recent petition that neighbors circulated. Just in the last week and a half they got 283 signatures. And I'm sure a few of those people are here today and you'll hear their comments as well. I'm technically the appellant because I live within 350 feet of the property. But this is certainly on behalf of the neighborhood. So, CPED was right and I respect Joe's position and I think that CPED is doing a great job with some difficult issues. And they've been helpful to me, so I appreciate that. I'm not nearly as eloquent as he is and I'm not a specialist in this area by any means. But I've researched it enough to know that unfortunately CPED has not applied the FHA conditions to the facts and circumstances of this situation correctly. As he stated, there are three criteria. One is whether or not; the request is made on behalf of persons considered disabled under the Act, under the FHAA (Federal Housing Amendment Act). The second for accommodations is necessary and the third, whether it's reasonable. If you look at the first issue, the applicant, NuWay, has said that their new apartments at 2118 Blaisdell would serve former alcoholics and addicts who are no longer engaged in illegal drug use. They say that of course, because if you are engaged in illegal drug use, you are not covered under the Act. It doesn't apply to you. We stop right there. Unfortunately, when they came and presented, many members of the community asked, tell us more about this. Is this basically a sober house? And their executive director explained, well, to some degree, some people will be sober, some people won't. Obviously the people that are not sober do not qualify under the act so they've admitted in our public forum that some of these potential inhabitants would not be covered and would not be protected under the act. And then if you look at the other potential inhabitants, all we've heard from NuWay is that they meet the criteria for alcohol and drug use disorder. That's great; I think we all know what that means. They're alcoholics or drug addicts. But somehow from that, CPED has erroneously concluded that they would be individuals that would be diagnosed with a physical or mental handicap. Nowhere in NuWay's application or any public statement or anything else, have they said that these people have been diagnosed with physical or mental handicaps; simply that their recovering alcoholics or drug addicts. So when you look at FHAA it defines persons with a disability as those with a mental or physical impairment that substantially limits one or more of life's major activities. These are walking, seeing, hearing, speaking, breathing, learning or working. Nowhere in NuWay's application have they made any evidence, or shown any proof that any of these up to 200 residences per year would qualify under the FHA. Somehow CPED has assumed it. I think my neighbors and I understand why; their afraid of being sued by NuWay under FHAA and the city doesn't want that hassle. And so they said, we're going to assume these guys are disabled and we're going to move on to the next stages of the act. But everyone here needs to

understand, there has been no evidence submitted, there's been no proof made. And if they haven't proven that their potential residence would be disabled under the FHAA it does not apply to them. So the one thing we do know about them, is that these potential residence would be former addicts, former alcoholics, that they would have gone through treatment, presumably ninety day treatment with NuWay already. And now they would just be looking for some temporary housing before they move on. So they're recovered, according to them, they've been through treatment; at this point can we still say they are disabled under the act? Are we saying that, they have a mental or physical handicap that interferes essentially with any of those life events or qualities? I don't think so. And they certainly haven't proven it. So the reality of course is that most of these people would, there's no evidence of supplying this or anything else, would be working towards getting back into their normal environments and working and etcetera. Where do you draw this line? When do you say these people are disabled? If I'm an alcoholic, am I disabled for the rest of my life? And, I know the City Attorney has an opinion on it, but the reality is NuWay has made no evidence and no showing that these people qualify under the act. Furthermore, I would certainly take the position that if you have any question in your mind, any doubt as to whether or not they qualify, you have to stop there. You can't grant them a reasonable accommodation under the FHAA. But, if you want to go ahead and assume that they are disabled under the act, then the next question is, is the request for accommodation necessary? So, this is confusing, for some reason CPED looked at that and said, we have to look at whether or not the spacing requirements needs to be lifted in order for them to get to do in that building what they want to do. Well, that's not at all what the FHAA is talking about. The FHAA is talking about whether or not there are policies or procedures that would need to be changed in order to allow disabled people to enjoy housing of their choice in the neighborhood. And, hopefully you've enjoyed reading the fifteen page appeal so you've got all of the references that are there.

Chair Perry: You can probably tell from my questions, I will speak from myself that I've read it. And I know my colleagues have as well. So if you want to just highlight some of those things, I think that would be helpful.

Mr. Irgens: I will thank you. So, you look at the issue whether or not the accommodation is necessary. And the FHAA talks about that meaning, choosing to live in single-family neighborhoods, so as to end their exclusion from the American mainstream. Ok, they also talk about; that an accommodation is necessary if not making it would deny them the equal opportunity to enjoy housing of their choice. As the appeal shows and people will testify I think, the Whittier neighborhood has become so heavily concentrated with housing options with those recovering from alcohol or drug addictions that it is ridiculous to say that they will be denied housing in the neighborhood if you don't remove the restriction to this one specific property at 2118 Blaisdell. As the CPED staff report indicates itself, there are at least 30 facilities licensed by the Minnesota Department of Health and many more facilities that are not so licensed within this one quarter mile area. Furthermore, we know there are 29 supportive housing and or community residential facilities in 40 affordable housing facilities within Whittier. The only evidence that NuWay makes for the necessity of having this restriction lifted for 2118 is that it would be nice for the people to be able to walk to their treatment facility two blocks away. Well they're already allowed to do that. There is so much

housing in the neighborhood. Both in a treatment facility sense and in affordable housing, that it is absolutely ridiculous for them to suggest that this must be done in order to give them housing. So the Family Style case that the city attorney spoke about, did talk about the FHAA, and said that it does forbid spacing requirements so long as they rationally related to a legitimate government purpose. A legitimate government purpose includes dispersing requirements; says that dispersing requirements are designated to ensure that mentally handicapped persons needing residential treatment would not be forced into enclaves or treatment facilities that would replicate and thus perpetuate isolation resulting from institutionalization. So, it's saying under the FHAA, you can't institutionalize people. And unfortunately that's what's happening in Whittier. We have for years now, continuing and continually granted these reasonable accommodations and concentrated virtually all of the affordable and supportive housing in one small area. If you look at the map here, an interesting point to note, The CPED did say that, they claim that this is all an OR2 zone. It is not. The one building, where are we <pointing to map> this is OR2 because it has been an office building for the last 40 years and for ten years before that it was a nursing home for twenty little old Baptist church ladies. But everything around here in the six block area is residential. It is not in the OR2 zone. Lydia House over here <pointing> was smack dab in the middle of the OR2 zone. Everybody knows that. Everybody seems to think Lydia House decided this; we're never going to talk about this again we're always going to waive these restrictions. There are so many distinctions between the Lydia House and the present case; it's almost ridiculous to compare the two. The Lydia House you were talking about one facility. One facility that was an old apartment building that a church took interest in, decided they wanted to make it housing across the street from them. I noted in the most recent appeal, one thing you do need to know about this building, is that it's not a crappy old apartment building in a bad neighborhood. This is a historic property. This is a historic property that preservationist are passionate about protecting in and of itself. And if you don't know, just this past week, it was nominated by the Heritage Preservation Commission for historic designation and protection by unanimous vote. This is not just some facility that could easily be cut up into housing for however many people they want. A couple of other corrections that I note in the staff report was that they said there would be 22 units in the building, virtually all of them in the addition, and then one five bedroom apartment in the ten thousand square foot mansion. That is not accurate, the plans that NuWay submitted last summer show they want to cut up the ballroom into six studio apartments. Furthermore, and the rest of the mansion would be one ten thousand square foot five bedroom apartment. Certainly the biggest I think in Minneapolis. But the point is they can't do what they want to do to this building without interfering and destroying the historic and architectural integrity of it. So I know that's not specifically relevant to the issue you need to decide today, but its part of the context and I think you all need to understand that is part of the bigger picture here. So, going back to the criteria you got. When you talk about necessity....

Chair Perry: Mr. Irgens, you've got about three minutes left so if you could keep that in mind as you're talking.

Mr. Irgens: Thanks, appreciate it. Um, so in addition to not proving that these potential clients would be disabled under the act; they haven't proven necessity. In fact, if you look at the report and you look at the number of facilities that exist and the fact that the FHAA also

means that all of the apartments surrounding must give housing to these people if they are truly disabled. It shows that there is no necessity to remove the restriction for 2118 Blaisdell. Then you move on and say, and by the way, that is the burden of the applicant, NuWay has to prove that it is necessary. It's not just desirable, it's not just convenient, it's not just nice, it's necessary to remove this or these people will be denied housing in the neighborhood. Then you talk about whether or not it's reasonable. And if you read my appeal, you'll see, and this is from testimony from all kinds of neighbors, you can see the fundamental change that's happened in the neighborhood. Unfortunately, I think this happened year after year after year and because it was a poorer neighborhood that people weren't paying attention to, nobody made a fuss about it. But people are moving in, we are trying to develop it. We are trying to make it safer and better. I would love to take my wife and my four month old baby boy and walk two blocks over to Nicollet. But I can't now. I can't because it's not safe and because drug dealers have been targeting this area for years. You talk to the owners of the apartment buildings around, the low income tenant apartment buildings; they will tell you the same thing. Not a single one is for it and if you look at the comments, you'll see that all are opposed. So, if you talk about reasonable, granting this accommodation does fundamentally alter the neighborhood and the zoning there. It's not reasonable considering all of the effects that will flow from it and that have been kind of detailed in the appeal, but furthermore, let's see here...

Chair Perry: Mr. Irgens, you're going to need to wrap up here.

Mr. Irgens: I'm on my summary actually so. Furthermore this is coming at a time where there is big change in the neighborhood, big development. The City's talking about getting rid of Kmart, their talking about opening Nicollet and bringing development down it. It does not fit within the City's strategic plan to let a clustering and concentration of this housing happen. And this hasn't happened haphazardly. NuWay in the last three years has bought or tried to buy seven properties within this two block area. They bought; they've got the facility at 1st Avenue and 22nd. Then they bought a treatment center across the alley from there. They tried to buy the house next door. They tried to buy an apartment building half a block away. Then they bought 2118 Blaisdell where they want to put 200 recovering drug addicts per year in it. And now they just bought the Agriculture Building over on 22nd. So this isn't the kind of clustering that's just haphazardly happening. NuWay is actually creating a cluster and the Act says, Federal Fair Housing Act, says that you have, that creating clusters is discrimination. They're trying to argue, oh, we have to grant this because otherwise we're discriminating against these people. In fact, if you grant this, if you give this accommodation, you are helping to create a cluster which is discrimination under the act.

Chair Perry: Alright your time is up. Do you want to say one last thing?

Mr. Irgens: I think that's it, any questions?

Chair Perry: Thank you very much for your testimony. Are there any questions of the appellant? Ms. Thompson.

Board member Thompson: Yes, thank you for your testimony. I do have a question for you. In regards to the necessity and reasonableness, would you make the same arguments if this was supportive housing for someone that had a physical disability or something like vision impairment or mobility impairment?

Mr. Irgens: I think there is a distinction there. There is a difference and it's important to note. We were talking supporting housing facilities in the neighborhood. There's one for the blind, there's one for mentally handicap right down my block. And I want you all too also understand, myself and my neighbors, we're not opposed to this. We didn't move to the neighborhood and then decide we wanted to get all of it out of there. What we're saying is enough is enough. You have to draw the line. So certainly there are many supportive housing complexes that can live next to each other and are good and an important part of the community. What's happened is there's an extremely gross over concentration of sober housing, which brings the drug dealers and brings everything else.

Murmuring from the audience.

Board member Thompson: So what you're saying...

Chair Perry: Excuse me Ms. Thompson. I'm going to stop right here for a minute. Everyone who speaks is going to be given some respect in here or I'm going to ask you to leave. And I don't want to have to say that again because I will start having people leave. Is that understood? Thank you. Ms. Thompson.

Board member Thompson: Thank you, so just to summarize, you're saying you would not have the same objections if this were a physical disability supportive housing situation?

Mr. Irgens: I think the type of facility that we're talking about is important to note. And I do think it's critical.

Board member Thompson: Ok, that's good. Thank you.

Chair Perry: Any other questions of Mr. Irgens? I see none. Thank you again for your testimony sir. Alright, now, sitting next to me is Mr. Cahill, he's vice chair, he also runs this clock and he's going to say when time is up. So, who's up first? These are people who are supporting Mr. Irgens or his position. Not supporting Mr. Irgens necessarily but supporting his position. Yes sir. Your name and address for the record please.

Myron Orffield (4019 Sheridan Ave S): I am in support of this position because I don't believe that this recommendation is the proper interpretation of the Federal Fair Housing Act. My background is I'm a citizen, I'm also a law professor at the University of Minnesota and this is an area that I have some experience in. The Fair Housing Act prohibits discrimination. It doesn't, against (??). The Fair Housing Act also prohibits the concentration or the perpetuation of segregation. An appropriate analysis for the city to have done; they have to not only analyze whether NuWay is being discriminated against by the denial of an application. And that may be the case. But they also, under the Fair Housing Act, have to

analyze whether the concentration of a certain type of facilities for handicap people amounts to perpetuation of segregation. There's a lot of case law that has been developed in the context of racial segregation. The famous *Betro* (?) case in Chicago, the *Shannon* case in Philadelphia, the *Ortero* case in New York and the *ICP* case in Dallas, and they all say that the perpetuation of segregation in terms of racial discrimination, the concentration of affordable housing in areas of minority concentration per se creates a presumption of violation of the Federal Fair Housing Act. The question really that should be appropriately analyzed here is whether the undo concentration of these facilities in Whittier amounts to that same kind of concentration. That's a necessary, that's what the appellant is alleging, they're alleging, a perpetuation of segregation violation. Now, under the American's with Disabilities Act and under the Federal Fair Housing Act 3604, both prohibit the perpetuation of segregation in addition to discrimination against people. I'd also like to read from the department of Community.....

Chair Perry: Sir you need to wrap up.

Mr. Orffield: Ok. Basically, the analysis, in the city's analysis, says that the city zoning ordinance as presently applied violates the intent of the 1988 Fair Housing Act. It's inappropriate if you're taking an ordinance what the city attorney says is violating the Federal Fair Housing Act to create an accommodation that may more severely concentrate poverty. So, it's a factual question that has to be determined. Ah, I think that the Family Style case suggest that that is an interest that they are trying to achieve. Whether the quarter mile spacing is a reasonable way to do that or not is, I think, an open question. It's not an appropriate analysis and I would say that the city has admitted here or seems to be admitting that the zoning ordinance is violating the Federal Fair Housing Act.

Chair Perry: Thank you for your testimony. Is there anyone else that would like to speak, in favor of the appellant's position? And as you will get the routine, its name and address for the record.

Pete Rhodes (2214 Blaisdell Ave): I'm in favor of Mr. Irgens points here on this particular matter. And I'm somewhat taken aback at the talk of discrimination in that neighborhood, which I know of personally and not about the issue at hand. But I am a homeowner there at 2214 Blaisdell. Our neighborhood is over saturated with supportive housing. I have family who is a part of recovery. I have a letter that I'd like to put in the record as well from the president of Minneapolis Urban League who oversees the Urban League School directly across the street from where the supportive housing has asked to be established. We think that it is unfair that an organization like NuWay, who has a stellar record but, continues like others to be unfair in the distribution of these homes in one concentrated neighborhood. The fact remains that in our city, less than two percent of the city overall provides opportunity for supportive housing. So why all of it has to be concentrated in the Whittier neighborhood, in our neighborhood is truly unfair and I agree with the premises stated by the professor as well. So I close by saying that I support that the findings that Mr. Irgens is pointing out and I would hope that the committee as well will take a look at the over saturation that we have in one neighborhood and make your decision, a right decision, with all the other evidence that has come to light.

Chair Perry: Thank you sir. And if you would like to give your letter to Ms. Porter, the clerk, so we can have it in as part of the public record and I'd like to thank you for keeping in it within the time limits. Next person who is in support of the appellants positions please. Name and address for the record please.

Marian Biehn (no address given): I am the Executive Director for the Whittier Alliance Neighborhood Association. Good afternoon. I believe you have in your packet the information from the neighborhood not supporting the purposed use of 2118 Blaisdell Ave. In addition I think I'd like address the quarter mile spacing and the.....

Chair Perry: Ms. Biehn, sorry for interrupting, are you speaking on behalf of yourself or on behalf of the organization?

Ms. Beihn: On behalf of the organization.

Chair Perry: I'm sorry for the interruption, so you're speaking on behalf of the organization. Thank you.

Ms. Beihn: The Whittier Alliance Board does not support the addition of yet another supportive facility at this location or within the Whittier neighborhood. The Whittier Alliance Board submitted a letter to this affect back in May 2014 to the city and the recent petition supports this position as well. The neighborhood is saturated. None of the existing facilities are being asked to leave. The neighborhood is just saying no more. The quarter mile spacing we are asking at the Zoning Board and the City support the use of the quarter mile spacing as it was intended to limit the amount of supportive and transitional housing within one area. NuWay has identified that they have two additional community residential facilities. One at 2200 1st Ave and one at 2518 1st Ave. Both are within a quarter mile. They have accommodated the need for housing. Just within their own organization not to mention the other organizations that provide similar housing. That reasonable accommodation has been met. This is also an equity issue. The City of Minneapolis has identified equity as a value. At this time the number of supportive and transitional housing as identified on the map is; emergency housing and sober housing as well; in Whittier and Stevens Square. Loring Park is inequitable in comparison to the rest of the city. And so, it is a zoning issue and it is...one of the findings, it is a zoning issue that needs to be addressed.

Chair Perry: Your time is up. Do you want to conclude please?

Ms. Beihn: Yes. I would also ask you to take a look at the police reports that we submitted, that we have submitted. And also a final statement that was in the packet from one of the residence who lives next to 2518 1st Ave which identifies some burden on the public and police.

Chair Perry: Thanks for your testimony. Thanks for coming down. Is there anyone else that wants to speak in favor of the appellant's position?

Laura Jean (2456 Harriet Ave S): People who need services deserve to live in any neighborhood in Minneapolis. Not to be siloed into one with over concentration of services and poverty. It's time for equality in Minneapolis. Enforcing zoning code and the diversification of supportive facilities is a good place to start changing the City's shameful history of contributing to the worst disparities in the country. Please support the appeal and deny NuWay's reasonable accommodation request. Thank you.

Chair Perry: Thank you for your testimony. Anyone else that would like to speak in favor? And what I might ask is if you're going to speak, you can queue up and that will speed things up a little bit; behind the speaker. Again in whatever order you want. Your name and address for the record please.

Erin Sjoquist (2404 Pleasant Ave S): I just wanted to start by saying I support treatment facilities, rehab centers, transitional housing, these are much needed services that our community needs to support. What we don't need is a saturation of these and that's really what's happening for all of these types of services. So as a resident homeowner in the neighborhood with small children I want a more balanced neighborhood. Not one that goes one way or the other. Thank you.

Chair Perry: Thanks for your testimony. Yes sir. Your name and address please.

Jeff Rabkin (2536 Pillsbury Ave S): I also own a business at 2601 2nd Ave S so I spend a lot of time in the neighborhood. It strikes me as a longtime resident and employer in the neighborhood that there is this concentration. The quarter mile rule may not be working very well. But it seems to be the only thing out there to at least try to mitigate this over concentration of supportive housing. I support the diversity of the neighborhood and I'm happy to live in a neighborhood that has the diversity and I'm concerned that the diversity is eroding and that we are creating a zone, a clustered zone. I see the NuWay project not really as housing but as a transitory business opportunity to bring people through the neighborhood on a very short term basis and not establish people as long term residence that would have a long term commitment and integration as part of the community. And I would like to see that whether people have, have recovered from drug and alcohol addiction and their ready to work and live in the community, I would welcome them to make long term commitments to that community and not just be run through a mill that seems to more about making money than about providing long term stability for people who need it.

Chair Perry: Thanks for your testimony. Is there anyone else that would like to speak? Yes sir. Your name and address please.

Daniel Rogers (2728 Stevens Ave): I'd just like to thank you all for the opportunity to speak. I'm a new homeowner in the neighborhood. And uh, one of the things attractive to me was the local investment and local concern that the Whittier Alliance has for the neighborhood. And I would just like to say that having a concentration the way you do in one neighborhood as opposed to the other neighborhoods within the City seems that it is not reasonable and it does not seem to be a necessity considering the density there. Additionally, I think it's proven that Whittier neighborhood is supportive considering this concentration.

So that's not the issue at hand. It's just are you going to put everything in one place and not...really eliminate a potential tax opportunity of a historical landmark in the area. And then, further, when would you draw the line if not now. So is it at number 60? Is it at number 31? Where does that line come into play and when do we start considering it?

Chair Perry: Thank you sir for coming down and testifying. Your name and address for the record sir.

Uriel Camarena (116 E 22nd St): I moved into the neighborhood 13 years ago. I restored one of the Pillsbury Houses. One similar to this one that is three blocks away from this location. I moved into the neighborhood because I started seeing that there was some transition going on. The neighborhood was changing; there was more permanency in the residence. That's really what makes a community. You already heard about the codes and city ordinances and I'm not going to bore you with that. I think it's all been well said throughout this evening. I would like to put yourselves in the shoes of the resident that has put a lot of heart, soul, money and effort into the project to revitalize the area. And that's really what my concern is. So if you could consider that and look at an area that is so close to the city and is so clustered with so many types of these facilities and the type of residency we have there is just not permanent. People are not vested into the neighborhood because they couldn't be. They don't have anything to be vested for. If you could consider that, I would appreciate it. Thank you.

Chair Perry: Thanks' for your testimony and for coming down and giving it. Is anyone else like to speak in favor of the appellant? Anyone? Yes sir. Your name and address for the record please.

Chris Murphy (2112 Pillsbury Ave S): That's a rental property in the neighborhood that I own, a 14 unit rental property. I only learned of this meeting this afternoon or earlier today so apologies for lack of preparation. And I could hardly do justice to the legal points that have been raised previously. I'm not a lawyer; I'm an IT guy and such I think very quantitatively. Some metrics that I didn't hear that I think are missing are, first of all, quantification of what it means for this facility to be necessary. I don't understand what that means. Does that require that there be a surfeit of alcoholism and drug use in the neighborhood that needs to be accommodated by an addition facility? I haven't heard any quantification of that metric. The second point that I'd ask you to consider is whether NuWay has a proven track record of turning around people's alcoholism and drug abuse. I assume they must as they've been in operation a long time. But importantly, I would see to quantify the rate of what I guess I would describe as recidivism. In other words, do they have repeat offenders? People that got reengaged in the use of drugs and alcohol, and if so do they have a proven quantified track record of turning those people away? As I think that is a measure of whether those people are truly protected by the FHA or not. Because if indeed they reengage I'm certain they're not protected based on my 30 minutes of research here while we've all talked about this point. And indeed, turn, if they have people that are repeat offenders and they are not turning them away, I think that goes back to the question of necessity. Is there excess capacity in existing facilities being used up by people who are not protected because they've chosen or otherwise being forced to reengage in unprotected practices? And then finally I heard some metrics

earlier that caught my attention as regards to the quarter mile metric and how much of the City's property could actually be used to support these facilities. What I didn't hear was any comparison across, and I appreciate and respect that that metric is a very low number, but what I didn't hear was a comparison of density across all the regions. Does this neighborhood stand out in terms of the density of this type of facility? Because based on the metrics that I did read in Ted's document, it would seem to.

Chair Perry: Your time is up. Thanks for coming down and giving testimony. Is there anyone else would like to speak in favor of the appellant's position? Yes ma'am. Name and address for the record.

Susan Scofield (2536 Pillsbury): I have lived there for 15 years and I've owned a business at 2601 2nd Ave S for the past eight years. I didn't come here prepared to speak at all. I just wanted to come up and voice my support for the proposal that Mr. Irgens has put forth. I did want to pick up on a point that he made, pardon me I forgot his name, but um, about the school. And I wanted to make sure that you are aware that this facility at 2118 Blaisdell would be right across the street from, as he mentioned, the Urban League High School. It would also be across the street from the elementary school and playground at City of Lakes Waldorf School. And it will also be certainly in a stone's throw of PPL's MERC alternative school where students who have to experience alternate high school environment go to. And I just want to voice my support for his proposal and let you know that there are children walking around the neighborhood. I just wanted to make sure you knew that fact as well. So I would urge you to support Mr. Irgens' proposal.

Chair Perry: Thanks for coming down and giving testimony. Is there anyone else that would like to speak in support of the appellant's position? Anyone? Is a representative from NuWay here? As I said in the beginning about 45 minutes ago, I will give you up to 45 minutes. I'm sorry, 15 minutes. I will not give you 45 minutes; I will give you 15 minutes to make your case. And after which, anybody would like to give a statement in support that position or against, if it's not directly in support, or against the position of the appellant with a two minute time limit. And I'm going to ask again, I'm just going to reinforce this, I don't want to hear demonstrations of applause or booing. That is not the way this Board operates and that is not proper decorum for this body. So if you'd give your name and address sir.

David Vennes (9 West Franklin Ave S): I promise to take less than 15 minutes. I'm just going to introduce myself and a little bit about my organization and why this is important to us. NuWay began in 1966; we began in the Whittier neighborhood. We were a grass roots organization that came out of 2218, which is also in the Whittier neighborhood. The Whittier neighborhood actually is the birthplace for the beginning of the recovery movement in the state of Minnesota. The first member of Alcoholics Anonymous started the, helped start the 2218 Alano Society in 1943 I believe, the year of or the year after the Armistice Day blizzard. My organization begin in 1966, it was one of the squads at 2218. Decided to pass the hat and they asked 2000 recovering alcoholics to donate \$10 a piece and they came up with \$20,000 and bought NuWay I which is at 2200 1st Ave and opened it in 1966. They were the first that squad was the first Board of Directors, they were the counselors, they were the cooks, they were the staff, they were the accountants and they ran that facility for the first

two years. Arguably I believe it's considered the first or second halfway house in the state of Minnesota. Fast forward 49 years later, here we are today. NuWay is still a non-profit organization and we own and operate four treatment centers. There's one in Northeast Minneapolis which is an outpatient treatment center. And we have three in the Whittier neighborhood. We have the original at 2200 1st Ave which is a residential treatment center. And then we have NuWay II which is 2518 1st Ave which is also another residential treatment center. We just opened our latest offerings at 2217 Nicollet which is an outpatient chemical dependency treatment center. Our vision and what we intend for 2118 Blaisdell is to offer a step down essentially or transition for our clients coming out of our two residential programs. Coming out of, we deal with highly acute clients and coming out of a residential program, a short term residential program can be a pretty steep jump. It can be a little bit like jumping in the deep end of the pool. And the Blaisdell property gives us the opportunity to work with these folks an additional two or three months after they get out of the residential treatment center. The stipulation or condition of that is that they'll be involved in the counseling center at 2217 which is a block away for up to 20 hours a week of counseling. That extra two or three months that their residing or living at Blaisdell is really critical for these folks, for these highly acute folks most of them homeless coming into our program, to get employment opportunities and housing opportunities once they leave. So that was our vision when we did this. I think that it. I think I just want to open it up. I just wanted to kind of give you a quick synopsis of the company and how we envision this offering benefiting our clients. Thank you very much.

Chair Perry: Thank you for your testimony. Any questions of Mr. Vennes, I don't see any. I will just point out to the public. We on the board have a rather large sized packet that includes the original application. So quite a bit of the information and much more that was presented by Mr. Vennes is in our hands and we have read through that. So, we'll start with our two minute presenters. And if you could line up, I think that will make things go faster. Rather than getting up after the other person has finished up. This is like merging in Minnesota. Please get up and get in line, and if you could give your name and address for the record.

Valerie Quintana (4541 Oakland Ave): I'm here on behalf of myself in support of NuWay. So this appeal and the reasonable accommodation affect me personally in many ways and also some of my business. I found out about the appeal because I work with Joe Giant and Steve Poor, I have sober houses, two in other areas of South Minneapolis that have received a reasonable accommodation. And I wanted to have a home in the Whittier neighborhood and found out that this actual appeal was going on. And so I got involved in that manner. And I want to be in that area because of 2218, the oldest AA club, there for in the world as well as the bus lines and the access to the services, and there's a lot there in that area. So that's kind of why I wanted to be there. In addition, there aren't a lot of five bedroom houses in Kingfield and Longfellow and the other neighborhoods that I am in and would like to be in. But for the cost, there just aren't any of those kinds of old houses. So my reason for being in favor of it particularly because it's a Federal law that you can't discriminate against people because of the Fair Housing Act. Also because, I was a little befuddled as to why many of these people who've moved in the last couple or few decades into the neighborhood, into a neighborhood that has been known for supportive housing facilities since the 40's and the

60's. Then in response said well why are they all here and why is staying the same or growing. I don't know to what degree these 30 have grown. However, the number 30 is misleading. I want to clarify and that is because a lot of them are like group homes and senior homes. But just to say I also am an alcoholic in recovery and I was one of those people. I am part of the riffraff, been sober for 18 years. So is our mayor. Minneapolis Mayor Betsy Hodges. I brought an article about her. So, some of these people going to NuWay may actually be our mayor someday. None of these that are there.....

Chair Perry: Your time is up.

Ms. Quintana: So I can wrap up?are actually women facilities. So I'm female owned and operated. We have a zero tolerance for any alcohol or drug use. They're immediately asked to leave. And I do have information as well that I brought about the Fair Housing Act where there's an amendment; if it pleases you I can show you...

Chair Perry: Your time is up. If there is anything you would like to share and have as part of the public record if you could pass that along to the clerk.

Ms. Quintana: It just states that alcoholics are absolutely protected when they're in treatment. And it's an amendment, its (??) and I can provide that information. They're absolutely when sober and not actively using, they are absolutely protected as people with disabilities under the Fair Housing Act.

Chair Perry: Thanks for that testimony and that information. Yes sir. Your name and address for the record.

William Moyers (873 Fairmont Ave): Which is Ramsey County for those that don't know, which means that I'm here from across the river, and you may wonder why? Well I'm here this evening because I understand the prospective and the issue as it relates to NuWay's prospective. And I understand the issue as it relates to the residence of Whittier neighborhood. I understand this because of my professional role as the Vice President of Public Affairs and Community Relations for the Hazelden/ Betty Ford Foundation, which is an institution in this state and across this country. But I also understand this issue from a very personal perspective as well, because I am a person in long term recovery from addiction to alcohol and other drugs. Without a doubt, I owe my life today to the chance I had a long time ago to begin my journey of recovery in a neighborhood that is exactly like Whittier. In 1988 after coming out from the east coast to Minnesota for treatment, I was told that I needed additional support. And so I was sent to what we use to call a halfway house; a house that was run by Hazelden on West 7th St in St. Paul. It was there that I learned, not just how to get sober but it was there that I learned how to stay sober in the context of the real world, the rest of the world, the world that we all live in. I lived in that supportive housing for five months in the fall of 1989. And 26 years later, I still live in the hood. About a mile or so from that supportive house and it's still called Fellowship Club. Because of that experience, today I am a homeowner in Ramsey County and a tax payer. I'm a father who raised his three children in the hood. I'm a consumer of products and services made and sold in Minnesota and in fact I once had a mortgage with Wells Fargo and I made my payments on time. Most of all what I

achieved was how to live my life as a responsible citizen. Back then and to this day. What allowed me to get back and to get going again was the hope that I could make it.

Chair Perry: Sir, your time is up. And you need to wrap up.

Mr. Moyer: And my reality is that I understand where the neighbors of Whittier are and I understand where NuWay is and I will say this. I take issue with the petition that was passed around that said this place would house 200 addicts and alcoholics. No, it would house people who are in recovery. Recovery like I am.

Chair Perry: Thank you. And thanks for making the journey across the river. Yes, your name and address for the record please.

Jen Kennedy (112 W 44th St): I'm here because I also am in recovery. I'm in active recovery and if not for people who gave me a chance when I thought I had no chance left. And those around me thought I had no chance left of a better life wouldn't stand up for me. I had back up; I had people who said we believe in you. And there's this giant burden sometimes of people that say recovery, addict, that you'll get out of it. This is who you are as a person, it defines you, it's there forever. It is there forever. It's whether or not you chose to surround yourself with people that will help you get through it, help you through the journey and help you get to the other side and then become a member of the community that helps others. And that's what NuWay has done. That's what many sober houses try to do but they don't succeed in that because of funding, because of not wanting to put the right schedule and particulars together in order to help people, and they become a bed turning machine. There are certain companies and sober facilities that really reach out into the community to try to make people back where they should be, tax paying citizens, people who are there to help out. And you know, you want to say there are schools around the area, this is my neighborhood, I'm trying to protect this. You never know who your neighbors are. So maybe you think their sober individuals and they don't live in a halfway house but they could be just as dangerous as your idea of what an addict is. I'm here to support NuWay; I'm here to support recovery. And I'm here to say that people with addiction and alcoholism are people that got lost in the fray and they do have a place in the world and they do have a place here, to be heard and to be respected.

Chair Perry: Thanks for your testimony. There's someone behind you sir, so I'm going to direct traffic in this one rare instance. Ma'am if you want to speak.

George Johns (No address given): I live over in St. Paul also.

Chair Perry: Say your last name again sir.

Mr. Johns: Johns. J-o-h-n-s. And I got sober here in Minneapolis. I came out of a long term treatment center, I'd been in multiple treatment centers. But what really kept me sober was the halfway house situation I came into here in Minneapolis and the relationships I developed. And attending 2218 which was my home group is right up here, right in this neighborhood we're discussing. And I continue to bike over there from the halfway house. I

started sailing on Lake Calhoun; I became a part of this community. Presently I live over on Ashland Ave in St. Paul and within a quarter mile I have at least four halfway houses, other types of treatment centers. Within a half mile we have multiple halfway houses on Summit Ave. Right down the street from the Governor's house. Examples as far as architecturally are, some examples are very similar to the type of historic designation people, the great historic value people are thinking this building has. And if you were actually to see any of these buildings on Summit Ave, over in St. Paul and to go view them, you would see the kind of care that's being taken, that is taken of them, and the people that are involved in helping to maintain these buildings, again on Summit Ave. And the actions that are being taken to maintain these things are the organizations that own them. But also the residents are part of that. And, I'm not sure about where this is all coming from. But there is a real productive part of (??) what goes on in recovery. And when we talk about housing and having them as neighbors I do presently, and you know what, I live in a safe neighborhood. And as far as the down side of what's going to happen from these people moving in; I've been in that building many times and boy it's really in poor shape and it's only going to be improved if these people were to reside there.

Chair Perry: Thank you, your time is up. Thanks for coming down and giving testimony. Yes ma'am.

DeEtte Davis (2910 Dupont Ave N): I do support NuWay. I come representing as a recovering alcoholic and addict of eight plus years. And after twenty seven years of use, of alcohol and drugs, and camouflaging in what we call normal society where I didn't even understand myself, I've come to find out that I do have a disease and it is an illness and it is a disability. And it's something that will never go away. I also represent someone who works in the industry, in sober housing, and I see the difference. We are a striving and a thriving sober house. We have, I see the women come in with glow and they leave with new responsibilities and a new way to live. It's very difficult sometimes for us to recover and then go directly home. I've been a real estate agent, I've owned several properties. I absolutely understand the Whittier residence, I really get it. And I know. But I've also heard from a lot that they didn't understand what recovery is. They just don't know, and I get it, it's not personal. We have to deal with that with ourselves. We know that people don't know what we are. You don't know until you've gone through it. However, I will say for those that go into sober homes, we teach them how to live again. We teach them how to go to work. We teach them productivity. We have a very structured environment, the same as what NuWay is trying to provide here. And these women love it. They love the neighborhood. Their like we love these homes. It makes them feel good when they come into these homes and they see that their beautiful and their decorated nice. And that we're serious people about their recovery. And for the record, we don't take no b.s. In our homes we don't. We serious know whose there to work on their lives and whose there that's not. And we get rid of those that don't. And the last thing that I'll say is, as long as I've been in recovery or on earth, I've never heard of anybody that's left recovery and hung outside of the treatment or sober homes. They usually want to run away and hide their relapses. So with that I'm done. I pass.

Chair Perry: Thank you. And for everyone that gets done in time I want to thank you especially. Yes sir.

Chris Lorenz (2620 Chicago Ave S): I'm a person in long term recovery. What that means is I haven't used drugs or alcohol since March 6th of 2011. I went through treatment, I went through a halfway house and I moved into the Whittier Clinic at 2004 Grand in August of 2011 with six months sobriety. And it was following the recommendation of my counselors at Pride and at Progress Valley. Because of the help that they gave me, because of the communal support of that sober house, I've been there for 25 months. I've put my life back together, I work in the neighborhood, I walk down 22nd St past the Blaisdell Mansion. I walk through Fair Oaks Park, I go past MIA, I go across the bridge. I lived in South Minneapolis at 5536 (??) for 18 years. I lost my house to my addiction and I moved to the Whittier Clinic because that is where recovery was happening I was told. And I found it there and I feel safe there. I am the face of recovery. I'm paying my back taxes; I'm productive in the community. I work, I bike and I live there. This is important for people in recovery. Thank you.

Chair Perry: Thanks for coming down and giving testimony.

Kim Franzen (600 W Franklin): I just want to say really quick and fast. I went to treatment at a house which is in the Whittier area. I went to Kateri House which is a halfway house in the Whittier, transitional. And then I found it very hard to find housing in the Whittier area along with a lot of clients that were in there with me. It isn't just everywhere. There was waiting list, long waiting list. However, I did get a place after being in Kateri for a year. And now I live in the Whittier area in my own apartment. But that's all I wanted to state. And also that like, something that I think is important to note is that addicts when we like relapse or go back, we don't want to be around sober houses. That's the last place we want to hang out. Thank you.

Chair Perry: Thanks for your testimony. Thanks for coming down.

Laura Paulie (4331 5th Ave S): I just wanted to say that I'm in full support of what NuWay is trying to do and Valerie with her sober living. I am in early recovery also. I was in Hazelden for three months and I'm not currently living in a sober house. I have a job, a career. I have a car. I pay my bills, I pay my taxes. I'm really young. I really do owe it to Hazelden and the other people in recovery themselves that are doing sober living. I have them to thank for having me stand here and speak for this because prior to going to treatment I probably wouldn't be here today. So this isn't about, um, it really is life or death. Personally I can just say that. And uh, I don't feel like I'm a threat to society. I'm just as terrified of crime and drug dealings as anybody else in the Whittier neighborhood. So, I just really hope that people can differentiate active users and those of us who are in recovery trying to put our lives back together. Thank you.

Chair Perry: Thanks for your testimony. And thanks for getting done on time. Yes sir. Name and address for the record.

George Antrim (Eat Street Flats): My law practice is located on Ridgewood, 201 Ridgewood. So this is my hood. I also serve and have served in the last four years on the

Board of Trustees of NuWay. It's true it's a recovery community. What I want to say is that NuWay is part of the solution, not part of the problem. Thank you.

Chair Perry: Thanks for your testimony. Is there anyone else that wants to speak either in favor of NuWay or in opposition to the appellant's position? Yes ma'am.

Joanne Sitt (2731 5th Ave S): I am in favor of NuWay's petition. I also have experience. If I hadn't left 26 ½ years ago, and become involved with a supportive community of friends, I wouldn't be sober today. I wouldn't be a tax paying member of society. I wouldn't have been employable. I've lived in Minneapolis a very long time and I love the City. I love its diversity. Where I live, I live a halfway house behind me in my backyard. And quite honestly there've been no problems with anybody at that facility, there have however been more problems at the people across the street at Wells Fargo. And just so you know, they're great people but some of them do things that aren't very nice in our neighborhood. So, I'm really glad that NuWay is around and that they offer the supportive help that they do. And thank you again; they are part of the solution. Thank you.

Chair Perry: Thanks for your testimony. Yes sir.

Richard Gooley (4541 Oakland Ave): I am in support of NuWay. I think that if this does go NuWay's way and they get their housing, that the neighborhood would be pleased with the way that the home is taken care of. And then the way the additional apartments are built. I would be, I've been to NuWay, not as a treatment center, but just seen their facilities that they do have. And they're a high quality. And as far as going to treatment and having that extended cushion before going back into society, I think that's a very valid point, and gives a person a chance to readjust. And as far as like a mill, you think of treatment center, it's not a mill. It's bringing people into this society and then cleaning them up. It's more like you go in there and then get your sobriety and then come out and live in the neighborhood. I think Minneapolis and St. Paul has a very high number of people that have come here, stayed here and built their lives in recovery here. I'm also in recovery for long term. So, thank you and that's that.

Chair Perry: Thank you for your testimony. Yes sir.

James Bransford (St. Paul): Good evening. I too am a person in recovery. I was coming over initially to be an observer, a silent observer, because I live on the other side of the river too. But for the last forty plus years, I have been the beneficiary of a neighborhood based recovery halfway house. It was not NuWay but it was about ten blocks from here. On the 3100 block of...right off of Lake Street. And I speak in favor of their application because the people at the place that I was, and I heard some illusions to negative consequences or possible negative consequences. The people at the place I was were airline pilots, ship captains, IBM computer engineers, M.B.s, and a few street people. But a common pollution of recovering people who were beneficiaries of being, learning how to be sober in a neighborhood as opposed to an isolated outpost. I think that a fitting memorial if you will to the Pillsbury building, Pillsbury mansion, would be something that is not related to Mount Rushmore but something more like an organic flower or a growing reciprocal relationship

between the neighbors and the recovering people. So I thank you for allowing me as a non-resident to address you. And I am definitely in favor of NuWay's application.

Chair Perry: Thanks for giving testimony sir.

Diane Carr (1407 6th St NE): I also am a Board of Trustees of 2218 Alano Society, which is the oldest still functioning Alano Society in the world, continual functioning. We work well with NuWay. NuWay is a complete asset to this neighborhood and this community. We are about recover. I am also a person in recovery. I have twelve years of recovery. And NuWay works with 2218 AA as a positive role model in this community. And I am in support of their petition. Thank you.

Chair Perry: Thank you for your testimony. Yes ma'am.

Leah Benson (112 W 44th St): I'm just going to address two things that I've heard, one about the quarter mile. I have a severally autistic son, from my understanding would fall under that because I receive services in my home. It's much broader; it's a broader generalization than just sober houses. So that being sad. Right around the street, right around my corner, just went a new sober house. And I had some concerns and it has been fabulous for our entire area. I get really nervous, I hate talking, was not going to. But we have some really bad houses around us. And the best thing that has happened is the sober house, in terms of structurally, people, everything. So I see it both sides but I am 100% for NuWay. That's all I want to say. Thank you.

Chair Perry: Thanks. Thanks for your testimony. Yes sir. Your name and address for the record.

Allen Braun (4231 Woodland Trail): I'm in recovery. Been sober 31 years; and I'm on the Board at NuWay. During the course of my recovery, I had the privilege of working very closely with sobriety high schools. These were public high schools that offered positive peer pressure. And I can't tell you the number of kids I saw who were on the road to prison and we helped them get to college and graduate from college. It is part of the solution, the neutral support.

Chair Perry: Thanks for testimony. Yes sir.

David Boughtan (404 3rd Ave N): In 2012 I found myself in the pitfalls of alcoholism that would last until, until about March of last year when I found myself finally accepted to NuWay. And through the services at NuWay and the philosophy at NuWay, I found myself employed within two months and my physical sanity restored within a three month program. I graduate NuWay inpatient in June of this year. And I've been able to make so much progress in my life with NuWay and their extended services. Unfortunately this type of housing wasn't available to me. I went through another type of housing program before I was able to move on to the type of living situation that I have today. But I'm very thankful for NuWay and the services that they offer in the area. And I believe that the way things are in

the Whittier neighborhood today are a direct reflection on the things that organizations like NuWay and 2218 have done for the neighborhood.

Chair Perry: Thanks for the testimony. Yes ma'am.

Patricia Gilbertson (404 3rd St N): I am just here in support of NuWay's project.

Chair Perry: Thanks for coming down and giving testimony. Yes ma'am.

Gloria Quintana (4033 Portland Ave): I'm here to speak up for my daughter who has one of her sober houses right across the street from me. And I'm very proud of her. And I feel safe there. She has another sober house too not far from my house and I feel totally safe in the neighborhood. I don't have any problems. So I'm really very much in favor of her reaching her dreams that she's had for a long time. And I'm totally supportive of her. And I'm just very proud of her.

Chair Perry: Thanks for coming down and giving testimony. Anyone else like to speak in support of NuWay or in opposition to the appellant's position? Yes sir.

John Jacobson (2430 Pillsbury): In 2003 I went to NuWay. It changed my life. I live one day at a time in the program. I walk this neighborhood every single day and I feel like I'm a guardian angel walking out there and protecting anything that I see wrong. And I don't see anything going wrong in this neighborhood. It's a very safe neighborhood. At least that's what I've noticed since I've been there for one year now. I'm a barista at Dunn Brothers at the Convention Center. I love my life, I love my job. And NuWay gave me a second chance at life. And I'm very grateful for the compassion and professionalism that was shown to me when I stayed there.

Chair Perry: Thanks for coming down and giving testimony. Is there anyone else that would like to give testimony today; either in support of NuWay or in opposition to the appellant's position? Anyone? And with that we are going to close the public hearing which means no more public testimony. Board comment? Ms. Thompson then Mr. Finlayson.

Chair Perry closed the public hearing.

Board member Thompson: I have a comment and then a question for staff. First off I want to say I support staff finding. My comment is that, I think, as the city attorney has clarified, the Fair Housing Act covers people recovering, like, it designates people recovering from addiction as disabled, people with disabilities. And I think we need to as a board looking at this topic in front of us, um, not think of what kind of disability they have but that they have a disability and that they are covered under the Fair Housing Act. I think that would clarify some of, a lot of the confusion that may be around this. And um, my question for staff is, can you speak to the distribution of supportive housing around the City? I heard a lot of testimony mention that Whittier is a concentration of this and I'd like to hear staff respond to that.

Chair Perry: Mr. Giant.

Staff Giant: Thank you Board Chair, thank you Board Member Thompson, as we spoke about earlier; the City has a substantial amount of facilities. As you can see it's dispersed throughout the entire city. There are more in south Minneapolis than there are in other parts. This part of the city is denser than other parts of the city. It's zoned appropriately for this use. So, as um, so body pointed out, you can't just say it doesn't work in an area because it's now zoned a single-family residential or zoned high density residential. So, it's natural that uses that are allowed in higher density zoning districts will show up in higher density zoning districts. And that's what south Minneapolis, kind of on the cusp of Downtown is.

Board member Thompson: Thank you.

Chair Perry: Mr. Finlayson.

Board member Finlayson: First of all, I want to thank you all for coming down here and speaking with passion. And, I heard first from people who owned property. I'm a property owner, I understand wanting to protect property. And as part of that, I also heard from people who had other interest in other social ventures in the area. Not particularly related to the one under discussion. And then I heard passion from the people who are in favor of this, people who are in recovery. And like most of us, I know some people who are in recover, and I know some people who never made it. It's very valid. But really, when I look at this; I have to go back to the type of file this is. This is not a variance. What this is, is; did the Zoning Administrator make the correct interpretation. It's not about the passion for property or the passion for recovery. It's about what we've got to deal with. So what we have is Mr. Giant and Mr. Poor and Mr. Nilsson telling us that basically we don't have a choice. That this fits reasonable accommodation as defined by the Federal government and is sued out in the Lydia House. So, I'm looking at this and it's very simple for me, I have to support Mr. Poor's decision to define this as he did. I'd like to hear from other board members please.

Chair Perry: Thanks Mr. Finlayson. Mr. Saufley.

Board member Saufley: Thank you Mr. Chair. I'd like to thank Mr. Finlayson for his comments. I think they hit the nail right on the head. Though as the resident in this district, I guess I do feel the need to thank everyone for coming out and sharing your thoughts. I think they were great things to share if there was a next stage in this process. But I am in support of staff findings.

Chair Perry: Thank you Mr. Saufley for those comments. Any other board comments? Mr. Cahill.

Board member Cahill: Thank you Mr. Chair. With regard, first of all, let me just share the appreciation that we have that everyone is here. This is not an easy question, and it's one that we face the realities of; communities and peoples and individuals and their choices day to day in the world. With that, I know, I'm extremely familiar with the property; I lived for a year at about 1800 LaSalle. About three blocks from the proposed property. And I hear the

residents; I remember watching drug deals go down in the parking lot of Family Dollar store. It is part of urban life in that area. With that is, I'm also a public defender, and with that I spend every day with folks who are in recovery, in the process of recovery and who have fallen away from recovery. With that is, that it is not any of our decisions here to take away from those journeys or what is required or what is asked. But, we are asked today to make a very precise legal determination. With that is, did the zoning administrator make the correct decision? More specifically, is he correct in his determination that waiving the quarter mile spacing requirement for a supportive family facility, or excuse me, supportive housing facility is a reasonable accommodation mandated by the Federal Housing Act. I have to support staff finding in this. And let me go through the findings. One, it does serve the disabled. There was some question raised about whether the persons here are inactive or whether or not they are truly sober. That's a question of enforceability and that's a question that mandates which certainly can be looked at by the conditional use permit. But if we are going about what this is going to be used, that will be treating those that are in recovery while providing supportive services, that is indeed fit under the protections of the Federal Housing Act. Two, is it necessary? While relocation, or whether or not they can be placed anywhere else in the city is not the prime consideration and it is not the ultimate bar to grant an accommodation. I think what we are looking at is, this is a community which we are, we want to avoid the fact that we are creating ghettos of, or leper colonies of folks who are in recovery or who are disabled. At the same time, the very problem with community is that it is also the strength of the recovering community. Support services, integration with the larger lifestyle, access to transportation networks, the diverse homes that are there. This speaks to me that this is the community that we want folks to be supported in. This is helping to integrate back, to work with them on that road to recovery. They too are citizens, ten weeks or not. They have responsibilities to this. My encouragement is certainly to everyone else in the community, you have a right to hold them accountable. And there are methods in doing so. I encourage to use whatever tools you have to do that, but that's with a conditional use permit, whether that's with the police. These are individuals that you hold responsible but at the same time, that doesn't mean we give them the opportunity, we don't deny them the chance to do that, to make that change. Finally, whether or not this is reasonable? And really I think this gets to the heart of the nature of clustering. We've had allegations that somehow some of these folks might be trouble, might encourage some sort of illegal activity. Or if it's not themselves, that they are an attractive target for those who would engage in illegal activity. That this is a fluid population, that they lack investment, that their not long term residence. But really what we're talking about is also the clustering; this is about providing supportive communities. And I really go back to the necessity and the reasonableness. The only way this place can exist, the only place it can do its work, is to provide them a community which has a number of resources around them which gives them access to the city at large, which allows them to work and live and to live beyond the confines of their use. With that, I think, providing them a home, which is a step down service, which is an incredible difficult thing to find, which is incredibly difficult step that is moving them to integrate them back into successful society, this is something we need. Giving that, I think the placement, the surrounding, the neighborhood which we place in is entirely reasonable. For those reasons I support staff recommendations.

Chair Perry: Thank you Mr. Cahill for your thoughts and the detail too. Is there any other comment by our board? Mr. Ogiba.

Board member Ogiba: Thank you Chair Perry and just to reiterate the comments from my fellow board members; thank you to everyone for coming down here. It's the passion and care for our City and our neighborhoods and our ability to join together and have an open public and civil conversation about this that makes this a great city and a great state and a great country in which I live, so thank you all for your time. Um, I'm in support of staff findings. I think, to make one point in regards to necessity, the map that is in front of all of us right now, I think speaks loudly to the necessity for these types of facilities. Just look at the number of facilities that we need to have in the city to support us today. I think all the other points have been covered and if the Chair would like, or would entertain, I would like to make a motion.

Chair Perry: Absolutely, I think everybody has had a chance to speak who would like to speak, so if you would like to make a motion, please do.

Board member Ogiba: Thank you Chair Perry. Um, I would like to make a motion to support and adopt staff findings and move with the denial of the appeal of the decision of the zoning administrator.

Board member Thompson: I second that.

Chair Perry: There's a motion from Mr. Ogiba and a second by Ms. Thompson to adopt staff ding and deny the appeal of the zoning administrator. Before we do the roll call, I just want to take a moment too to thank you all for coming down, regardless of what your position was today. Um, I heard a lot, people used the word passion, if there was a stronger word, that word unfortunately has been used up, but it's clear that each one of you cares very much about not only, what is happening with yourselves but also what is happening with other people, and not buildings but other people, which is a great testament to this city and to all of you who have come down. So with that, will the clerk please call the roll?

APPEAL OF THE ZONING ADMINISTRATOR

REASON FOR APPEAL. Ted Irgens has appealed the decision of the Zoning Administrator to grant reasonable accommodation pursuant to the 1988 Federal Fair Housing Act (FHA) to waive the quarter-mile spacing requirement for a proposed supportive housing facility in the existing structure at 2118 Blaisdell Ave.

The Zoning Administrator and City Attorney contest that the waiver of the quarter-mile spacing requirement constitutes a reasonable accommodation pursuant to Chapter 520.80 of the Minneapolis Code of Ordinances. This provision states that the zoning ordinance “shall not be applied so as to prevent the city from making reasonable accommodation as required by the Federal Fair Housing Amendments Act of 1988 pursuant to the procedure set forth in sections 525.590 to 525.650.”

Date Application Deemed Complete	October 5, 2014	Date Extension Letter Sent	December 1, 2014
End of 60-Day Decision Period	December 5, 2014	End of 120-Day Decision Period	February 5, 2015, extended by applicant to April 5, 2015

BACKGROUND. NuWay House, Inc. is a non-profit organization that has provided extended care and residential services in the Whittier neighborhood since 1966. In 2014, the organization purchased the property located at 2118 Blaisdell Ave in order to establish a housing facility for recovering alcoholics and addicts. The proposed use was classified as ‘supportive housing’ by the Zoning Administrator. Supportive housing is a conditional use in the OR2 zoning district. According to Chapter 536.20, supportive housing establishments must be located at least a quarter-mile from other supportive housing facilities and community residential facilities. Several uses that meet the definition of ‘supportive housing’ and ‘community residential facility’ are located within a quarter-mile of the proposed facility. The spacing requirement cannot be reduced by variance, so NuWay applied for reasonable accommodation to waive the spacing requirement.

On November 24, 2014, the request for Reasonable Accommodation was approved administratively by the Zoning Administrator and the City Attorney. Pursuant to 525.620, notice of the approval, the staff report, and information prepared by the applicant was mailed to the owners of all properties adjacent to the subject property. The staff report containing the findings for reasonable accommodation can be found immediately following this document.

Within the 10-day appeal period, Mr. Ted Irgens, the owner of 2115 Pillsbury Ave, appealed the decision to grant Reasonable Accommodation. His appeal statement contested several aspects of the approval. A copy of the appeal statement and supporting materials are available in the Additional Materials.

Minnesota Statutes Section 15.99 requires that the City approve or deny a zoning application within 60 days of the date that the City receives a complete application. The 60-day approval period may be extended an additional 60 days if written notice is provided to the applicant within the initial time frame. The City provided written notice to the applicant on December 1, 2014, extending the deadline to February 5, 2015. The decision period may be extended beyond the 120-day period if written intent is provided by the applicant. In a letter dated January 21, 2015, NuWay provided a letter consenting to an extension of the decision period for an additional 60 days. The decision period currently expires on April 5, 2015.

ANALYSIS. According to 525.590, it is the policy of the city, pursuant to the Federal Fair Housing Amendments Act of 1988, to provide reasonable accommodation for persons with disabilities seeking fair and equal access to housing in the application of its zoning regulations. Reasonable accommodation means providing an individual with a disability or developers of housing for an individual with a disability, flexibility in the application of land use and zoning regulations or policies (including the modification or waiver of certain requirements), when it is necessary to eliminate barriers to housing opportunities.

Evaluations of requests for reasonable accommodation are based on three areas of inquiry. This analysis briefly summarizes these areas of inquiry and applies them to the present situation. A substantially more detailed analysis can be found in the reasonable accommodation staff report, following this document.

First, the request must be made on behalf of a person or persons who are considered **disabled** under the Fair Housing Act. Persons recovering from drug or alcohol addiction are considered disabled under the Act. However, the current, illegal use of a controlled substance does not constitute a “disability”. The applicant has provided an affidavit stating that all residents will have been diagnosed and will be receiving treatment for a disability recognized by the Federal Fair Housing Act of 1988.

Second, the requested modification must be **necessary** to afford such persons equal opportunity to use and enjoy a dwelling. As part of NuWay’s treatment model, residents of the proposed facility are

required to attend frequent counseling sessions at an existing treatment center located approximately one block from the subject property. Further, the surrounding area contains many opportunities for additional treatment, access to employment, and amenities. Proximity to counseling and services while residing in a sober and supportive environment demonstrates necessity by directly contributing to the treatment of the disability.

Third, the request must be **reasonable**. Supportive housing is a conditional use in the OR2 district. Besides the spacing requirement, the use complies with all other aspects of the zoning ordinance. The proposed density is in keeping with the typical density of the OR2 district as well as the surrounding area. If the use were to cease operations, the structure could very easily be converted into traditional multifamily apartments.

Supportive housing is a conditional use in the OR2 district, so a conditional use permit (as well as Site Plan Review) must be approved by the City Planning Commission before the facility can commence operations. The present application would not authorize the facility. It would merely enable the applicant to apply for the necessary land use applications.

STAFF RECOMMENDATION

The Department of Community Planning and Economic Development recommends that the Board of Adjustment adopt staff findings and **deny** the appeal of the decision of the Zoning Administrator to grant reasonable accommodation to waive the spacing requirement for the property located at 2118 Blaisdell Ave.

BACKGROUND

For background purposes information has been prepared by the City of Minneapolis' Attorney's Office documenting the history of the Federal Fair Housing Amendments Act.

The Federal Fair Housing Amendments Act of 1988 ("FHAA" or the "Act"), 42 U.S.C. § 3201 et seq. makes it illegal to "discriminate in the sale or rental, or to otherwise make unavailable or deny, a dwelling to any buyer or renter because of a handicap of . . . that buyer or renter . . . or any person associated with that buyer or renter . . ." 42 U.S.C. § 3604(f)(1). "For purposes of this subsection, discrimination includes . . . a refusal to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford such person equal opportunity to use and enjoy a dwelling . . ." 42 U.S.C. § 3604(f)(3)(B).

Requests for reasonable accommodation pursuant to the FHAA will be analyzed on a case-by-case basis and are highly fact specific. The evaluation process for determining whether federal law requires an accommodation in how the City's zoning regulations are applied or enforced is broken down into three areas of inquiry. First is a determination whether the request is being made on behalf of a person or persons who are considered disabled under the provisions of the Act. The current, illegal use of or addiction to a controlled substance does not constitute a "disability" under the Act.

The second issue is whether the requested accommodation is necessary to afford such persons equal opportunity to use and enjoy a dwelling. One court has stated that the test of "necessity" is that "but for the accommodation, [disabled persons] likely will be denied an equal opportunity to enjoy the housing of their choice." *Smith & Lee Associates, Inc. v. City of Taylor*, 102 F.3d 781, 795 (6th Cir. 1996).

Finally, it must be determined whether the requested accommodation is reasonable. With respect to accommodations of zoning requirements, an accommodation is not "reasonable" if it would: 1) impose an undue financial or administrative burden on a local government, or 2) if the requested modification to zoning requirements would create a fundamental alteration in a local government's land use and zoning scheme. Joint Statement of the Dept. of Justice and the Dept. of Housing and Urban Dev't, *Group Homes, Local Land Use, and the Fair Housing Act* (August 18, 1999).

SITE DESCRIPTION. The subject property, 2118 Blaisdell Ave, is located on a 29,477 square foot lot at the northwest corner of Blaisdell Ave and 22nd St W in the Whittier neighborhood of Minneapolis. Franklin St is one block to the north of the subject property and Nicollet Ave is one block to the east.

The subject property is zoned OR2-High Density Office Residence District. The surrounding properties are zoned R5 Multiple-family District, with the exception of the property to the north which is zoned C1 Neighborhood Commercial District.

The subject lot is adjacent to a 49-unit apartment building to the west, a bank to the north, 36- and 22 - unit apartment buildings across Blaisdell to the east, the Minneapolis Urban League Academy School to the southeast, and a 32-unit apartment building across 22nd St to the south.¹ Other properties in the vicinity contain large homes constructed in the early 20th Century and apartment buildings constructed in the mid-20th Century. Many of the large homes have been converted into multi-family housing, offices, and congregate living.

The existing structure on the subject property is composed of a 5-bedroom mansion constructed in 1913 and a 3-story addition constructed in 1962. The mansion was originally constructed for use as a single-family dwelling, and the addition was originally constructed for use as patient rooms when the structure contained a nursing home. The remainder of the property is comprised of landscaping, green space, and a surface parking lot containing 36 spaces. The current landscaping and screening is in excellent condition and would be retained.

PROJECT DESCRIPTION. The applicant, NuWay House, Inc., proposes to convert the existing building into 22 dwelling units for up to 47 residents. Twenty-one of the dwelling units would be one-bedroom or efficiency units located in the 3-story addition, and the remaining unit would be a five-bedroom apartment located in the original mansion. Each unit would have its own kitchen and bathroom facilities. No exterior changes would occur besides minor improvements required to bring the structure into compliance with the building code.

Residents of the facility would be limited to those persons receiving treatment for substance abuse at a nearby counseling center operated by NuWay. The facility would be staffed 24-hours per day, although staff would not reside at the facility. NuWay has operated as a non-profit organization in the Whittier neighborhood since 1966, and currently operates two similar facilities in the neighborhood. NuWay has provided a thorough description of the proposed facility as well as the rationale for its establishment which can be found in the Additional Materials accompanying this report.

The proposed use would be classified as supportive housing. According to Minneapolis Code of Ordinances (“MCO”) Chapter 536.20, supportive housing facilities must be located at least a quarter-mile from other supportive housing facilities and community residential facilities. This buffer is measured from the property line of the subject property. Several uses that meet the definition of “community residential facilities” are located within a quarter-mile of the subject property. Therefore, NuWay House Inc. is seeking reasonable accommodation to waive the quarter-mile spacing requirement. Supportive housing is a conditional use in the OR2 district, so conditional use permit must still be obtained from the City Planning Commission to establish the facility.

¹ Data obtained November 5, 2014 from records maintained by the City of Minneapolis.

ANALYSIS

REASONABLE ACCOMMODATION

In accordance with Chapter 520, Introductory Provisions, Chapter 525, Administration and Enforcement, and Chapter 536, and Specific Development Standards, the Department of Community Planning and Economic Development has analyzed the application for Reasonable Accommodation. Based on the criteria as stated above the following has been determined:

I. Documented Disability

An individual with a disability is defined by the Americans with Disabilities Act as a “person who has a physical or mental impairment that substantially limits one or more major life activities, a person who has a history or record of such impairment, or a person who is perceived by others as having such impairment.”

According to the Americans with Disabilities Act of 1990, alcoholism and chronic drug use are considered disabilities. “The Fair Housing Act prohibits discrimination on the basis of disability in all types of housing transactions” and “defines persons with a disability to mean those individuals with mental or physical impairments that substantially limit one or more major life activities. The term mental or physical impairment may include conditions such as blindness, hearing impairment, mobility impairment, HIV infection, mental retardation, alcoholism, drug addiction, chronic fatigue, learning disability, head injury, and mental illness. The term major life activity may include seeing, hearing, walking, breathing, performing manual tasks, caring for one's self, learning, speaking, or working. The Fair Housing Act also protects persons who have a record of such impairment, or are regarded as having such impairment.”²

Current users of illegal controlled substances, persons convicted for illegal manufacture or distribution of a controlled substance, sex offenders, and juvenile offenders are not considered disabled under the Fair Housing Act, by virtue of that status.”

However, the Act does protect persons who are recovering from substance abuse. Without adequate treatment, serious and persistent mental illnesses will result in significant physical and psychological impairment and can substantially limit an individual's major life activities.³

² United States Department of Justice. http://www.justice.gov/crt/about/hce/housing_coverage.php

³ United States Department of Justice. http://www.usdoj.gov/crt/housing/housing_coverage.php#disability

2. Necessity of Request

In order to determine that the requested modification of the zoning code is necessary, the applicant must demonstrate that the City's established and permitted procedures are insufficient to remedy the need for modification.

The facility was initially proposed as a 22-unit multi-family dwelling. However, questions were raised as to whether the facility met the definition of that use. On June 24, 2014, the Zoning Administrator made a determination as to whether the project was an allowed multiple family dwelling (apartment building), or a type of supportive housing. The determination is summarized below:

The property owner submitted a site plan review application contending that the proposed use is a rental apartment building. Questions subsequently arose from the community and staff regarding whether the proposed use is more appropriately categorized as supportive housing.

In a letter addressed to staff, dated June 9, 2014, the attorney representing the applicant stated that the intended use of the property is a 22-unit apartment building. However, the project description also stated that the residents of the apartments will not have leases, because they will not be paying rent. Instead, patients in NuWay's outpatient program will be able to reside at the building while they are enrolled in the outpatient program. The letter states that the average length of time a resident would reside in a dwelling unit would be about 10 weeks.

Under the Minneapolis Code of Ordinances ("MCO") Chapter 520.160 – Supportive housing, residents are required to participate in programs and services designed to assist residents with improving their daily lives. Clearly, NuWay's treatment programs are at a minimum designed and intended to improve patient's lives. The requirement of participation in a treatment program as a condition of residency is consistent with the definition and intent of a supportive housing facility.

Correspondingly, there is no ability for an individual who is not receiving treatment from NuWay to rent or occupy a unit in the building. In addition, based on the responses provided, it appears the intent is that the statutes governing the landlord/tenant relationship would not apply and that a resident can simply be "removed" for failure to comply with house rules, rather than through a legal eviction process (unlawful detainer).

Based on these use characteristics, the Zoning Administrator determined that the proposed facility is to be classified as **supportive housing** under the definition in MCO §520.160. This determination was not appealed.

Supportive housing is a **conditional use** in the OR2 zoning district. Thus, to commence operations, the facility must obtain a conditional use permit (CUP). The City Planning Commission evaluates CUPs based on the following findings:

- 1. The establishment, maintenance or operation of the conditional use will not be detrimental to or endanger the public health, safety, comfort or general welfare.*
- 2. The conditional use will not be injurious to the use and enjoyment of other property in the vicinity and will not impede the normal and orderly development and improvement of surrounding property for uses permitted in the district.*
- 3. Adequate utilities, access roads, drainage, necessary facilities or other measures, have been or will be*

provided.

4. *Adequate measures have been or will be taken to minimize traffic congestion in the public streets.*
5. *The conditional use is consistent with the applicable policies of the comprehensive plan.*
6. *The conditional use shall, in all other respects, conform to the applicable regulations of the district in which it is located.*

In addition to these findings, supportive housing facilities are required to meet specific development standards contained in MCO §536.20, copied below:

1. *Supportive housing shall be located at least one-fourth (1/4) mile from all existing supportive housing and from all of the following uses, except in the B4H Overlay District:*
 - a. *Community correctional facility.*
 - b. *Community residential facility.*
 - c. *Inebriate housing.*
 - d. *Motel.*
 - e. *Overnight shelter.*
2. *On-site services shall be for residents of the facility only, except where part of a regimen of scheduled post-residential treatment.*
3. *To the extent practical, all new construction or additions to existing buildings shall be compatible with the scale and character of the surroundings, and exterior building materials shall be harmonious with other buildings in the neighborhood.*
4. *An appropriate transition area between the use and adjacent property shall be provided by landscaping, screening, and other site improvements consistent with the character of the neighborhood.*
5. *The operator shall submit a management plan for the facility and a floor plan showing sleeping areas, emergency exits and bathrooms.*

Due to the presence of several nearby uses that meet the definition of “community residential facilities,” the proposed facility is unable to meet the first specific development standard requiring that it be located at least a quarter-mile from other supportive housing facilities and community residential facilities. The spacing requirement can be reduced by variance only for the relocation of an existing use where the relocation will increase the spacing between such use and any use from which it is nonconforming as to spacing.⁴ Thus, a variance to establish a new facility within a quarter-mile of an existing facility cannot be granted. Because the use has been categorized as supportive housing, and because it cannot comply with the spacing requirement, there exists no mechanism in the zoning code to allow the proposed facility.

Therefore, the necessity of the request for reasonable accommodation stems from the combination of zoning and spacing restrictions imposed by the zoning code. Although the location restrictions affirmatively affect the subject property, this request is for reasonable accommodation is not solely warranted because the desired use doesn’t work with this particular parcel. The combination of spacing

⁴ Minneapolis Code of Ordinances Chapter 525.520[22]

and zoning restrictions makes establishing supportive housing impossible nearly **anywhere** in the city.

Supportive housing is not permitted in low-density zoning districts, and is allowed only as a conditional use in medium- and high-density districts. Thus, only 7.6% of land in Minneapolis meets zoning requirements. Eligible properties must also comply with the quarter-mile spacing requirement. This further limits eligible properties to 1.7% of land in the city.⁵ This measurement does not take into account the practical viability of the qualifying sites. For instance, the land value may be too high, or the likelihood that such a use could ever be established on this land could be extremely low (for example, much of the University of Minnesota campus meets spacing and zoning requirements).

By contrast, approximately 74% of the city is residentially zoned, and 85.6% of the city allows residences as a permitted use.⁶ Limiting the housing locations for certain handicapped persons to 1.7% of the City's land area violates the intent of the 1988 FHAA and illustrates the necessity of the request.

Locations for supportive housing are also limited due to the broad range of services that are considered "community residential facilities." A community residential facility is defined as "a facility where one (1) or more persons reside on a twenty-four-hour per day basis under the care and supervision of a program licensed by the Minnesota Department of Human Services (DHS)."⁷⁸ In addition to group homes, DHS licenses services such as adult and child foster care, children's residential facilities, and home and community based services. According to this definition, licensed services for a *single individual* constitute a community residential facility.

In most instances, no benefit is achieved by requiring separation between these uses. For example, no legitimate purpose is achieved by separating an immobile elderly person with a quarter-mile buffer from a home for mentally handicapped adults. However, the spacing requirement is technically applied regardless of the scope of services offered, the density of the area, or the size of the facility. For this reason, enforcement of the spacing requirement rarely occurs. However, enforcing the spacing requirement in some instances, but not in others, is tantamount to disparate treatment under the same law. Without reasonable accommodation, handicapped persons may lose equal access to housing.

⁵ The area of Minneapolis is 58.2 square miles (37,376 acres). Zoning districts in which supportive housing could potentially be located have an area of 4,917 acres, or 7.6% of the area. Of the 4,917 acres, only 628 acres meet both the zoning and quarter-mile spacing requirements.

⁶ 27,810 acres are residentially zoned (74% of the land area). Residential uses are permitted in all zoning districts except industrial. When considering the potential locations for residential uses, the total acreage available for residential uses is (32,001/37,376) 85.6%. This figure is a raw measurement of zoned area and does not take into account features such as rivers, lakes, infrastructure, and parks.

3. Reasonableness of Request

To meet the “reasonableness” standard of the Fair Housing Act Amendments, the request must not overburden the local government financially or administratively, and a nexus linking the treatment of the disability with the need for housing must be shown⁹. The proposed facility does not require any government funding, nor does it create an administrative burden. Thus, it satisfies the first prong of the “reasonableness” standard. The second prong requires demonstrating that a nexus exists between the treatment of the handicap and the proposed location.

The proposed facility would provide short-term housing for persons receiving outpatient treatment at a counseling center located approximately one block from the subject property at 2217 Nicollet Ave. The applicant describes the locational advantage of this site, stating “to help promote successful rehabilitation, barriers are removed by providing housing within walking distance to the source of a client’s outpatient services.” Persons recovering from substance abuse often are not able to drive, so walkability is especially important. In addition to the counseling center, the facility is located in close proximity to a large concentration of self-help facilities and several nearby organizations providing vocational training and/or the possibility of employment. The applicant states, “Isolation is a common relapse trigger for those in early recovery from substance addiction (and/or mental illness).” The supportive community setting eschews isolation and promotes community integration.

Nearby services and amenities make the location uniquely suited to accommodate the proposed facility. Due to the well-suited location, several group homes, including another facility operated by NuWay, are also located within a quarter-mile of the proposed facility. While a preponderance of group homes in a small geographic area could potentially lead to negative clustering effects, the density of the proposed location dampens the risk. The quarter-mile radius is in a dense urban neighborhood which encompasses a wide and intense array of land uses, greatly eliminating the risk of the proposed use overtaking the community.

In *Familystyle v. City of St. Paul*, the spacing requirement was found to advance the legitimate governmental purpose of the de-institutionalization of the mentally ill¹⁰. It is intended to discourage institutionalization, avoid clustering, and encourage community integration. However, it is not intended to put a limit on the number of handicapped persons that can live in a defined geographic area. Waiving the spacing requirement will not contribute to institutionalization or the effects of clustering because the location is well suited to accommodate the proposed use. The Whittier neighborhood is the most populous and has the second-highest population density of any neighborhood in Minneapolis. Congregate living arrangements are complemented by high-density apartments, a wide range of businesses, and many institutional uses. Waiving the requirement will contribute towards the treatment and recovery of handicapped persons by allowing them to live in a community setting close to amenities and services.

⁹ Harvard Law Review, ver. 126:1392. *Three Formulations Of The Nexus Requirement In Reasonable Accommodations Law* http://cdn.harvardlawreview.org/wp-content/uploads/pdfs/vol126_reasonable_accomodations_law.pdf

¹⁰ *Familystyle of St. Paul v. City of St. Paul*, 923 F.2d 91 (8th Cir.1991)

Reasonable Accommodation required findings.

The zoning administrator, or designee thereof, in consultation with the city attorney, shall have the authority to consider and act on requests for reasonable accommodation. In making the decision, the following factors have been considered:

1. Special need created by the disability.

Persons recovering from chemical dependency are considered disabled under the Federal Fair Housing Act Amendments of 1988. The special need created by the disability stems from the lack of non-institutional treatment options for recovering persons who have completed in-patient treatment but are not prepared for a more traditional housing arrangement.

Persons recovering from substance abuse often have a very poor rental and credit history, poor employment history, a high rate of other mental illnesses, lack of education, history of domestic violence, and lack of family support. Users who have recently completed treatment are often unemployed. These barriers can hinder recovering persons from finding housing that contributes toward their recovery.

2. Potential benefit that can be accomplished by the requested modification.

NuWay has been serving persons recovering from chemical dependency in the Whittier neighborhood since 1966. As an experienced care provider, they state, “without this combination of housing and outpatient services, history tells us our ability to help former addicts obtain and maintain long term recovery is greatly reduced.” The facility would ease the transition between institutional care and a more traditional living arrangement by giving residents an opportunity to get back on their feet while living in an affordable, sober, supportive, and positive environment. Waiving the quarter-mile spacing requirement would provide residents convenient access to treatment as well as amenities and employment opportunities. Most destinations, including the Nicollet Ave treatment center, are within walking distance, and the property is close to several bus lines providing metro-wide connectivity.

3. Need for the requested modification, including alternatives that may provide an equivalent level of benefit.

The Zoning Administrator has categorized the facility as supportive housing. However, it shares characteristics with multiple-family housing and community residential facilities. These uses are defined as follows:

520.160. Multiple-family dwelling. *A building, or portion thereof, containing three or more dwelling units.*

520.160. Community residential facility. *A facility where one or more persons reside on a 24 hour per day basis under the care and supervision of a program licensed by the Minnesota Department of Human Services (DHS). Community residential facilities shall not include facilities that are also eligible for licensure by the Minnesota Department of Corrections (DOC).*

520.160. Supportive housing. *A facility that provides housing for 24 hours per day and programs or services designed to assist residents with improving daily living skills, securing employment or obtaining permanent*

housing. It does not include:

1. *Elderly housing with congregate dining.*
2. *Inebriate housing.*
3. *Any facility licensed by the Minnesota Department of Human Services (DHS), Department of Health (DOH) or Minnesota Department of Corrections (DOC).*
4. *Any other county, state or federal community correctional facility.*
5. *Fraternalities, sororities or other student housing.*
6. *Any facility owned, leased or operated by the Minneapolis Public Housing Authority (MPHA).*
7. *The use of one dwelling unit on one zoning lot which meets the occupancy requirements of the zoning district in which it is located.*

By definition, community residential facilities must be licensed by the Minnesota Department of Human Services. The proposed facility will not be licensed, so it does not meet the definition of a Community Residential Facility.

The proposed facility closely resembles a multi-family dwelling. However, the residency requirements of the facility limit potential habitants to those persons receiving treatment at the Nicollet Ave treatment center, which aligns with the MCO§520.160 definition of supportive housing. Therefore, the facility is considered supportive housing rather than multi-family housing.

4. Physical attributes of and any proposed changes to the subject property and structures.

The existing structure is well suited to accommodate the proposed use. No significant exterior alterations would be required to convert the existing structure into 22 apartments. In order to function as a supportive housing facility, the structure must comply with health and safety regulations such as building, housing, and fire codes. Most of the required changes would occur within the building, although a handful of minor changes would be required on the building's exterior. According to the applicant, the only exterior changes would be partially infilling windows at an inside corner to create the code-required separation of wall openings, conversion of the existing loading dock on the north (interior) side of the addition to a window, and conversion of a window into the new handicapped-accessible entrance.

If the proposed facility ceased to operate, the property would be well suited for use as multi-family housing. Building code requirements for the proposed use would be similar to the requirements for multi-family housing, so relatively few changes would have to occur. With 36 off-street parking spaces, the use would exceed the 22-space parking requirement of a 22-unit apartment building.

5. Potential impact on surrounding uses.

The City of Minneapolis has a legitimate interest to preserve the character of its neighborhoods through laws that regulate structures, land uses, number of persons occupying a dwelling unit, and off-street parking. The proposed use anticipates a maximum occupancy of 47 persons in 22 units on a 29,477 square foot lot. This density is typical in the OR2 zoning district and similar to the population density in the surrounding area. The per-unit occupancy levels would not exceed those established by the zoning code or the building code. If the proposed supportive housing facility is managed in accordance with the documentation supplied to Staff and in compliance with the conditions of approval required by the City, the proposed facility would likely have use characteristics and impacts similar to an apartment building of comparable size.

The parking area is well screened and the property is well landscaped. As a condition of approval, all landscaping must be maintained, and all repairs and general maintenance to the structure must be undertaken in a timely manner. Although few residents are expected to drive, 36 on-site parking spaces exist, which is 3 times the minimum parking requirement for a 47-bed facility.¹¹

Potential residents would be limited to individuals who have been diagnosed with a physical or mental handicap. Current users of alcohol or drugs are not considered disabled under the 1988 FHAA. Likewise, individuals with low income, homeless individuals, and individuals with a criminal history are not eligible for residency unless the condition is accompanied by a documented disability.

The facility would be staffed on a 24-hour basis, and would utilize a Resident Agreement that sets forth specific residency requirements. In addition, House Rules would establish a strict code of conduct for residents and visitors. A copy of the Resident Agreement and House Rules can be found in the Additional Materials. In order to prevent future adverse off-site impacts, the City of Minneapolis shall be notified if there are any changes in use or maximum occupancy, or any changes to the house rules that could increase the potential for adverse off-site impacts. These changes include but are not limited to occupancy, building alterations, residency requirements, and modifications to house rules.

Based on the characteristics of the proposed site and its surroundings, and the characteristics of the use itself, the proposed use will have an impact similar to an apartment building of comparable size.

6. Whether the requested modification would constitute a fundamental alteration of the zoning regulations, policies, and/or procedures of the city.

Eliminating the spacing requirements would not constitute a fundamental alteration of the land use and zoning scheme of the city. The supportive housing facility would be located in the OR2 High-Density Office Residence zoning district. This zoning district is intended to provide a mixed-use environment of moderate to high-density dwellings and large office uses, with additional small-scale retail sales and services uses designed to serve the immediate surroundings.¹² It is often used as a transitional district between commercial areas and less-dense residential districts.

Supportive housing is a conditional use in the OR2 district. Thus, the facility can be allowed if certain conditions and required findings are met. The proposed density of 22 dwelling units on a 29,477 square foot lot is typical in the OR2 zoning district, and less dense than surrounding properties.

7. Whether the requested modification would impose an undue financial or administrative burden on the city.

¹¹ Per MCO§541.170, supportive housing facilities must provide 1 parking space for every 4 beds. The facility proposes approximately 47 beds, so 12 parking spaces would be required. The existing lot contains 36 spaces.

¹² MCO §547.280

The facility does not require government funding nor does it seek any type of licensure. It will not impose an undue financial or administrative burden upon the City.

8. Any other factor that may have a bearing on the request.

Waiver of the spacing requirement has precedent in Minneapolis. In 2004, a supportive housing facility was approved in the Ventura Village neighborhood by the Planning Commission, and upheld by City Council upon appeal, even though the subject property was located within a quarter-mile of 9 existing supportive housing facilities. The City Council decision was challenged and upheld by the 8th Circuit Court of Appeals on the ground that waiver of the spacing requirement was a "reasonable accommodation" required by the Fair Housing Amendments Act of 1988.¹³ The City's waiver of its spacing requirement permitted the creation of additional supportive housing and thereby increased the housing available to eligible handicapped persons.

The City submitted evidence that, since the Zoning Code was amended in 1995 to include the term "supportive housing," the City has approved all eleven applications for supportive housing developments.¹⁴

RECOMMENDATIONS

The Department of Community Planning and Economic Development recommends that the City Attorney and the City of Minneapolis Zoning Administrator adopt the above findings and **approve** this request for Reasonable Accommodation to waive the specific development standard requiring that the proposed supportive housing facility located at 2118 Blaisdell Avenue maintain a distance of at least one-quarter mile from other supportive housing facilities and community residential facilities, subject to the following conditions:

1. The facility must comply with health and safety regulations such as building and fire codes. Should the facility create a public nuisance or fail to conform to health and safety regulations, local governments may cause such conditions to be abated;
2. All current and future occupants of the subject property must be diagnosed with a documented disability as described by the Americans with Disabilities Act;
3. The exterior of the home and the yard will be kept in excellent physical condition. Damaged or worn out materials will be promptly repaired or replaced;

¹³ http://caselaw.findlaw.com/us-8th-circuit/1244865.html#footnote_4

¹⁴ <http://openjurist.org/419/f3d/725/ventura-village-inc-v-city-of-minneapolis-minnesota>

4. The House Rules will be posted in a conspicuous location within the home. All residents, guests, and associated persons must comply with the House Rules and other applicable operational agreements at all times;
5. The City of Minneapolis shall be promptly notified in there are any changes in use or maximum occupancy, or any changes to the Residence Agreement or House Rules that could potentially increase the potential for adverse off-site impacts. These changes include but are not limited to occupancy, building alterations, and residency requirements.

Reasonable Accommodation Application

Background:

NuWay House, Inc. ("NuWay House") is located in the Whittier neighborhood and has been serving the neighborhood since incorporation in 1966 as a 501(c) non-profit corporation. NuWay House was created to provide extended care residential services. The organization began as a grass roots effort within the Whittier Neighborhood. The organizing committee and the first Board of Trustees were the same eleven men; the first president was Gordon C. Allen. It was conceived and grew from the vision and determination of Squad Six at 2218 First Avenue South, the "mother club" for A.A's and commonly known as "2218." The organizing committee recruited approximately 2,000 recovering individuals to donate \$10 dollars apiece and bought NuWay I in 1967 for \$20,000. During the first several years of NuWay House's existence all services were provided by the first Board of Trustees.¹

NuWay House has and continues to enjoy excellent relations with its Whittier neighbors. NuWay House operates three beautifully maintained properties in the Whittier neighborhood: 2200 1st Avenue South, 2518 1st Avenue South and 2217 Nicollet Avenue South. NuWay House is excited to enhance its mission through the development of 2118 Blaisdell Avenue South ("2118 Blaisdell Apartments") as a housing facility for recovering alcoholics and addicts. NuWay House believes it's critical to its mission to extend housing to individuals seeking outpatient services while residing in a safe, secure and stable environment.

Through this Application NuWay House is seeking reasonable accommodation from the Development Standard found in Section 536.20 of the Minneapolis Code of Ordinances which requires that supportive housing facilities be located at least one-quarter mile from other supportive housing facilities and certain other housing facilities.

1. Special need created by disability:

The 2118 Blaisdell Apartments will serve former alcoholics and addicts (who are no longer engaging in illegal drug use) and are receiving outpatient services at NuWay House's counseling center located at 2217 Nicollet Avenue South ("2217 Counseling Center"). The American Disabilities Act defines individuals diagnosed with alcohol or drug use disorders as a protected class (disabled) when engaged in treatment for their condition. All individuals residing at the 2118 Blaisdell Apartments will meet DSM-V (Diagnostic and Statistical Manual-Fifth Edition published by the American Psychiatric Association) criteria for alcohol or drug use disorder and will be enrolled in outpatient services at the 2217 Counseling Center.

Without this combination of housing and outpatient services, history tells us our ability to help former addicts and alcoholics obtain and maintain long term recovery is greatly reduced. It is reasonable for NuWay House to accommodate its clients, many of whom are from the surrounding area, with housing at the 2118 Blaisdell Apartments while they receive services for their disability because without proper housing their odds of remaining abstinent from substances (and/or mental illness) are greatly reduced.

"Individuals with these disabilities frequently face barriers that include unemployment, limited education and training, exposure to violence, lack of family support and comorbid mental health disorders that limit access to treatment. Treatment needs to be readily available. Because addicted individuals may be uncertain about treatment, ongoing access to services when individuals are ready for treatment is critical."²

2. Potential benefit that can be accomplished by the requested modification.

Housing at the 2118 Blaisdell Apartments will guarantee residents consistent access to outpatient services at the 2217 Counseling Center while residing in a safe, sober and secure environment. A person recovering from substance abuse may not have an equal opportunity to live in and enjoy adequate housing because their special needs can be overlooked.

Discrimination is sometimes subtle but the impact to the disabled individual and surrounding community can be significant. Many of the clients in NuWay House's treatment programs have lived in the Whittier neighborhood. Helping a client integrate into the neighborhood where he/she will be residing after treatment helps to ensure long term recovery. With positive supports these residents will be better equipped to return to independent living, in the Whittier neighborhood and elsewhere, as more productive, positive community members.

Studies show individuals accessing treatment achieve substantially higher remission rates than those who do not (43% v. 21%).³

Addiction treatment has been shown to reduce associated health and social costs. According to several conservative estimates, every dollar invested in addiction treatment programs yields a return of between \$4 and \$7 in reduced drug-related crime, criminal justice costs, and theft. When savings related to healthcare are included, total savings can exceed costs by a ratio of 12 to 1. Major savings to the individual and to society also stem from fewer interpersonal conflicts; greater workplace productivity; and fewer drug-related accidents, including overdoses and deaths.⁴

Treatment needs to be readily available. Because addicted individuals may be uncertain about entering treatment, taking advantage of available services the moment people are ready for treatment is critical. Potential patients can be lost if treatment is not immediately available or readily accessible. As with other chronic diseases, the earlier treatment is offered in the disease process, the greater the likelihood of positive outcomes.⁵

Remaining in treatment for an adequate period of time is critical. Research indicates that most addicted individuals need at least 3 months in treatment to significantly reduce or stop their drug use

and that the best outcomes occur with longer durations of treatment.⁶

3. Need for the requested modification, including alternatives that may provide an equivalent level of benefit:

A supervised supportive community environment will ensure consistent access to outpatient services. Without reliable housing individuals seeking to access outpatient services may have to reside in an unreliable, unsafe or non-sober environment. Those who do not reside in a sober environment will not receive the same level of accountability and access to outpatient services.

In either case, there is not an equivalent level of benefit available. Proximity of outpatient services is critical. To help promote successful rehabilitation, barriers are removed by providing housing within walking distance to the source of a client's outpatient services. The great majority of NuWay House's clients will otherwise not have the means necessary for reliable transportation to obtain consistent outpatient services that are needed for long term recovery. This supportive housing opportunity reduces a client's chances for isolation from others who are also choosing a healthy lifestyle of recovery. Isolation is a common relapse trigger for those in early recovery from substance addiction (and/or mental illness).

4. Physical attributes of and any proposed changes to the subject property and structures.

Using the 2118 Blaisdell Apartments as an apartment building with 22 dwelling units requires no significant alteration to the exterior of the building located on the property.

2118 Blaisdell Avenue is a property with an interesting past. In 1913, the original section of the building ("Mansion") was built as an ornate single family 5-bedroom residence with two full stories above grade, a full basement used as a ballroom and a large attic space that also had sleeping rooms for the housekeeping staff. At some point in the following 50 years, the Mansion became the home of the Northwest Baptist Home Society. In 1962, the Society constructed a 3-story-plus-basement addition ("Addition") on the west side of the Mansion, providing 28 nursing home bedrooms that could have been shared by two persons each. The Mansion was used as administrative and staff space, remaining largely intact.

Approximately 10-15 years ago the property was sold and converted to business occupancy type for the Pinecrest Door Company. The company had their administrative offices in the Mansion, with a showroom in the lower level. They used the first floor of the Addition as a shipping and receiving area leaving the remainder of the Addition largely intact and under-used.

Throughout these transformations, the ornate architectural character of the Mansion has remained mostly intact, while the Addition has also remained in its original, featureless state. The lot size is 29,535 square feet and the combined area of the Mansion and Addition is approximately 23,000 square feet (not including the attic in the Mansion), with an almost equal

split between Mansion and Addition. The property is not on the National Register, not in an historic district and not on the Minneapolis Landmarks list.

The proposed use for this property is to convert the Mansion and the Addition from their current business use back into residential use housing fewer residents than it did as a nursing home. The proposed residential configuration requires no exterior wall or window opening modification except for partially infilling windows at an inside corner to create the code required separation of wall openings. On the north side of the Addition, the existing loading dock will become a window and one window will become the new accessible main entrance. The existing parking lot, paving, fencing and site lighting will remain as is with the exception of adding a ramp on the Addition for accessible entrance to the first floor which is about 30 inches above grade. Landscaped areas of the property have already been significantly improved. Thus, viewed from the exterior, the property will remain almost entirely unchanged.

5. Potential impact on surrounding uses.

Critical to NuWay House's forty eight year mission is the value that is described in its policies of enforcing a zero tolerance for alcohol and drug use and criminal behavior among its staff and clientele. This core value is best evidenced in NuWay House's record and reputation among neighbors and the Minneapolis Fifth Precinct. NuWay House believes that an integral part of the recovery process for individuals suffering drug and alcohol addictions is to amend past wrongs done to individuals, families, institutions and communities through correct actions in the present. It is critical for individuals receiving treatment and in recovery to become productive members of their communities through demonstrations of positive community behaviors.

As of September 16th 2014, 5th Precinct Police Log Data from other human services organizations within a mile or so radius of NuWay I, NuWay II and 2217 NuWay Counseling Center indicate that calls ranged up to 146 calls for a single facility over the last 12 months. NuWay House's three Whittier facilities of NuWay I & II and NuWay Counseling Center had a combined total of 34 calls during the same time frame. NuWay House works very hard at being a good neighbor and has fostered a collegial relationship with law enforcement as well as adjacent homeowners. It is NuWay House's understanding from discussions with both Lt. Gross of the 5th Precinct and the precinct analyst that NuWay House's facilities are not considered a nuisance within the precinct.

Every resident of the 2118 Blaisdell Apartments will be subject to random drug and alcohol screens. In addition to random drug and alcohol screens all residents will be subject to drug and alcohol screening at staff discretion based on behavioral concerns. Instant urinalysis drug kits and an alcohol breathalyzer will be kept in the main office for this purpose. The only open entrance to the 2118 Blaisdell Apartments will be through the Northwest entrance in the Addition which is observable by the management office. While the residents will not have leases, they will be required to sign a Resident Agreement and strictly adhere to the house rules contained in the Resident Agreement, a copy which is included with this Application.

The 2118 Blaisdell Apartments will be staffed on a twenty-four hour basis using three shifts. Two house managers will be on site during 8:00 a.m. to 4:00 p.m. and 4:00 p.m. to 12:00

a.m. shifts. The 12:00 a.m. to 8:00 a.m. shift will have only one house manager on site. There will be a curfew at which time the main entrance will be locked. During the first two shifts one house manager will be required to stay in management office and the other will continuously conduct rounds in the Mansion and Addition as well as on the outside grounds. During the third shift the single house manager will stay in the management office.

The individuals making up the house management staff will collectively be knowledgeable in the field of chemical dependency as well as property management and maintenance.

Having individuals living at the 2118 Blaisdell Apartments actively engaged in recovery from their drug and alcohol addictions will benefit both the individuals in recovery and surrounding community. It is critical for individuals stepping down from one of NuWay House's residential treatment facilities, or for those less acute individuals not needing the benefit of first completing a residential treatment program before beginning services at 2217 Counseling Center to be in close vicinity to their services.

NuWay House has had a positive impact on drug and alcohol related behavior in the areas surrounding its facilities in Whittier east of Nicollet. It is reasonable to assume that NuWay House will have an equally positive impact in the area west of Nicollet Avenue—which some individuals in the community have described as a troubled area. Having a large number of positive individuals and staff in recovery will help reduce some of the problems these concerned individuals have expressed.

6. Whether the requested modification would constitute a fundamental alteration of the zoning regulations, policies, and/or procedures of the city.

In terms of physical space requirements and the appearance, operation and condition of the property and buildings, everything is the same as it would be for a typical multi-unit apartment building which would meet all of the existing zoning ordinance regulations. Using the city's established application process for reasonable accommodation to acknowledge that the residents have disabilities would not constitute a fundamental alteration of the zoning regulations, policies and/or procedures of the city.

7. Whether the requested modification would impose an undue financial or administrative burden on the city.

The proposed use of the 2118 Blaisdell Apartments as a supportive housing facility will not require any government funding. It will require obtaining a rental license as required by Minneapolis City Ordinance. Seeking and obtaining a rental license will not impose any more of a financial or administrative burden on the City than any other multiple dwelling that requires such a license.

8. Any other factor that may have a bearing on the request.

SPECIFIC LAND USE APPLICATION REQUIREMENTS CHECKLIST

In addition to the General Application Requirements the following may also be required:

If the request for reasonable accommodation is to allow for occupancy beyond zoning district maximums, the applicant must submit the following information:

A copy of the house rules. **(See Attached Resident Agreement)**

A copy of the lease agreement(s). **(Not Applicable)**

A floor plan showing the layout of each floor. **(Attached)**

Written responses to the following questions with appropriate documentation:

- 1. What is the maximum number of residents that will be housed at the site at any given time, including any landlord(s), paid staff, or live-in house manager (please specify)?**

The maximum number of actual residents at any given time will be 47. There will be paid staff on site twenty four hours a day but they will not be residing there.

- 2. Does the resident rent the entire house as opposed to a single room? Does the resident have access to the entire house and all household facilities?**

The plans call for the 2118 Blaisdell Apartments to have 22 apartments consisting of 21 efficiency units and one 5-bedroom unit. Each apartment will have one or more rooms designed for occupancy as a separate living quarter, with a complete kitchen and bathroom(s) for the exclusive use of the occupant(s) of the apartment. Some apartments may house two or more occupants. There will be certain common areas of the building that all of the occupants can utilize, such as lounges and a laundry room.

Although there may be two or more occupants in an apartment, in any such apartment each occupant will have their own bedroom (in the 5BR unit) or a separate sleeping area (in the efficiency apartments).

- 3. Does the whole house function as a single housekeeping unit? Are all expenses paid out of a single house account? Does each resident share in the cost and duties of cooking meals, shopping, cleaning, and general household maintenance?**

The 2118 Blaisdell Apartments will not function as a single housekeeping unit. Residents will be responsible for providing their own meals, shopping cleaning and general household maintenance with respect to their apartment. Residents may also be assigned certain household duties with respect to the common areas of the building.

4. Is the house financially self-sustaining?

The 2118 Blaisdell Apartments will be financially self-sustaining. All operating expenses will be covered by NuWay House, Inc. The residents will not be paying rent.

5. Has the house ever received financial or other support from the government or other source? Could the house receive such support?

NuWay House, Inc. has never received government support and is not eligible for such support.

6. What percentage of residents has gone through alcohol, controlled substance, or treatment programs designed to treat the specified disability prior to arrival at the house? Please provide documentation (personal identifying information may be redacted).

All four of the NuWay House, Inc.'s MN-DHS Rule 31 facilities are licensed to provide treatment for individuals exclusively suffering from chemical dependency and mental illness as defined by DSM 5. 2118. The 2118 Blaisdell Apartments will be for the exclusive use of individuals who've been treated at NuWay House, Inc.'s facilities and who continue to receive outpatient treatment at the NuWay House's facility at 2217 Nicollet Avenue South (the "2217 Counseling Center").

7. Is the house located in proximity to places where AA, NA, or similar meetings intended to treat the specified disability, are regularly conducted (please specify)?

As stated in the response to Item No. 6, residents will be required to participate in outpatient treatment at the 2217 Counseling Center which is a short distance from the 2118 Blaisdell Apartments. However, it is important to note that the 2118 Blaisdell Apartments is located in the heart of the Minneapolis "recovering Community". The 2218 Alano Society located at 2218 First Avenue South is the oldest continuously operating AA Club in the world. Including the Twenty Four Hundred Blaisdell Alano Society there are over 200 hundred AA/NA meetings every week within a 4 block radius of the 2118 Blaisdell Apartments

8. Is the house located near commercial districts where residents may obtain basic necessities like groceries and household items (please specify)?

The 2118 Blaisdell Apartments are conveniently located within two blocks of a multiple major bus lines. In addition, there is an abundance of retail shopping within walking distance including grocery stores.

9. Is the house located near a range of employment sites and/or public transit opportunities (please specify)?

As stated in Number 8, The 2118 Blaisdell Apartments are located within two blocks of a multiple major bus lines.

The Whittier neighborhood has several organizations that provide vocational training and/or the possibility of employment such as the following:

- a. Nicollet and Franklin Avenues are a major Metro Transit Hub.
- b. Minneapolis Community and Technical College – 1501 Hennepin Avenue South
- c. AAA Labor – 1908 Chicago Avenue South
- d. Hennepin County Vocational Services Program – 1800 Chicago Avenue
- e. Lutheran Social Services – 2400 Park Avenue South
- f. Light House – 1825 Chicago Avenue South
- g. Catholic Charities Opportunities Center – 740 East 17th Street
- h. Minnesota Workforce Center – 777 East Lake Street
- i. Atlas Staffing – 102 East Lake Street
- j. Dignity Center -511 Groveland
- k. St. Stephens -2309 Nicollet Avenue
- l. Amicus – 3041 4th Avenue South
- m. PPL Learning Center 1925 Chicago Avenue South
- n. NuWay House, Inc.

10. Will any of the residents have cars? How many off-street parking spaces are available? (please submit a drawing that illustrates the location)

Because the residents of the 2118 Blaisdell Apartments are early in the recovery process it is not anticipated that more than 5 to 10 individuals will have automobiles at any one time. There are 46 parking spaces at the 2118 Blaisdell Apartments so there will be plenty of available parking spaces for those few residents that have cars.

11. How is the house advertised for occupancy? Who refers residents to the house?

Referrals will be made by NuWay House’s four treatment centers. There will be no advertising to the general public.

2118 Blaisdell Resident Agreement

This is not a standard landlord/tenant agreement; this is a sober housing contract. NuWay may at any time and for any reason ask any resident to immediately leave the property. Any resident that violates any of the following rules is subject to losing their housing at 2118 Blaisdell Apartments (the “House”).

- 1. All residents must participate in individually required programming at 2217 Counseling Center.**
- 2. No use of alcohol or any other mood altering substances on or off the premises.**
- 3. Threats or acts of violence will not be tolerated. No guns, knives or other weapons allowed on the premises.**
- 4. Whenever leaving the premises residents are required to sign in and out in the log book in the House Management Office.**
- 5. Residents must be up and dressed, with their apartments in order and ready for the day’s activities by 7:20 am Mon - Sat and 9 am Sun.**
- 6. All residents are expected to be involved in all programming.**
- 7. House Jobs:**
 - a. Residents are to complete assigned house duties daily and by 8:20am Mon-Sat and by 10 am Sun.**
 - b. Changing assigned house duties is allowed only when approved by House Managers and both residents see House Manager on duty.**
 - c. Cleaning & house supplies can be obtained from House Manager on duty.**
 - d. Linens are exchanged Monday mornings through House Manager on duty.**
 - e. Clean Apartment Award is awarded each Friday to the apartment with the most points.**
- 8. No pan handling or collecting unreported income is allowed.**
- 9. Curfew is at 10:30 pm Sunday – Thursday and Midnight Friday and Saturday. Quiet time in the house begins at 10:30 pm. Any resident returning after curfew must be allowed back in to house only by the House Manager.**
 - a. Your assigned house duties must be covered during anytime you are away on a pass.**
- 10. Visitors:**
 - a. Visitors must sign in and out at the Management Office.**
 - b. Visiting hours are from 2 pm – 10 pm.**
 - c. Residents are responsible for the conduct of their visitors.**
- 11. Phones:**

- a. Confidentiality – you must not give out another residents’ name over the phone nor confirm that a resident is living in at the House.
 - b. All phone calls are limited to no more than 5 minutes when more than one resident is waiting to use the phone.
 - c. No incoming or outgoing calls after 10:30 pm.
12. Dress:
- a. Shirts, pants, and footwear must be worn when out of your Apartment.
 - b. Street or drug-oriented clothing is not acceptable in or out of the House.
 - c. No sunglasses, hoodies, or headphones in the House except headphones may be used in individual apartments.
13. Meals:
- a. Residents will be supplied a \$75 weekly food stipend to purchase food.
 - b. All food will be prepared and consumed in residents’ apartment unit.
14. Smoking/Tobacco:
- a. All smoking (regular cigarettes or E-cigarettes) is prohibited except in designated (parking lot) area outside.
 - b. No congregating or smoking in front of the House.
 - c. No cigarettes (regular or E) are to be visible inside the House.
 - d. Chewing tobacco is not allowed inside the House.
15. TV:
- a. No TV watching (or lying in bed) from 8:30 am - 2:00 pm Mon-Fri.
16. Phones and Electronic Devices
- a. Use of cell phones and all other electronic devices is prohibited except in apartments or outside.
17. Do not lend or borrow money or personal belongings while at the House.
18. Residents are not to be in other residents’ apartment.
19. No gambling while you are a resident at the House.
20. No incense, candle burning, or smudging allowed in House, including individual apartments.
21. A breathalyzer and/or urinalysis may be requested at any time. Resident is to remain with the House Manager until a sample can be produced. If the resident is not able to produce a urine sample within 2 hours this will be noted as a refusal. A refusal may be grounds for discharge.
22. The House is not responsible for personal belongings. Post discharge personal effects will be stored for 60 days, after that time they will be disposed of. Apartment security is an individual responsibility. Apartments should be locked whenever you leave them.

Statement of Appeal

I've submitted this appeal of the CPED Staff Report dated November 24, 2014 (the "CPED Report") regarding the application by NuWay House, Inc. for a Reasonable Accommodation waiving the quarter mile spacing requirement in the Minneapolis Zoning Code with respect to 2118 Blaisdell because I, residing at 2115 Pillsbury have standing to make the appeal under the Zoning Code. As a member of the Board of the Whittier neighborhood association, The Whittier Alliance, I can testify that the position set forth herein is shared by the Whittier Alliance, which has publicly stated its opposition to NuWay's intentions regarding 2118 Blaisdell and continues to oppose its proposed use of this property on behalf of the neighborhood. Certain information included in this appeal is derived from analysis and information with respect to the neighborhood provided by the Whittier Alliance.

Recent History with respect to 2118 Blaisdell

At the end of 2013, Nu-Way House, Inc. ("NuWay") a non-profit organization that provides drug and alcohol counseling services, purchased 2118 Blaisdell Avenue South with the intention of opening its fourth facility within a two block radius, in the Whittier neighborhood. At that time, Nu-Way's director, David Vennes, explained to me that Nu-Way had figured out how to tap into certain pockets of Medicaid and other insurance resources to greatly improve its finances so it is in a position to expand significantly. At the same time, Nu-Way sought but failed to purchase another home that sits directly between its counseling center at 2217 Nicollet and its Supportive Housing Facility at 2200 1st Ave South. It further sought to purchase an apartment building between Blaisell and Nicollet Avenues and has recently purchased the building owned by the Institute for Agricultural and Trade Policy on Stevens Avenue. All of these buildings are within 1-2 blocks of NuWay's 2217 Nicollet building and within 1-3 of each other. It now has five buildings all within one ¼ mile area.

At this time, the Whittier Alliance informed NuWay that it had grave concerns about its stated intent to cut up 2118 Blaisdell (a stunning turn of the century mansion with historic and architectural significance that is an important asset to the neighborhood, that developers are anxious to restore into an income and tax generating event space) into housing for potentially more than 200 men per year struggling with alcohol and drug addiction. (See the attached letter for a better understanding of the significance of this property.) The Whittier Alliance invited Nu-Way to present its plan at the Community Issues meeting. The opposition of the neighborhood to NuWay's plan voiced at this meeting was clear and, at the request of the CI, the Whittier Alliance passed a Board Motion opposing Nu-Way's intended use of 2118 Blaisdell. (See the attached Whittier Alliance Motion).

NuWay submitted a site plan to the City to break up 2118 Blaisdell into twenty-two 'apartments'; by converting the 1950s addition and the ballroom of the original mansion into twenty-one (21) studio apartments and by converting the remainder of the original mansion into one (1) 10,000 square foot 5 bedroom "apartment;" undoubtedly the largest apartment in

Minneapolis. NuWay claimed at the time that they would not need to apply for any Reasonable Accommodations with the City, or thereafter obtain a Conditional Use Permit to go through with their plans because all they intended to do was convert 2118 Blaisdell into 'apartments,' not create a group home/supportive housing/inebriate housing and that they would also not be seeking licensing from Minnesota for this facility. Neighbors and the Whittier Alliance mobilized and illustrated to the City that NuWay clearly did not intend to simply create apartments, but rather sought to create yet another Supportive Housing Facility/inebriate house, in violation of the Minneapolis Zoning Code's quarter mile spacing restrictions, because 2118 Blaisdell lies within a quarter mile area that is already vastly over-concentrated with such facilities. The CPED Report correctly concludes that NuWay's intended use of 2118 Blaisdell is in fact that of yet another Supportive Housing facility.

When NuWay learned that its site plan proposal would be denied, it withdrew its application. At that time, the Whittier Alliance was told by CPED staff that NuWay could submit a new site plan or apply for a Reasonable Accommodation and that the Whittier Alliance would be informed if and when NuWay submitted an application for a Reasonable Accommodation. According to the CPED Report, NuWay submitted an application on October 5, 2014. The Whittier Alliance was not informed that NuWay had submitted an application for a Reasonable Accommodation, so was not allowed the opportunity to provide the CPED Staff with additional information that would have aided staff in its analysis of the issue. Although the CPED Report is dated November 24th, 2014, neighbors of 2118 Blaisdell did not receive notice of the report until December 19th, in a letter dated December 15th. The Whittier Alliance was told that neighbors with standing to appeal the CEPD Report recommendations could do so by submitting an appeal by the end of the day on Tuesday, December 30th, 2014. Because the response period has fallen directly in the middle of the Christmas holidays and year-end business, neither the Whittier Alliance nor my wife and I have yet been able to secure professional legal counsel that would have undoubtedly helped provide even stronger evidence of the need for the City to deny NuWay's application.

Nevertheless, the arguments and evidence set forth below clearly show that the CPED Report has not accurately applied the applicable standards in evaluating NuWay's application and that doing so leads to the inevitable conclusion that NuWay's application for a reasonable accommodation eliminating the quarter mile zoning requirement should be denied.

The CPED Report Findings

The CPED Report outlines, on page 2, the criteria to be considered in determining whether or not to grant a reasonable accommodation should be granted under the FHAA. Unfortunately, the CPED Report misapplies the criteria to the information provided by NuWay, does not require evidence from NuWay that it meets the criteria outlined, and does not have the benefit of the evidence listed below which dictates denial of the application for an accommodation removing the quarter mile spacing.

The three criteria outlined by the CPED for evaluating NuWays request are:

- 1.) Whether the request is being made on behalf of a person or persons who are considered disabled under the provisions of the Act (i.e the FHAA);
- 2.) Whether or not the requested accommodation is necessary; and
- 3.) Whether the requested accommodation is reasonable.

Whether the request is being made on behalf of a person or persons who are considered disabled under the provisions of the Act.

NuWay's applications states that the *"2118 Blaisdell Apartments will serve former alcoholics and addicts (who are no longer engaging in illegal drug use) and are receiving outpatient services at NuWay House's counseling center located at 2217 Nicollet,"* one block from 2118 Blaisdell. NuWay clearly understands that, as the CPED Report correctly states, *"the current, illegal use of or addiction to a controlled substance does not constitute a "disability" under the Act."* Accordingly, NuWay emphasizes in its application that this housing would be for "former alcoholics and addicts." However, when NuWay presented at the Whittier Community Issues meeting its Director, David Vennes, responded to an inquiry as to whether the apartment building they wanted to create wasn't really just a sober house because the residents would be trying to become/remain sober, he conceded that the residents would be in varying degrees of sobriety; some would be sober, some would not. Accordingly, by NuWay's own admission, the residents of the facility would not qualify under the any interpretation of the FHAA, because "the current, illegal use of or addiction to a controlled substance does not constitute a "disability" under the Act.

At the time, NuWay was trying to avoid having to follow the requirements of Supportive Housing and stated that it would not be applying for any licenses for this facility, unlike the facility one block away at 2200 Stevens. This position was a tactical one on the part of NuWay, because it was well aware that the quarter mile zoning restriction is intended to prohibit the clustering of supportive housing/inebriate housing in Minneapolis; hence its argument that they were really just creating an apartment building. The CPED correctly understood, from information and arguments submitted by the Whittier Alliance, that NuWay's argument that it was only creating apartments (not subject to code restrictions) was ridiculous. Allowing NuWay to pretend it was only creating apartments and approving its site plan would mean that NuWay could buy up all of the apartment buildings for several blocks, insert their fee for services clients (paid through Medicaid, etc.) in them and ignore the quarter mile restrictions in the code that were created to prevent clustering. The City rightly realized this and has accordingly concluded that NuWay's intended use of 2118 Blaisdell would amount to Supportive Housing. The City now needs to recognize that granting an accommodation removing the quarter mile spacing requirement based upon the logic in the CPED Report (in short that the City generally always does so) effectively removes the restriction altogether and would allow organizations like NuWay to do exactly what it is intending to do; create a cluster of supportive housing/inebriate

housing facilities in one small area in a manner that is inequitable, discriminatory and detrimental to the neighborhood in question.

Another factor the CPED staff who drafted the report (but who have not had the benefit of touring the interior of the property) need to appreciate is that NuWay's stated intent to use 2118 Blaisdell simply for apartments *housing* people who have been through treatment is likewise disingenuous. NuWay claims that the original 10,000 square foot mansion will be converted into one 5 bedroom apartment. It's no exaggeration to state that this would be the largest 'apartment' in Minneapolis. What NuWay is not addressing is what they will do with the massive reception rooms on the first floor of the mansion (the billiard's room, the library, the enormous living room, the grand dining room and the expansive breakfast room/salon). It defies logic to believe that NuWay will not be using these abundant reception spaces in this 'five bedroom apartment' to carry out counseling sessions and group meetings for all of the 47 residents of the apartments NuWay hopes to create in the building. The reality is that NuWay is seeking, through its application for a reasonable accommodation to vastly expand its counseling footprint in this one block radius, but without the bother of complying with licensing and code requirements. The facility they intend to create at 2118 Blaisdell would, it appears, be essentially no different than the facility one block away at 2200 Stevens. The point of this observation is to emphasize again that although NuWay suggests in their application that their residents would not be currently using alcohol or other drugs, their comments on the issue indicate otherwise, and if they chose this building because it provides space for active treatment facilities as its features suggest (not simply housing), for those who might just be entering treatment with NuWay, then these would persons not be "former alcoholics and drug addicts."

To support its position that its residents should qualify as disabled under the FHAA, NuWay states in its application that all residents would "meet DSM-V (Diagnostic and Statistical Manual-Fifth Edition published by the American Psychiatric Association) criteria for alcohol or drug use disorder." From this statement, the CPED Report somehow, erroneously concludes (see page 11) that "Potential residents would be limited to individuals who have been diagnosed with a physical or mental handicap." Nowhere in NuWay's application is this stated; rather they only state that they intend to house "former alcoholics and drug addicts."

The CPED Report also erroneously states on page 4 (without any evidence to support the conclusion), that "alcoholism and chronic drug use" are categorically "considered disabilities" under the Americans with Disabilities Act (and doesn't address the definition under the FHAA). CPED's Report accordingly concludes that NuWay's intended residents would all be disabled, and that the FHAA dictates that the City should issue an accommodation removing the quarter mile restriction in order to not discriminate against them. Both of these assumptions are incorrect.

The FHAA defines persons with a disability to mean "those individuals with mental or physical impairments which substantially limit one or more of their major life activities." "Major life activities include, but are not limited to, caring for one's self, walking, seeing, hearing, speaking, breathing, learning and working." (See 24 CFR Section 100.201) The U.S. Department of Justice and the U.S. Department of Housing and Urban Development are jointly responsible for

enforcing the Act. According to their Joint Statement (dated May 17, 2004) on Reasonable Accommodations Under the Fair Housing Act, “substantially limits” suggests that the limitation is “significant” or “to a large degree.” NuWay has provided no evidence or even stated that any of the proposed 200 annual residents would have an impairment which substantially limits one of more major life activity under the FHA and the CPED Report’s recommendation to grant the accommodation removing the quarter mile restrictions is based upon the assumption that all of the proposed residents would, rather, be diagnosed with a disability under the ADA. The CPED Report’s recommendations do not require NuWay to provide any evidence that the 200 plus residents/year of this facility would meet the definition of disabled persons under the FHAA, the Act upon which the CPED Report claims it is appropriate to grant such an accommodation. Given that NuWay sought to skirt the enforcement of applicable zoning codes on 2118 Blaisdell by claiming that it intended to create ‘apartments’ rather than another Supportive Housing facility, the City should require an exacting standard of evidence from NuWay with respect to its application to remove zoning restrictions, rather than assuming relevant facts in their favor without requiring further substantiation.

In fact, the information NuWay did provide in its application, that their proposed residents would be “*former alcoholics and addicts (who are no longer engaging in illegal drug use) and are receiving outpatient services at NuWay House’s counseling center located at 2217 Nicollet,*” suggests that these residents would *not* be persons who are considered disabled under the FHA; that is they would not be “those individuals with mental or physical impairments which substantially limit one or more of their major life activities.” According to NuWay, they would have already undergone treatment and no longer be using alcohol or drugs. If this is true, then they would not qualify as disabled under either the ADA or FHAA.

As noted above, NuWay has provided no evidence that the proposed inhabitants of 2118 Blaisdell would meet the definition of disabled persons under the Act and has been disingenuous in their previous applications with the City. Rather, the public comments of NuWay’s director indicate that inhabitants would not be sober, so would clearly not qualify as disabled under the FHA, which dictates that “*the current, illegal use of or addiction to a controlled substance does not constitute a “disability.”*” And NuWay’s statement in its application that these residents would be “*former alcoholics and addicts*” (who have already undergone intensive treatment through one of NuWay’s programs) indicates that they would *not* be disabled under the FHA. NuWay has not proven that the proposed residents of 2118 Blaisdell would be disabled under the Act, so its request for an accommodation should be denied.

Whether the request for accommodation is necessary under the Act.

In instances when an applicant has proven that the residents in question qualify as disabled under the Act, the City must next answer the question of whether the requested accommodation is necessary.

CPED Report erroneously looks at this issue in the extremely narrow focus of whether or not NuWay could put their facility in the location in question if a reasonable accommodation is not granted (i.e. whether an accommodation removing the zoning restriction is necessary in order for

them to put a Supportive Housing facility in 2118 Blaisdell). Obviously, anyone requesting a reasonable accommodation removing a spacing restriction under the FHAA is doing so because the restriction prevents them from putting their desired facility in that location. That issue is not the question that the FHAA demands be answered with respect to determining the necessity of such accommodations. The issue, as further described below, is whether the accommodation is necessary for disabled persons to enjoy an equal opportunity to enjoy the housing of his choice; which traditionally is intended to provide disabled persons the right to choose to live in single-family neighborhoods so as to end their exclusion from the American mainstream.

One-fourth Mile Spacing Requirement

The Minneapolis Code of Ordinances, Title 20 Zoning Code, Chapter 536 Specific Development Standards states that “supportive housing shall be located at least one-fourth mile from all existing supportive housing and from all of the following uses, except in the B4 Overlay District:

- a. Community correctional facility.
- b. Community residential facility.
- c. Inebriate housing.
- d. Motel.
- e. Overnight shelter.”

1. Number of Facilities

As the CPED Staff Report indicates, there are at least 30 facilities licensed by the Minnesota Department of Health, and many more facilities that are not so licensed, within one-fourth mile radius of 2118 Blaisdell, therefore the law is clearly implicated. In fact, there are at least 30 such facilities, 29 Supportive Housing and/or Community Residential Facilities, and 40 affordable housing facilities within Whittier. All of these housing facilities are within walking distance of NuWay’s other 3 facilities and at least 26 known to us within 1-3 blocks of 2118 Blaisdell Ave. S (See Exhibit 1) For immediate reference, such facilities (CCR, CRF, IH, etc.) include but are not limited to the following:

1. Nu-Way I, 2200 First Ave. So. SH (2 blocks from 2118 Blaisdell)
2. Nu-Way II, 2518 1st Ave. So. SH (3-4 blocks from 2118 Blaisdell)
3. Nu-Way House Counseling Center at 2217 Nicollet Ave. South (2 blocks from 2118 Blaisdell)
4. Norpol Residence 1921 First Ave. So. SH (2 blocks from 2118 Blaisdell)
5. Lydia House at 1920 LaSalle Ave. So. SH (1 block from 2118 Blaisdell)
6. Alliance Housing, 2011 Pillsbury Ave. So SH (1 block from 2118 Blaisdell)
7. Deputat 2304 Pillsbury Ave SH (1.5 blocks from 2118 Blaisdell)
8. Medallion Manor I, 2244 Pillsbury Ave So SH (1.5 blocks from 2118 Blaisdell)
9. Medallion Manor II, 2403 Pillsbury Ave. So SH (1 block from 2118 Blaisdell)
10. Pleasant House, 2215 Pleasant Ave. So SH (1 block from 2118 Blaisdell)

11. Chateau Healthcare Ctr. 2106 Second Ave So. SH/Nursing Home (3 blocks from 2118 Blaisdell)
12. City of Lakes Transitional CC 110 18th St. E. SH/Nursing Home (3 blocks from 2118 Blaisdell)
13. Children's Residential Trtmt 143 19th St. E. CRF (2.5 blocks from 2118 Blaisdell)
14. Bristol Place 209 Groveland Ave. CRF/Mentally Ill (2 blocks from 2118 Blaisdell)
15. REM – Pillsbury Inc. 2311 Pillsbury Ave CRF (1 block from 2118 Blaisdell)
16. Home Away for Girls 2119 Pleasant Ave CRF (1 block from 2118 Blaisdell)
17. Home Away for Boys 2219 Pleasant Ave CRF (1 block from 2118 Blaisdell)
18. Oak Grove Rest Trtmnt 131 Oak Grove St. CRF/Mentally Ill (3 blocks to 2118 Blaisdell)
19. Bristol Place 202 Ridgewood Ave CRF/Mentally Ill (3 blocks to 2118 Blaisdell)
20. Three Thirty Five Ridgewood 335 Ridgewood Ave CRF (3 blocks to 2118 Blaisdell)
21. Bristol Pl. 400 400 Ridgewood Ave CRF (3 blocks to 2118 Blaisdell)
22. Maria Home 420 Ridgewood Ave CRF (3 blocks to 2118 Blaisdell)
23. Steven's Home 1928 Stevens Ave SH (3 blocks to 2118 Blaisdell)
24. Women's Community Housing Passages Comty Housing 17 E 24th St (2 blocks to 2118 Blaisdell)
25. Supportive Living Solutions Whittier Place 2405 1st Ave S SH (3 blocks to 2118 Blaisdell)
26. Supportive Living Solutions Serenity Place 2409 1st Ave S SH (3 blocks to 2118 Blaisdell)

2. Enforceability of the ¼ mile spacing requirement

As explained in the past by Minneapolis Assistant City Attorney Carol Lansing, the City's one-fourth mile spacing requirement is valid and enforceable. That is to say, the law is not invalidated by the Federal Fair Housing Act or any other statute or constitutional provision.

The City Attorney's opinion is firmly rooted in 8th Circuit case law.¹ The 8th Circuit ruled on the issue in Familystyle of St. Paul v. City of St. Paul a case which involved a community residential facility where eighteen similar facilities existed within ¼ mile of the proposed site.² In that case, the 8th Circuit held that the Fair Housing Act (the "FHA" or the "Act") does not forbid spacing requirements so long as they are "rationally related to a legitimate governmental purpose." The 8th Circuit described the purpose of spacing requirements as such, "The dispersal requirements are designed to ensure that mentally handicapped persons needing residential treatment will not be forced into enclaves of treatment facilities that would replicate and thus perpetuate the isolation resulting from institutionalization." Obviously, another legitimate governmental purpose is the balancing of the apportionment of such facilities throughout the City's neighborhoods in order to protect a neighborhood from the adverse effects that accompany over-concentration.

¹ Minnesota is in the 8th Circuit.

² 923 F.2d 91 (8th Cir. 1991)

The Familystyle of St. Paul case is precisely on point both legal and factually. Legally, the Minneapolis ordinance is virtually identical to the St. Paul ordinance that was challenged by Familystyle. Factually, in the Familystyle case there were eighteen (18) facilities within one-fourth mile of the proposed site. By comparison, there are at least *thirty (30)* such facilities known to us with one-fourth mile of 2118 Blaisdell; *twenty-six (26)* of which are within 1-3 blocks of 2118 Blaisdell.

3. Reasonable Accommodation under the federal Fair Housing Act

The simple fact that a proposed housing project proposes to serve a “protected class” does not result in an automatic waiver of City zoning rules, such as the one-fourth mile spacing requirement. Instead, when an accommodation is requested, the Planning Commission should apply a two part test which was developed over the years numerous federal court decisions.³ The test asks two basic questions.

- First, is the accommodation necessary? The burden of proof is on the applicant.
- Second, is the request reasonable? Courts are divided about who has the burden of proof, but, generally, IF the applicant has proven necessity, then the municipality is to show that the requested accommodation is unreasonable.

Below, this appeal discusses the legal requirements of these tests and applies the tests to NuWay’s application.

To briefly summarize the salient points, the reality with respect to the NuWay application is that the accommodation is not necessary for two reasons (discussed below). Furthermore, it is clear that it would not be unreasonable for the city to deny the accommodation for two reasons (discussed below).

First Step: The applicant must show that the accommodation is necessary.

In order to satisfy this test, applicants must show that without the accommodations, a protected class would be denied the opportunity to enjoy housing of their choice in the community of their choice. NuWay has not made this showing and has failed this test in two ways.

In some circumstances, the FHA requires a municipality to change its rules or practices so as to allow persons with disabilities to live within a certain community. Under the FHA, unlawful

³ The two step process was also recommended by a joint task force of the National League of Cities and the Coalition to Preserve the Fair Housing Act. The document they prepared in 1999 is entitled, “Local Officials Guide, Fair Housing, The Siting of Group Homes for the Disabled and Children” p. 8-9. The report includes another step that only applies in litigation (an applicant must request an accommodation and exhaust administrative remedies before filing a lawsuit). The report is available on the web at: <http://www.bazelon.org/cpfha/grouphomes.html>

discrimination includes “a refusal to make reasonable accommodations in rules, policies, practices, or services, when such accommodations may be necessary to afford a handicapped person equal opportunity to use and enjoy a dwelling.” 42 U.S.C. § 3604(f)(3)(B). The concept of “equal opportunity” under the FHAA generally means providing people with disabilities the right to choose to live in single-family neighborhoods so as to end their exclusion from the American mainstream. (See *Oconomowoc Residential Programs, Inc. v. City of Milwaukee*, 300 F. 3d. 775, 784 (7th Cir. 2002); *Lapid-Laurel, L.L.C. v. Bd of Adjustment*, 284 F.3d 442, 457 (3rd Cir. 2002); *Howard v. City of Beavercreek*, 276 F.3d 802, 806 (6th Cir. 2002); *Dr. Gertrude A. Barber Center, Inc. v. Peters Township*, 273 F. Supp. 2d 643, 653 (W.D. PA. 2003).) As the CPED Report notes, an accommodation is “necessary” if, but for the accommodation, the plaintiff is likely to be denied an equal opportunity to enjoy the housing of his choice.” (See *Oconomowoc Residential Programs, Inc. v. City of Milwaukee*, 300 F. 3d. 775, 784 (7th Cir. 2002); *Lapid-Laurel, L.L.C. v. Bd of Adjustment*, 284 F.3d 442, 457 (3rd Cir. 2002); *Howard v. City of Beavercreek*, 276 F.3d 802, 806 (6th Cir. 2002); *Dr. Gertrude A. Barber Center, Inc. v. Peters Township*, 273 F. Supp. 2d 643, 653 (W.D. PA. 2003).)

Neither of these two criteria are met in NuWay’s application. The denial of an accommodation to NuWay removing the quarter mile spacing would not deny persons with disabilities the right to choose to live in a single-family neighborhood. Such an accommodation is also not necessary in order to prevent persons with disabilities from being denied an equal opportunity to enjoy housing of his choice in Whittier. On the contrary, the Whittier neighborhood has become so heavily concentrated with housing options for persons who are “recovered alcoholics or drug addicts” (regardless of whether they meet the definition of disabled under the Act or not) that it is simply ridiculous to suggest that they would be denied equal access to housing in Whittier if the City enforced the quarter mile restriction with respect to 2118 Blaisdell.

“Former alcoholics and addicts” already have the right and the well exercised ability to live within the immediate vicinity surrounding 2118 Blaisdell. The Minneapolis zoning code allows one (1) supportive housing facilities in every neighborhood (i.e. two within a one-fourth mile radius) with a Conditional Use Permit. Further, in the area within one-quarter mile of 2118 Blaisdell, there are at least thirteen (13) supportive housing facilities, and at least twelve (12) other similar facilities (CFRs). (See above and Exhibit 1.) Furthermore, affordable rental housing is exhaustively available in the area without restrictions related to disability, family size, etc. As identified on Exhibit 1, there are at least forty (40) affordable housing properties in the Whittier neighborhood, all within walking distance of NuWay’s counseling center at 2217 Nicollet Avenue South, and its other two facilities. The very abundant affordable housing (Section 8, etc.) apartments throughout Whittier have a long history of accepting tenants who are former alcoholics and addicts and all such apartment buildings are required, under FHAA not to discriminate against any persons who are disabled pursuant to the Act.

As such, housing, both supportive and other, is readily available in the immediate area to the “former alcoholics and addicts” NuWay wishes to house at 2118 Blaisdell. No reasonable reading of the FHA suggests that municipalities must make available an infinite supply of supportive housing in any neighborhood. In fact, the Minneapolis City Council enacted the

spacing requirements in order to give the protected class the opportunity to live throughout the community. The law was enacted to end the discriminatory practice of concentrating all mentally ill persons in “residential treatment ghettos.” To quote the 8th Circuit Court of Appeals in Familystyle, “had the city intended to discriminate against the mentally ill, one sure way would be to situate all group homes in the same neighborhood.”

Unfortunately, that is precisely what has occurred over the years in Whittier, to the point that NuWay openly bragged on its websites about its facilities are located “in the heart of the recovery community.” The list of Supportive Housing, Community Residential Facilities, Inebriate Houses, etc. shown above and in Exhibit 1 clearly bears out the fact that Whittier has taken on so much of such housing that the neighborhood has basically become saturated with it. As neighbors have far too often heard from those in positions of power, the prevailing attitude in the past has been, ‘Well, these facilities have to go somewhere.’

But this gross over-concentration of such housing has been to the detriment of the neighborhood and it’s residents (home owners and renters alike) who continually struggle with livability issues and the unacceptable levels of crime that accompany the over concentration of alcoholics and addicts who are targeted by drug dealers in one area. Neighbors of mine have been threatened by residents of Alliance Housing’s 2011 Pillsbury facility (half a block from 2118 Blaisdell) carrying out drug deals in broad daylight, and the owner of The Bad Waitress at 26th and Nicollet can testify to recent problems with inebriated/high loiterers (intimidating patrons) who identified themselves as being “with NuWay.”

This reality has also severely dampened both the individual investment in homeownership in the area as well as the interest of many serious developers unwilling to take the risk of bringing thriving new businesses and developments to such an area. Before I purchased and restored my home at 2115 Pillsbury (a foreclosure which had been vacant for two years) it was slated to become yet another half-way house for alcoholics and drug addicts. Encouraging single family home ownership in Whittier is a stated goal of the Whittier Alliance, intended to help create greater equity in the neighborhood and improve living conditions for all of its inhabitants. However, home owners can attest the chilling effects that an ever increasing over concentration of supportive housing has had in the neighborhood. As the City contemplates the moving of K-Mart and reopening of Nicollet Avenue it must be conscious of the fact that allowing an even greater concentration of such housing in violation of zoning codes where there is no justification under the Act will also work to create prevent the desired development of this area of Nicollet avenue.

Sadly, gross overconcentration also has a terrible impact upon the very people organizations like NuWay aim to serve. The city’s drug dealers have long known that Whittier is a rich and ready market for their products and even a cursory look at the 911 calls on apartment buildings and supportive housing properties (including NuWays) illustrates this point sharply. Unfortunately, to make matters worse with respect to NuWay’s application for a reasonable accommodation, the property in question 2118 Blaisdell is located practically at ground zero of this problem in Whittier. In addition to problems with other Supportive Housing properties in the immediate area (2011 Pillsbury, less than a block away has been the subject of a drug investigation over the

past year), the apartment complexes directly across the alley and 22nd Avenue from 2118 Blaisdell have been targeted by drug dealers for years. The Whittier Alliance and the home owners and renters in the direct vicinity are not alone in being concerned about the adverse effects of adding more than 200 additional alcoholics and addicts to one of the worst corners in the neighborhood. An informal survey of the police who patrol this area will confirm that the neighborhood's concerns are shared by the men and women responsible for trying to police drug crimes. Larry Krueger, at the Fifth Precinct, who sends crime reports to the block captains and interested residents in the neighborhood can easily testify to the overabundance of drug related crime in this area of Whittier and provide the City with the reports that illustrate the reality of the situation. As I drafted this appeal this afternoon, I received two emails from Officer Krueger (who sends crime alerts to block captains) identifying two drug related arrests at the corner of 22nd and Blaisdell, where 2118 Blaisdell is located. The first, which occurred on December 26th, at 22 ST W Blaisdell AV S, at 6:37:00 PM was for a Narcotix Violation in which the "Arrested Party (AP1) was found in possession of suspected marijuana that was later determined to be a felony amount. AP1 also did not have insurance on the vehicle and it was towed to the impound lot. AP2 was cited for possession of drug paraphernalia". The second, which occurred yesterday at 2:55 AM at 22 St W Blaisdell AV S involved Assault With a Dangerous Weapon, ("AP/1 was booked HCJ for Assault 2 and AP/2 was booked HCJ for DWI".)

I have provided CPED staff with police records for 911 calls in the direct vicinity of 2118 Blaisdell and the surrounding two blocks, which should be included in the appeal information provided to you. If you review the reports provided you will see that this area has been plagued with problems for years, and the creation of a Housing Facility that would add 200 drug addicts per year to this struggling corner will clearly be bad for both the neighborhood and the proposed residents that NuWay intends to house.

The Pillsbury Mansion at 2118 Blaisdell is 1 block from **the intersection of Franklin and Nicollet**, one of if not the worst intersection in the Whittier neighborhood. This intersection had 511 calls for police service in the past month alone, which as an average **yields 3,577 calls for Police Service on this corner in the past year!** Police in the area are all too familiar with the drug related problems that plague this area and cause serious livability concerns for the residents and businesses in the surrounding blocks. The block between this intersection and 2118 Blaisdell (**the 2100 Block of Nicollet**) registered 488 calls for Police Service in the past seven years, for an average of **61 calls for Police Service per year**, and the next block down, **2200 block of Blaisdell**, registered a total of 1019 calls for Police Service in the past 7 years, and average of **145 per year**. The **intersection of Blaisdell and 22nd itself** (where 2118 Blaisdell is located) tallied 353 calls in the past seven years, an average of **51 per year**. Tallying just the calls that were reported for these intersections, the block of Nicollet leading to 2118 Blaisdell and the block of Blaisdell following it to the South, **yields 3,834 Calls for Police Service in the past year**, just for the two blocks just North and South of the Pillsbury Mansion (without looking further, East or West).

Now consider a few of the problem properties directly surrounding the Pillsbury Mansion. The property at **2011 Pillsbury** (1/2 a block away from the Pillsbury Mansion) operated by Alliance Housing had **27 calls for Police Service in the past year**. The apartment complex at **2200**

Pillsbury had 34 calls in the past year. 2200 Blaisdell (directly across the street from the Pillsbury Mansion had **48 Calls for Police Service per year. 2119 Pillsbury** (directly across the alley from the Pillsbury Mansion) had **108 Calls for Police Service in the past year. 2017 Pillsbury** (1/2 a block away from the Pillsbury Mansion) had **39 calls for Police Service in the past year.** And **2200 Pillsbury** registered **34 calls per year.** When you add together just these five buildings surrounding the Pillsbury Mansion you see that they add **another 290 calls in the area directly surrounding 2118 Blaisdell.** When added to the 3,834 calls for the intersections and surrounding blocks noted above, this area 2 block area directly surrounding 2118 Blaisdell had **4,124 calls for Police Service in the past year,** just from these buildings alone, without adding any of the many other housing facilities and struggling low-income complexes in the area.

While some of the managers of the buildings surrounding 2118 Blaisdell have been working hard to decrease the number of Police calls to their properties, others have not and problems persist. Not surprisingly, none of the owners/managers of these buildings support NuWay's proposed use of 2118 Blaisdell as they are greatly concerned that the work they've been doing to help chase our drug dealers will be undermined by the addition of 200/year addicts concentrated in one building on this troubled corner. As the managers of the five low-income apartment buildings surrounding 2118 Blaisdell have noted to me, they are further concerned that creating such a complex directly across the street from their buildings (and the overall cluster of 5 facilities NuWay is trying to create in this 2 block area) will put their low-income tenants, who have few other options and virtually no effective means of protest, at a significant risk.

Now consider Nuway's existing facilities. NuWay argued in their application that their properties are better than others so the addition of another one shouldn't be a problem, but their figures don't add up. The relatively small **NuWay I building at 2200 1st Ave S** has had 160 calls since 2007; 72 in the past three years, with **a high year of 38 Calls for Police Service.** **The NuWay II building at 2518 1st Ave S** had 153 calls since 2007; and **36 in the past year,** which was **a doubling of the calls in the previous year.** The NuWay office building itself at 2217 Nicollet has had an additional 9 Calls for Police Service since NuWay took possession of it. The point here is that NuWay's existing facilities have yielded 36 and 38 calls per year recently and they are much smaller than the proposed facility at 2118 Blaisdell. Given that NuWay intends to house up to 200 persons per year at 2118 Blaisdell (approximately 4 times more patients), it is not unreasonable to expect that Calls for Police Service at this property could be 4 times what they are at the other NuWay properties; or around 120 calls per year.

Now consider that the five buildings directly surrounding 2118 Blaisdell yielded 290 calls in the past year (this does not include the 4 other troubled properties on the 2200 block of Blaisdell, for which I don't have separate information). **Assuming** NuWay's proposed 200 person per year facility at 2118 Blaisdell is likely to yield **another 120 Calls for Police Service per year, the effect is a 41% increase in Police Calls to this one troubled corner.** For comparison, in the past six years, 2118 Blaisdell registred 9 calls for Police Service, 3 of which were false alarms; likely a security alarm going off accidently and one a traffic call. Accordingly, only 4 calls in the past 6 years were related to livability issues, an average of only 1 every year and a half under.

It is more than reasonable to assume that this rate was likely consistent for the past 40 years of the property's history under the previous owners.

The above numbers clearly show that the area directly surrounding 2118 Blaisdell is a troubled one, where concentration has created problems not experienced in other residential areas of the City where the gross over-concentration of such housing has not been allowed. Adding further to this extreme over-concentration is clearly a bad step in the wrong direction.

While the livability concerns related to NuWay's application are very real and significant, the reality for the City is that NuWay's application may and should be denied based solely upon its failure to prove necessity. NuWay's application states that being able to live near its outpatient treatment center will help former addicts in their long term recovery. This appears to be the only evidence they've submitted in support of the need to remove the quarter-mile spacing requirement. The CPED Report concludes (see page 9) that "Waiving the quarter-mile spacing requirement would provide residents convenient access to treatment as well as amenities and employment opportunities," and notes that "Most destinations, including the Nicollet Ave treatment center, are within walking distance, and the property is close to several bus lines providing metro-wide connectivity." This is all well and good, but neither statement addresses the issue of whether or not it is necessary to convert 2118 Blaisdell into housing for 200 plus alcoholics and drug addicts per year. The reality is that the absolute plethora of such available supportive and inebriate housing (not to mention affordable housing units) in the neighborhood and in the immediate vicinity of NuWay's treatment facility at 2217 Nicollet, prove that it is not necessary to do so; as those of NuWay's clients who wish to live nearby have ample opportunity to do so.

Because supportive housing/inebriate housing and affordable housing, as well as below market rate housing is readily available in the neighborhood, former alcoholics and addicts have an equal opportunity to enjoy the housing of their choice in the neighborhood surrounding 2118 Blaisdell. Thus, it is not necessary to grant an accommodation. In fact, further increasing the concentration of supportive housing in the neighborhood may be discriminatory. It certainly would not support the City's stated mission to create equity among its citizens and neighborhoods.

Second, an accommodation is not necessary because NuWay could build supportive housing elsewhere throughout Minneapolis. Guidance is found in a Seventh Circuit case, Brandt v. Village of Chebanse.⁴ In that case, the Seventh Circuit held that it was not "necessary" to grant an accommodation to a developer who wished to build four-unit housing for people with disabilities in a single-family zone because the developer could have built his four family unit elsewhere in the city. The holding in the Brandt case is directly applicable here.

The quarter mile spacing requirement was enacted to require developers to build throughout the community. As of 2001, there were thirty-eight neighborhoods in Minneapolis with no

⁴ 82 F.3d 172 (7th Cir. 1996).

supportive housing, and eighteen with only one facility. (The CPED should determine what the exact figures are today). There are many areas in Minneapolis where supportive housing could be sited without violating the spacing requirement. As such, it is clearly not necessary for NuWay to create another Supportive Housing facility for “former alcoholics and addicts” at 2118 Blaisdell. The Whittier Alliance urges NuWay to consider the ample areas within Minneapolis where it would be legal to site its supportive housing facility.

In sum, it is not necessary to grant NuWay an accommodation because both the zoning code, and the existing housing stock, gives former alcoholics and addicts the ample opportunity to live in the neighborhood. In addition, ample opportunity exists for NuWay to build its facility in any of the forty-six neighborhoods in the community where only zero or one supportive housing facilities are sited.

Second step: Is the accommodation reasonable?

In determining the reasonableness of a proposed accommodation, the CEPD should consider whether the accommodation would:

- Fundamentally alter the nature of the ordinance, neighborhood, or local zoning procedures;
- Undermine the legitimate purposes and effects of existing zoning regulations; or
- Impose undue financial and administrative burdens on the municipality.

Minneapolis could reject the accommodation with either of the first two considerations. The third consideration does not apply.

Fundamental alteration of the neighborhood.

Granting NuWay an accommodation would fundamentally alter the nature of the neighborhood. The Whittier Alliance’s findings are not based on myths, fears, and stereotypes of alcoholics and drug addicts. They are based on actual incidents and the widely accepted premise that extreme concentration of supportive housing creates an unhealthy environment for the clients themselves. Extreme clustering exists in south central Minneapolis, including the proposed project area.

Lobbying organizations for municipalities and alcoholics and drug addicts believe that when group homes are so densely clustered as to recreate an institutional environment in the community, spacing requirements are permissible.⁵ In fact, both interest groups agree that elected officials have an obligation to intervene when extreme clustering occurs. In this case, clustering is not haphazardly occurring; NuWay is actively seeking to create such a cluster. In the past couple of years, NuWay has been on a buying spree in Whittier. After selling some very poorly cared for and much troubled properties, it set about buying the old Mena building at 2217 Nicollet, directly across the alley from NuWay I, at 2200 Stevens. It then sought to buy the building next door (between its Nicollet treatment center and the 2200 Stevens supportive housing facility. Within the same year it bought 2118 Blaisdell (1 block away) with the intentions of creating a facility much larger than its existing facilities. It thereafter tried to buy an apartment building on 22nd Avenue, between Blaisdell and Nicollet (i.e. ½ block from its

⁵ See National League of Cities’ Local Officials Guide, p. 15.

treatment center at 2217 Nicollet). And it has recently purchased the large building on Stevens Avenue formerly owned by the Institute for Agricultural and Trade Policy. Beyond the telling fact that NuWay bragged on their website that their facilities are “located in the heart of the recovery community,” it is quite clear that NuWay is trying to create a cluster of its own facilities (not to mention any of the other 30+ facilities in the ¼ mile area) within a 2 block radius. And, given the size of NuWay’s proposed facility at 2118 Blaisdell, the CPED should recognize that NuWay is effectively trying to create a facility that is equivalent to the size of several other such facilities, all within a 2-3 block area, which already includes some 26 other such facilities.

The CPED Report claims that NuWay’s building at 2118 Pillsbury would likely have the same impact on the neighborhood as an apartment building of a similar size. But this conclusion completely ignores the fact that 100% of the intended residents of NuWay’s ‘apartments’ would (hopefully former) alcoholics and drug addicts actively targeted by drug dealers in one of the worst locations in the neighborhood. It also ignores the fact that normal apartment buildings generally have year-long leases with their tenants, while the average stay of NuWay’s residents would be 9 weeks, so they would in fact have four (4) times the number of residents that an apartment building of equal size would have over the course of just one year.

The CPED Report also completely ignores the fact that the area in question is in fact a residential one, and incorrectly states (see page 11) that it would be located “in the OR2 High-Density Office Residential zoning district,” thus concluding (see page 10) that the density proposed by NuWay “is typical in the OR2 zoning district. The Pillsbury Mansion at 2118 Blaisdell is currently zoned OR2 only because it has been a place of business for the past 40 years, and before that was a nursing home for perhaps 20 some elderly ladies for 10 years for 10 years, 20 years earlier (it was vacant for nearly 10 years).

However, the reality is that 2118 Blaisdell is just one OR2 property, which is virtually an island surrounded for six and a half blocks by residential properties, all classified as a Multiple-family district (see the map provided by NuWay in its application and the following larger attached map.)

Whittier Zoning Map
9-13.pdf

Zoning District
Descriptions.docx

The Pillsbury Mansion is not located in some massive OR2 *zoning district* (where other Supportive Housing Facilities, such as Lydia House, have been located), and the impact to the surrounding residential area of adding such a large facility to this overwhelmingly residential area must be taken into account and carefully considered.

It is impossible to empirically identify precisely when a neighborhood becomes “fundamentally altered.” However, given the findings of the National League of Cities, the Coalition to Preserve the Fair Housing Act, the Minneapolis City Council, and the 8th Circuit, common sense tells us it

is safe to say that, when thirty (30) some such facilities exist within ¼ mile of each other, the neighborhood has already been fundamentally altered.

While some like to argue that because the neighborhood surrounding 2118 Blaisdell has already been “fundamentally altered” by the extreme concentration of group homes, it would not hurt the neighborhood to add yet another (even though the size of NuWay’s proposed facility is four (4) times that of other such facilities). This argument is specious at best, discriminatory at worst. It would be contrary to the intent of the drafters of the Fair Housing Act to use its reasonable accommodation provisions to further intensify the isolation of the alcoholics and drug addicts within one problem-ridden neighborhood.

Undermining the legitimate purpose of existing zoning regulations.

In addition, granting NuWay an accommodation would undermine the legitimate purpose of the existing zoning regulations. The clustering in the ¼ mile area surrounding 2118 Blaisdell is as extreme as (if not moreso than) it is anywhere else in the city. The Minneapolis City Council passed the ordinance with this very circumstance in mind and NuWay’s recent expansion plans (within 1 block of its treatment facility) make clear its intent to create the sort of clustering that the code is intended to prevent. If an accommodation is granted in this case it is difficult to see how the quarter mile restriction could be enforced anywhere in the city in the future.

5. Summary: When should the City grant accommodations?

In certain circumstances the city of Minneapolis should grant accommodations to the one-fourth mile spacing requirement. For example, the City may consider granting an accommodation to the spacing requirement when two facilities consisting of disabled persons are within ¼ mile of each other but are separated by a river or freeway without nearby bridges. The City should also consider granting an accommodation when the spacing requirement is implicated only by two extremely small facilities.

In both circumstances, the accommodation could be considered necessary because there would not exist a true opportunity to live in supportive housing in the neighborhood in question. Further, the accommodation would be reasonable because enforcement of the letter of the law would not advance the purpose of avoiding an institution like setting.

There are cases where accommodations clearly should not be granted. For example, it is widely agreed that spacing requirements should be upheld where extreme clustering occurs. The Familystyle case is widely cited as a case of extreme clustering. In that case there were eighteen group homes in a one-and-a-half block area. In this case, there are vastly more such facilities; thirty (30) plus with a quarter mile of 2118 Blaisdell, according to the CPED Report.

In the present case, NuWay has not presented any evidence that the proposed residents of the facility they would like to create at 2118 Blaisdell would be disabled persons under the Act. Without such, the Act has no application and the City has no justification for granting an

accommodation. Furthermore, the case before us presents a clear example of extreme clustering, both in the present existence of Supportive Housing and inebriate housing throughout Whittier, in the quarter mile in question, and specifically within a 3 block radius of the subject property, and in the intentions expressed by NuWay through its recent acquisitions. The existence of an overabundance of such housing in Whittier (far more than its equitable share), and specifically in the immediate vicinity of NuWay's existing facilities and the property in question proves that, even if one assumed that the potential residents of 2118 Blaisdell would meet the definition of disabled persons under the FHAA (for which NuWay has presented and the CPED has required not evidence), no accommodation is necessary for such persons to enjoy housing in Whittier. As such the accommodation is neither necessary nor reasonable. Accordingly, I respectfully requests that the request for accommodation by NuWay be DENIED.

Any other factor that may have a bearing on the request.

While not specific to an analysis of the ¼ mile spacing issue, you should be made aware of the historic importance of the property at 2118 Blaisdell, which was neither mentioned in NuWay's application or the CPED Report. The property at 2118 Blaisdell is not simply some OR2 building that can/should be easily renovated into a supportive housing facility. It is an extremely important historical and architectural asset of the neighborhood that preservationists are anxious to protect and developers are anxious to further restore and turn into a tax paying asset that will receive broad public use. This is not a property that no one cares about, in some terrible area that is not slated for development and which is only likely to be made useful as some sort of supportive housing facility. It is a property that the neighborhood is passionate about preserving, which is slated to nomination for an historic designation and protection, and it is located in an area where people are working hard to bring good new development and a stop to the livability issues that have plagued the neighborhood for far too long.

By way of introduction, 2118 Blaisdell (known as the Pillsbury Snyder Mansion) was designed by the famous Minneapolis architect, Ernest Kennedy, and was built in 1913 for John Pillsbury Snyder and Nelle (Stevenson) Snyder, who moved into the mansion when they returned from their European honeymoon aboard the Titanic. The Pillsbury Snyders were the only couple from Minnesota aboard the Titanic to survive the disaster.

John Pillsbury Snyder was the grandson of Governor John Sargent Pillsbury (the co-founder of the Pillsbury Company, and the son of Governor Pillsbury's daughter, Susan Mary Pillsbury, and Fred Beal Snyder. According to Russ Underdahl, who owned the Mansion for 40 years (1973 – to 2013), and who gave Mrs. Pillsbury Snyder a tour of the Mansion following his restoration of it, the Mansion was a wedding gift to the young couple from Mr. Pillsbury Snyder's parents. Reportedly, the senior Mr. Snyder told his new daughter-in-law that he intended to build her "the finest home in all of Minneapolis."

The interiors of the Mansion (almost totally hidden from public view for the past 40 years) are, as correctly described by its recent realtor, "*breathhtaking.*" The Mansion contains "*6 fireplaces, flame-grained walnut ceilings, Honduran mahogany dining room, quarter cut herringbone floors, marble floors imported from the same quarry used to supply the Vatican, built-in*

cabinetry, skylights and more!” <https://christiansonandco.wordpress.com/>It also contains stunning decorative plaster ceilings, a collection of beautiful crystal chandeliers and wall sconces imported from Czechoslovakia, and a double carved marble staircase unlike any other in the important historic homes in Minneapolis. The mansion feels more like an embassy or small palace than a home, and it’s no wonder it was a preferred site for so many grand parties, weddings and the like. (See the interior photos attached below).

Unfortunately, NuWay’s stated plans for the property include removing/selling the chandeliers, cutting up the ballroom into studio apartments, not installing a sprinkler system necessary to protect the mansion’s historic interiors, and turning the bulk of the 10,000 square foot mansion into a ‘5 bedroom apartment.’

The Pillsbury Snyder Mansion is a unique oasis within the changing neighborhood that helps tell the story about the neighborhood’s importance during one of the City’s most important historic periods. Its incredible interiors tell the story of a time when craftsmanship in building was valued at an artistic level. For the past forty years, the Pillsbury Snyder Mansion’s beautiful interiors have been all but completely hidden from public view. As the neighborhood continues to change and develop at a rapid pace, the Pillsbury Snyder Mansion needs to be protected and given broad public use so it can help tell this story for years and years to come.

Zoning District Descriptions

A zoning district may be either a *primary district* or an *overlay district*. The current districts are outlined briefly below. For more information on the definitions and requirements associated with each district, see [Minneapolis Code of Ordinance, Title 20: Zoning Code](#).

Primary Zoning Districts

A primary district is any of several residence, office residence, commercial, downtown, or industrial districts. All property within the city is included within a primary zoning district. In the municipal code, these districts are described in chapters 546-550.

Residence Districts

- R1 – Single-family District (low density)
- R1A – Single-family District (low density)
- R2 – Two-family District (low density)
- R2B – Two-family District (low density)
- R3 – Multiple-family District (medium density)
- R4 – Multiple-family District (medium density)
- R5 – Multiple-family District (high density)
- R6 – Multiple-family District (high density)

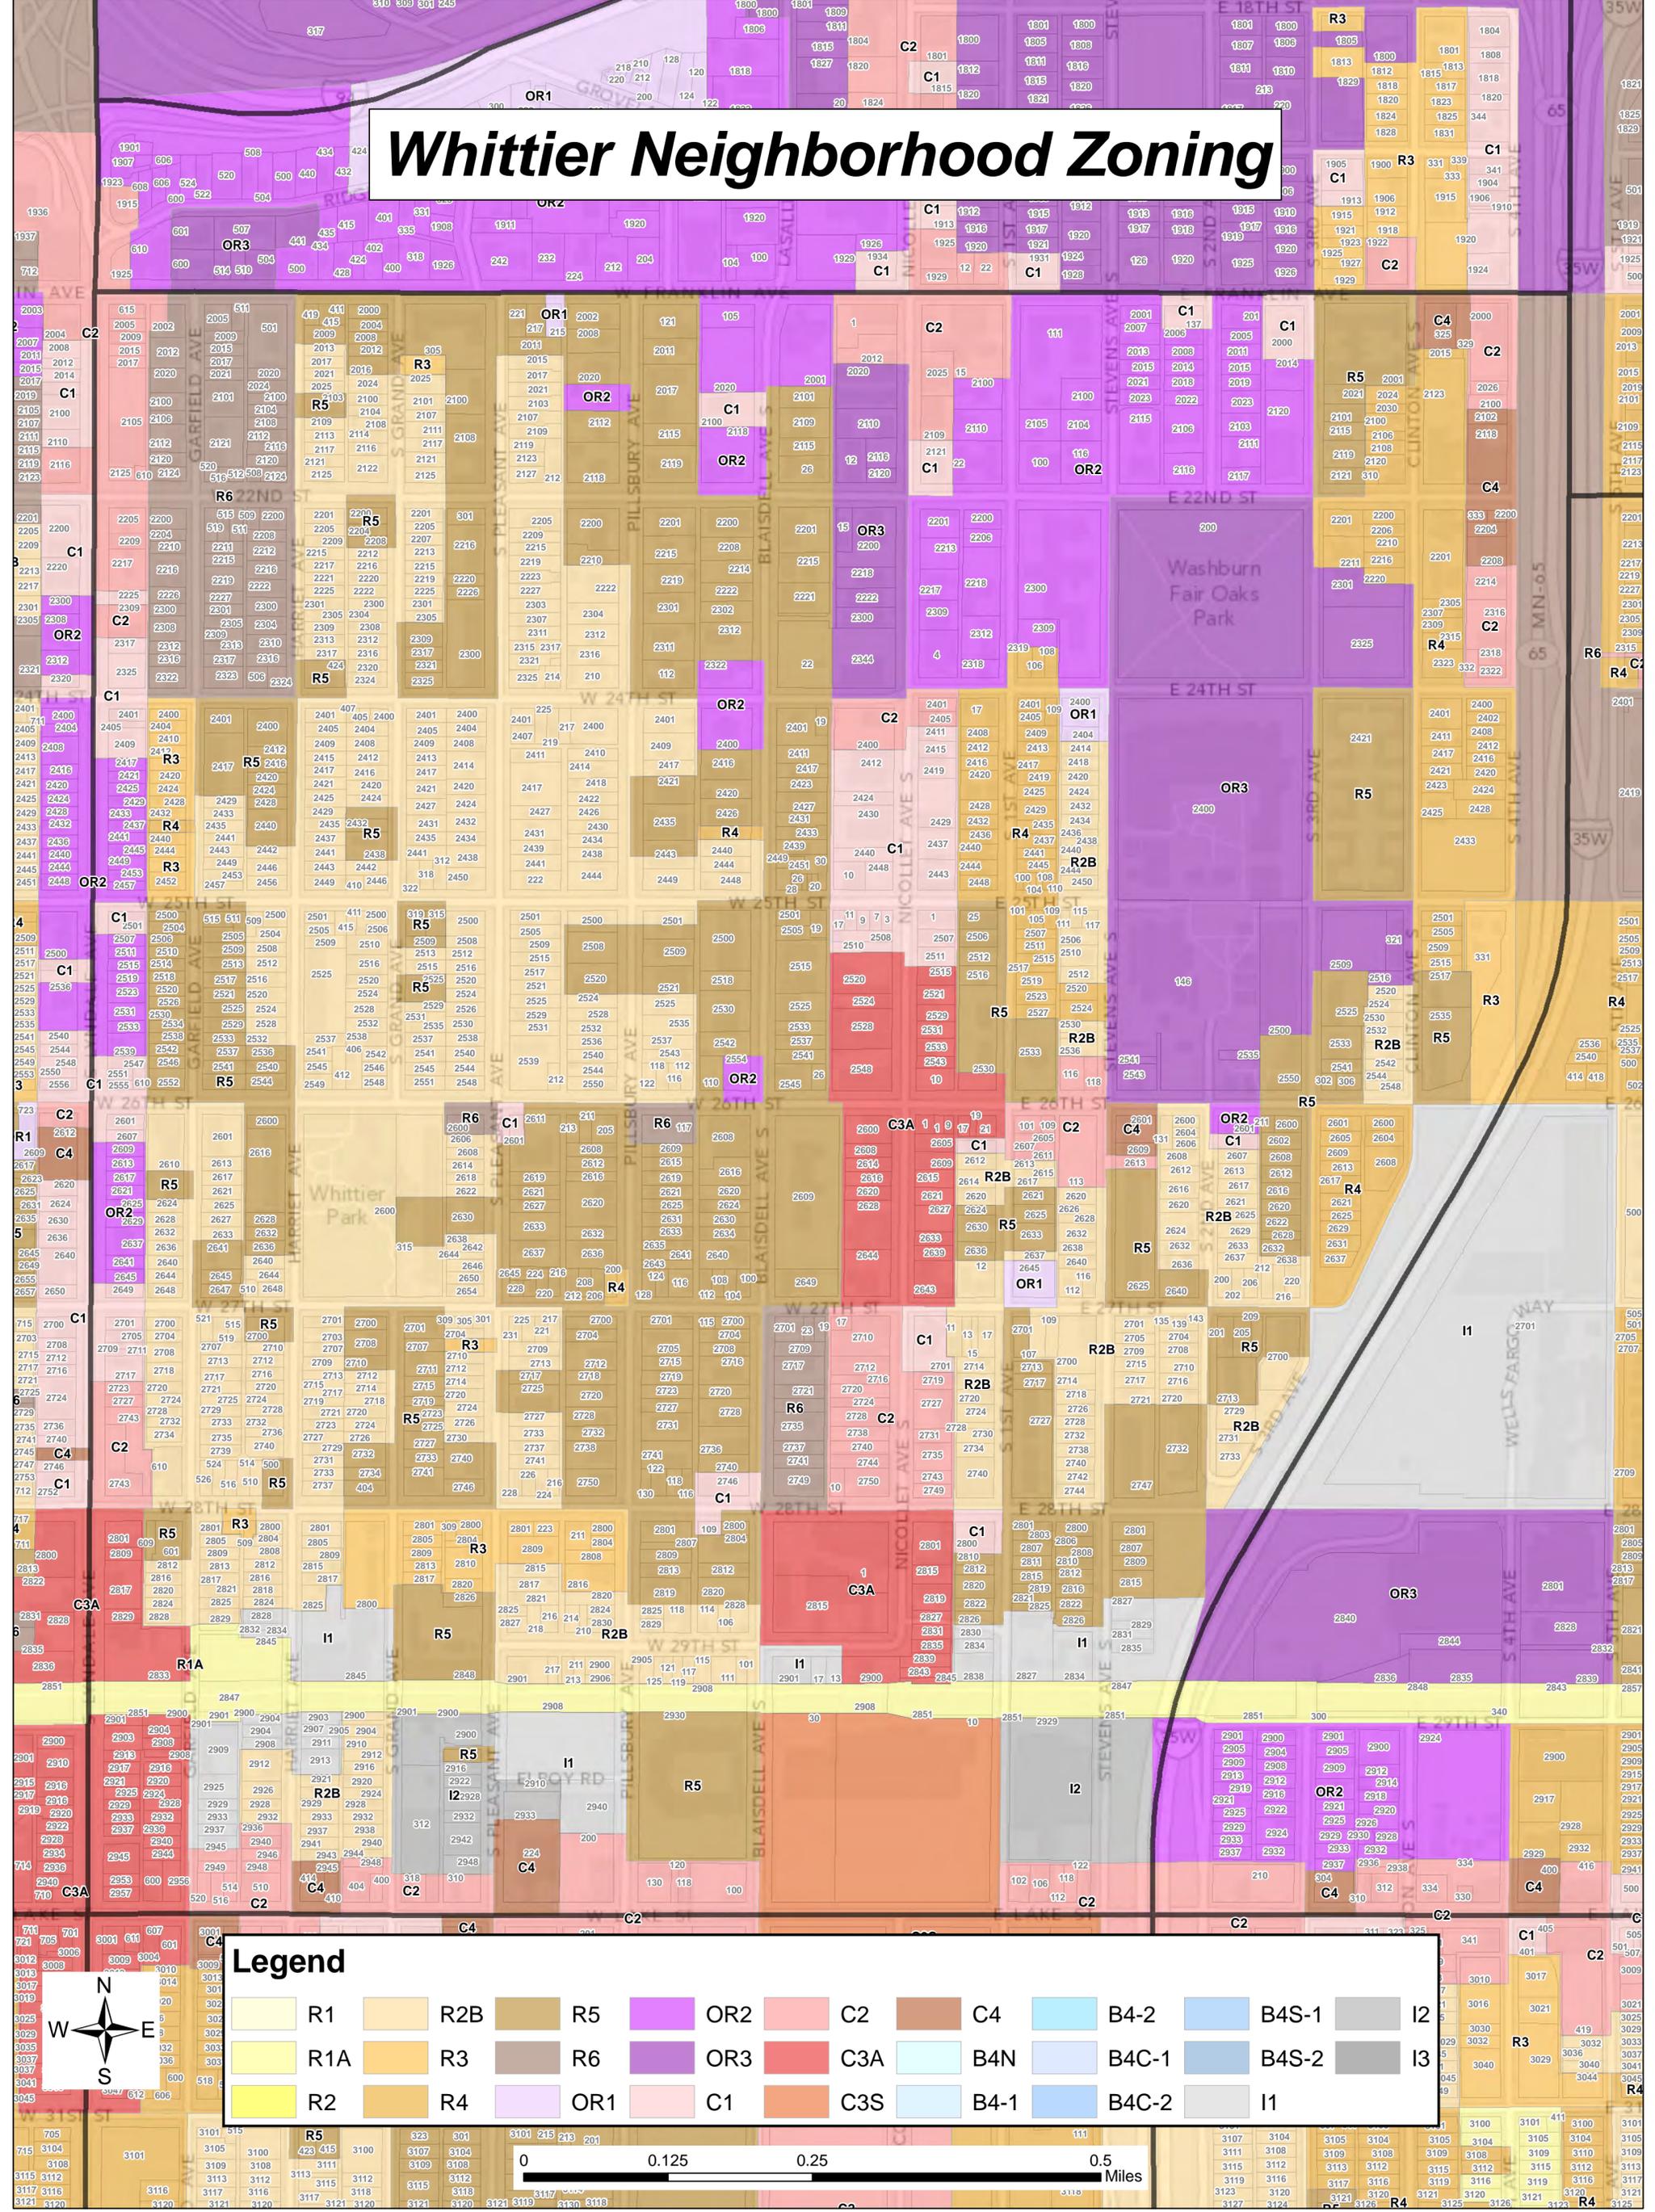

Office Residence Districts

- OR1 – Neighborhood Office Residence District
- OR2 – High Density Office Residence District
- OR3 – Institutional Office Residence District

Commercial Districts

- C1 – Neighborhood Commercial District
- C2 – Neighborhood Corridor Commercial District
- C3A – Community Activity Center District
- C3S – Community Shopping Center District
- C4 – General Commercial District

Community Planning & Economic Development
250 South 4th Street—Room 300
Minneapolis, MN 55415

Re: 2118 Blaisdell Avenue/Blaisdell Apartments
Appeal of Reasonable Accommodation Decision
Our File No. 7396-03

Dear Board Members:

This letter is written on behalf of NuWay House, Inc. ("NuWay") in response to certain matters referenced in Mr. Ted Irgens' submission in connection with his appeal of the Zoning Administrator's and City Attorney's approval of the reasonable accommodation request of NuWay. The reasonable accommodation request was to waive the one-quarter mile specific development standard for the proposed supportive housing facility to be located at 2118 Blaisdell Avenue.

The CPED Staff Report ("Staff Report") dated November 24, 2015 contains a detailed discussion of the reasons, both legal and factual, supporting the Zoning Administrator's and the City Attorney's decision to approve the granting of the requested reasonable accommodation. Accordingly, it is not my intent to restate the legal and factual arguments already made in the Staff Report. However, NuWay wishes to comment on certain matters raised by Mr. Irgens in his appeal submission.

1. Mr. Irgens contends that his position in opposition to NuWay's reasonable accommodation request is supported by the Whittier Alliance.

The reality is that on any given issue the Whittier Alliance does not necessarily represent the entire Whittier Community. In the present case it is questionable whether its opposition to the NuWay's reasonable accommodation request represents the position of the majority of the residents. Mr. Irgens contends that the opposition at the neighborhood meeting held last spring was clear. What Mr. Irgens fails to note is that the Whittier Alliance Community Issues Minutes for that meeting show that the vote for the motion denying support for NuWay's project was 13 in favor, 9 opposed and 3 abstentions. Thus, the motion denying support was only passed by a slim majority. If you consider that two of the representatives from NuWay who were present at the meeting but did not vote even though they were residents of the neighborhood, and that NuWay itself did not vote, it being a resident also, the slim majority would have been even slimmer.

2. Mr. Irgens contends that NuWay “sought to skirt the enforcement of applicable zoning codes” when it initially applied for site plan approval of its proposed use of 2118 Blaisdell Avenue as an apartment.

NuWay did not in any way attempt to skirt the existing zoning codes in its original application for site plan approval. Prior to purchasing the 2118 Blaisdell Avenue, representatives of NuWay met with a staff member in the Planning Department to discuss the project. Specifically, NuWay’s Executive Director along with NuWay’s architect and contractor met with the staff member on December 3, 2013 to discuss the zoning requirements that might apply to the proposed project. During that meeting it was made clear to the staff person that the project would entail converting the former multi-unit residence into a new multi-unit residence for individuals who were clients of NuWay and receiving outpatient services from one of NuWay’s other facilities. NuWay indicated that it did not believe the proposed use would constitute “supportive services” and thus would not require a conditional use permit. The staff person did not question or in any way dispute NuWay’s position. All other aspects of the zoning code requirements were reviewed and the staff person confirmed that the proposed use met all of the applicable Zoning Code requirements without the need for a conditional use permit. Based on these meetings, NuWay bought the Building.

It was not until after NuWay purchased 2118 Blaisdell Avenue and submitted full design and construction plans to the City that it received notice that its proposed project would have to undergo a site plan review before the Planning Commission because the proposed project called for the creation of 10 or more new dwelling units. Then, after submitting NuWay’s site plan review application, NuWay heard from the zoning staff that their preliminary determination was that the proposed use fell under the “supportive housing” definition and that the matter was being referred to the Zoning Administrator for his determination.

At the time NuWay felt strongly that its planned use of the 2118 Blaisdell Avenue was not “supportive housing.” While the Zoning Administrator ultimately found otherwise in his June 25, 2014 opinion it is important to note that he found the proposed use to be “substantially similar” to supportive housing. Section 525.80 of the City Code authorizes such a finding when the proposed use is not one that is included in the zoning ordinance. Thus, the proposed use was open to interpretation.

As the above demonstrates, NuWay was always transparent in its proposed use of the facility and certainly cannot be accused of trying to skirt the existing zoning codes when its proposed use was not clearly addressed by the zoning code.

3. Mr. Irgens states that NuWay intends to use the reception area in the building to carry out counseling sessions and group meetings for all of its residents.

NuWay does not plan on having counseling sessions or group meetings with the residents at 2118 Blaisdell Avenue. NuWay made this clear at the neighbor meeting and in all submissions with the City. It should be noted that NuWay cannot provide counseling at the site because NuWay does not have a license from the State of Minnesota to provide counseling at 2118 Blaisdell Avenue. NuWay

does have a licensed to provide counseling services at 2217 Nicollet Avenue South—which is where the residents of 2118 Blaisdell will receive their outpatient treatment. To provide counseling at 2118 Blaisdell without such a license would jeopardize NuWay’s existing license.

4. Mr. Irgens states that 2118 Blaisdell Avenue is an “important asset to the neighborhood, that developers are anxious to restore into an income and tax generating event space.”

NuWay’s proposed use of the 2118 Blaisdell Avenue will not jeopardize the uniqueness of the building. NuWay is working with its architect to preserve as much of the building’s uniqueness as possible. This can be seen from the plans presented to the City. As to the claim that developers are anxious to restore the building into an income and tax generating event space, to date no developer or party has submitted to NuWay any offer to purchase 2118 Blaisdell Avenue. Thus, it is questionable as to the alleged interest.

In summary, the Staff Report granting reasonable accommodation to NuWay by waiving the one-quarter mile spacing requirement should be upheld. Simply put, by waiving the spacing requirement the City is preventing the discrimination of persons who have been diagnosed with alcohol or drug use disorders by allowing them to live in the housing of their choice while they are on the road to recovery.

Very truly yours,

WILLEKE & DANIELS

May 27, 2014

Mr. David Vennes, Executive Director
NuWay House
2217 Nicollet Ave. S
Minneapolis, MN 55404

Dear Mr. Vennes,

I am writing to inform you of the final action taken by the Whittier Alliance Board of Directors at their May 22, 2014 meeting on the motions forwarded from the May 12, 2014 Community Issues meeting regarding your request.

Motion: The Whittier Alliance Board of Directors denies support for NuWay's housing site plan and proposal at 2118 Blaisdell based on the already high concentration of supportive & transitional (sic. chemical dependency/mental health) services and housing and poverty in the Whittier neighborhood. **Motion Carried**

The board did not feel that your proposal for 22 apartment units at 2118 Blaisdell is an appropriate use of the site or structure. The site plan proposal is not for 22 regular apartments open to the public, with a standard lease at a monthly rent, operating under common rental real estate guidelines. The Pillsbury Mansion portion of the property, with its grand 1st floor, will be underutilized and, as a 5 bedroom apartment, resembles more of a rooming house with up to 5 residents rotating through based on a short term range of stay. Since your apartment site plan is not a traditional apartment, open to the public doing business under general market rate rental and operating practices and since it is focused on serving a transitional population at your selection, we cannot support your site plan.

Per NuWay's presentation at Whittier's public meeting, the housing will be available only to current NuWay clients or clients who have been through a treatment program and who continue to receive support and counselling at NuWay. They will be residents on a transitional basis for approximately 90 days with the payment being based on "fee for services." The housing will have 24 hour staff for behavior oversight for infractions of drug or alcohol use. Your presentation failed to explain how adding this housing doesn't add to overall capacity of your programs. However, you said that you wanted the property because it supports your mission.

Another influencing factor is that, unlike the for-profit owners of regular apartments, NuWay's purchase and use of 2118 Blaisdell takes the property off the City & County real estate tax roll, removing over \$75,000 in taxes per year and putting an additional burden on other tax paying properties. With approximately 9 other similar facilities within ¼ mile of 2118 Blaisdell (3 of which are owned and operated by NuWay) not only is there a concentration of supportive services, there is also substantial real estate tax drain within the Whittier neighborhood.

Finally, your proposed site plan for 22 apartments is an underutilization of a grand historic property that should be available for use and appreciation by the public. The Pillsbury Mansion and attached accessory building could be better utilized as multi-national consulate reception and office space or an event center or boutique hotel all of which would retain a tax base for the City and County.

Sincerely,

A handwritten signature in black ink, appearing to read "Marian Biehn". The signature is fluid and cursive, with a large initial "M".

March 31, 2014

Mr. Tom Meier, Board Chair
Members of the NuWay Board
NuWay House, Inc.
2217 Nicollet Ave S
Minneapolis, MN 55404

Board of Directors: Tom Meier, George E. Antrim III, Alan Braun, Kirk Gryder, Linda Hedemark, Lee Jacobson, John Marston, Andrew Pearson

Dear Mr. Meier & Members of the Board:

We are writing to express the neighborhood's concern about NuWay's recent purchase of the historic "Pillsbury Mansion" at 2118 Blaisdell and its stated plan to convert it into 22 congregate living apartments for residents undergoing or transitioning from mental illness and drug addiction treatment at NuWay's other facilities.

While we appreciate the important work that you do, we strongly oppose NuWay's intended use of the Pillsbury Mansion for several reasons. We would like to work with you to help secure a buyer whose use of 2118 Blaisdell will meet neighborhood goals and help you locate another property for NuWay's expansion.

This letter summarizes the discussion of the Whittier Alliance Board of Directors based on a report provided by Whittier Board member Ted Irgens of his meeting with NuWay Board Chair Tom Meier and Executive Director David Vennes. It also expresses some of the broader preservation, commercial and housing goals of the Whittier Alliance as outlined in the neighborhood adopted Strategic Plan.

Historic and Architectural Community Asset

The Pillsbury Mansion has important family, social and cultural links to the Whittier neighborhood and City. It is an important historical and architectural asset of the neighborhood that should be historically designated, restored and given wide public use.

The Pillsbury Mansion was designed by one of the finest Minneapolis architects of the 20th Century, Ernest Kennedy, who designed, among other noted buildings, the entry building to Lakewood Cemetery, the historic Essex Building at Nicollet and 9th Street, which houses "The Local" and Perkins and Will Architects, a number of University of Minnesota buildings, and architecturally significant homes throughout the Kenwood, Harriet and Whittier neighborhoods. The mansion at 2118 Blaisdell is one of the most impressive and important of all of Kennedy's buildings. The Mansion was built by Alfred Pillsbury in 1913 as a wedding present for his grandson John Pillsbury Snyder and his wife Nelle, who moved in after returning from their honeymoon as survivors of the ill-fated Titanic. It was designed, according to what Nelle told the previous owners, to be the "finest home in all of Minneapolis." Its interiors contain stunning, old growth mahogany paneled walls, intricate plaster

moldings, a unique rounded and stained glass ceiling, numerous beautiful crystal chandeliers and wall sconces, a ballroom, and a double marble staircase made of the same marble used in the Vatican.

The Whittier Alliance and Neighborhood Strategic Plan has outlined Historic Preservation as one of its key priorities with the stated goal of supporting and fostering historic restoration and protection of architecturally and culturally significant historic assets in Whittier. The mansion at 2118 Blaisdell is a neighborhood historic asset whose interior treasures have been hidden from view for far too long, which should be made available for wide public use and appreciation. The building is ideal for use as an event space or boutique hotel that would bring more people to this international neighborhood. Other possible uses might be a multi-national consulate offices or an antique and arts gallery. Any of these uses would stimulate added commerce to the neighborhood while retaining the building's tax revenue for the city and county.

As we understand from NuWay's Director, David Vennes, other than the use of the 1st floor as potential lounge space for the residents of the apartments, NuWay does not intend to use the mansion's first, second and third floors. Further, the intended plan is to cut the lower level ballroom into efficiency apartments connected to the proposed apartment wing. Such a plan would compromise the original design and historic asset of the building while not allowing public enjoyment of this historic gem. We also understand that NuWay is planning to remove the building's crystal chandeliers and hopes to avoid installing a sprinkler system throughout the mansion, for fear that a tripped system it could potentially damage the interiors. The interiors of this exquisite property need to be appropriately protected, and not put at risk of damage from either water or fire.

Commercial Value

Aside from its important historic and architectural value to the neighborhood, 2118 Blaisdell has important commercial value. The Commercial Corridor segment of the Whittier Strategic Plan calls for "destination" businesses in strategic locations. As noted above, the property could be made into a destination spot within the Whittier neighborhood, just as the successful Semple Mansion at 100 Franklin Ave. has become. The OR 2 zoning allows for many permitted commercial and retail uses. It could and should be used to bring new people and commerce to the neighborhood in a way that further enhances Whittier's historic importance and its progressive commercial spirit. The Whittier Alliance is committed to bringing new businesses to the neighborhood that will continue to make Whittier a thriving first class international neighborhood, and this property provides an important opportunity for a commercial enterprise that will further this goal.

The building is also very significant in that it currently brings in over \$74,000 of annual property tax revenues to the city. As a non-profit, NuWay's use of the building would *take away* \$74,000 of annual property taxes and add further to tax burden on Whittier and other Minneapolis residents.

Wrong Building

As noted above, NuWay's director, David Vennes, has stated that NuWay does not intend to use three full floors of the historic Mansion, but only its basement and the attached 1960's addition. In our view, the non-use of this architecturally significant and historically important Pillsbury Mansion does not make sense for the reasons stated above. Such non-use of the original mansion space seems a wasted investment for NuWay and structurally unwise for this historic property. We don't want it to become an underutilized, underappreciated, burden which could deteriorate from benign neglect. This

Mansion deserves an owner who will maximize its potential and showcase its pedigree and architecture.

Respectfully, we also question the purpose and appropriateness of purchasing this building to create 22 apartments if NuWay only intends to convert and utilize the 1960's addition and the ballroom of the mansion. If that is the case, then it would appear that NuWay only needs an apartment building half the size of 2118 Blaisdell. It would seem that an appropriate building could be secured for far less money than it would cost to renovate the Pillsbury Mansion as intended. A quick check of recent real estate sales revealed that a 22 unit apartment building (in "ready to use" condition) sold for \$55,000 per unit or \$1.2 million. This is a parallel price to what you paid for the Blaisdell property without the necessity of extensive rehab.

If, however, NuWay hopes to use the historic Mansion space for counseling and/or supportive services, then NuWay would be in violation of the code restrictions on this building in this location. Without on sight supportive services, NuWay would still need to obtain a Conditional Use permit for congregate and transitional housing, which the Whittier Alliance & Stevens Square neighborhood organizations are not inclined to support based on the number of services currently operating in the two neighborhoods.

Supportive Housing / Congregate Living – Zoning & Ordinances

As you likely know, 2118 Blaisdell cannot be used for supportive housing because it is within ¼ mile of other supportive housing projects, including NuWay's building at 2200 1st Avenue South. If NuWay wishes to use the 2118 Blaisdell mansion as a transitional facility, it would need to obtain a Conditional Use Permit (Mpls Zoning ordinance 547) and comply with all other applicable zoning and regulatory guidelines.

The Whittier neighborhood is home to a number of supportive, transitional, care and congregate housing as well as organizations serving people with addictions, mental health issues and homelessness. NuWay itself currently operates two other facilities in the Whittier neighborhood. The concentration of institutional housing and services, along with the affordable housing properties, place a concentration and economic burden on both Whittier and Stevens Square. Some organizations similar to yours are recognizing that fact. Last summer the Whittier Alliance and Stevens Community Association were approached by a potential buyer of the 2118 Mansion who intended to use it for supportive housing. The buyer opted out after consulting with Whittier and Stevens Square and learning they would not support the use and that the zoning designation does not allow for it.

This is not a "not in my back yard" matter for the neighborhood. The Whittier Alliance recognizes the need and the value of the work organizations such as yours provide but we have to respect and give voice to the concerns of the residents and other business owners in the neighborhood who do not want Whittier to be labeled as a "recovery community." The neighborhood is host to a diverse number of supportive, transitional, congregate, care and emergency facilities and services. Whereas we are content to co-habitate with the current providers, we do not seek or feel additional facilities are in the neighborhood's best interest. The housing component of our Strategic Plan states a need to diversify housing choice and cites a study supporting deconcentration of affordable and housing services. The enclosed map shows the concentration of supportive, transitional, congregate, affordable, etc housing in Whittier.) The Stevens Square neighborhood has again as much such housing.

Furthermore, there is a real concern that, if NuWay were able to obtain the necessary Conditional Use Permits, it could renovate this property under the guise of creating a congregate living facility then silently expand its use to include supportive services, in violation of the city code and neighborhood trust.

We understand that NuWay's director, David Vennes, has stated that NuWay does not intend to use the 2118 Blaisdell Mansion as a supportive services site. This in turn creates a heightened concern for both the clients and the surrounding residents living in a situation that does not provide guidance and support for a transitioning population. In either case NuWay is placing a vulnerable population in a volatile location.

Troubled Location

Aside from the issues regarding the historic importance of this Mansion, its commercial value to the neighborhood and tax base, and the concentration of similar housing and services in the neighborhood, there is genuine concern about NuWay opening a recovery facility at 2118 Blaisdell because of its troubled location. The surrounding area of Nicollet and Franklin is under constant patrol by beat cops and neighborhood crime watch volunteers. Public consumption, panhandling and other livability issues are particularly troublesome and prevalent in that area. The mansion also sits directly across the street and directly across the alley from two rental properties that have been problem for years. The Whittier Alliance, neighbors and law enforcement have not been successful in their attempts to reduce the calls for service to the addresses.

Neighbors are very concerned about the effect that adding residents, who are working through drug addiction and mental illness would have on the area and the residents. Placing recovering residents in direct proximity to unhealthy activity could prove a great disservice to the very men NuWay is trying to help. The tenants could become targets and create a revolving door between these 'post-treatment apartments' and NuWay's treatment center at 2200 Stevens Avenue, as well as add to the livability crimes currently suffered by the residents in this area.

For all of the reasons stated above, the Whittier Alliance sees the stated plans of NuWay House, Inc. to use 2118 Blaisdell as an expansion of their congregate/supportive/transitional living facilities and services as inconsistent with the Whittier neighborhood Strategic Plan and neighborhood goals.

Help Securing a Buyer

We appreciate that the message communicated in this letter is likely not what the NuWay Board was hoping to hear, but we want to be as candid as possible in the effort to open communication with you about this important Whittier asset. We hope very much that you will carefully consider all of our comments and note in particular that, should your Board decide to consider all options, we will do everything we can to introduce you to serious buyers.

A few of our board members have already identified potential buyers who say they are interested in moving forward to purchase the 2118 Blaisdell Pillsbury Mansion very quickly. In particular, we have been authorized by Tony Scornavacco, the owner of H&B Gallery, to tell you that he is *very* interested in purchasing the Pillsbury Mansion to move H&B's antiques and art dealership business to Whittier and that he welcomes a discussion with NuWay about the building at any time. Please let us know if you would like us to introduce you to Mr. Scornavacco, as we will be very happy to do so.

Most importantly, as noted above, we hope we can continue an open discussion with you about this important Whittier asset going forward. Please respond directly to the Whittier Alliance to explain your present thoughts regarding 2118 Blaisdell at your earliest convenience. Thank you for giving this topic consideration from both the NuWay and Whittier Alliance and Neighborhood perspective. We look forward to hearing from you.

Sincerely,

Marian Biehn

Subject: For ZBA Packets: Petition Signatures and Comments

Joe,

Attached for inclusion in the packets going to the ZBA members is the following:

- 1.) Signatures (some 243) to the on-line petition to the ZBA, as of this afternoon;
- 2.) Comments made by a number of the signors of the on-line petition; and
- 3.) A pdf of a hard copy version that was circulated for certain signors who do not have access to a computer, etc. (Note: The manager of the 5 low-income Blaisdell Apartments buildings that surround 2118 Blaisdell noted that many/most of her 150 some tenants do not have computer access, so have not signed the petition. She (Shannon Cady) signed on behalf of Cady Management and provided comments with respect to her concerns for her tenants.)

Also attached (below) is the statement of Natasha Shawver, who asked that I forward it on to the ZBA.

Please feel free to simply forward this email to the ZBA members for their review prior to the hearing tomorrow afternoon.

Thank you.

Best,

Ted

Subject: Re: Zoning Board Agenda

NuWay should act in good faith and honor what its business model rests on: Providing services to people struggling with chemical dependency in all of our city's neighborhoods - with regular residential surroundings as the counter model to more centralized institutional care. Yet, it happily calls Whittier the "Heart of the Minneapolis Recovery Community", clustering its facilities in an increasingly dense manner that seems to run counter to this principle, and that, I worry, is recreating the very effect it purports to mitigate.

If we are to accept dispersal of these facilities into regular

surroundings as the primary benefit for program participants - which is the basis for this reasonable accommodation request -, then how can hyper-centralization as proposed be in the best interest of the individual seeking treatment, or the community at large?

Natascha Shawver
Whittier Resident
2501 Pleasant Ave
Minneapolis, MN 55404

change.org

Recipient: Minneapolis Board of Adjustment

Letter: Greetings,

We urge the City to DENY NuWay's reasonable accommodation request and not to remove the 1/4 mile spacing restriction for the historic mansion at 2118 Blaisdell and NOT to grant NuWay a Conditional Use Permit for this property.

We embrace our diversity, including the large number of non-profits that operate in Whittier and Stevens. But it is clear there is an extreme overconcentration of Supportive Housing that threatens to limit future tax based development and individual investment. This clustering (which the Code was intended to prevent) is inequitable, inhibits our ability to attract greater diversity, enhance commerce, reduce crime and provide wide public use of the neighborhood's historic assets.

Comments

Name	Location	Date	Comment
Jeanine Marchessault	Minneapolis, MN	2015-02-04	Density of supportive housing in neighborhood & inappropriate use of historic building.
Doug Melroe	Minneapolis, MN	2015-02-04	I have lived across the street for over 25 years. The house and neighborhood are too valuable to be destroyed. WE DO NOT NEED OR WANT ANOTHER HALFWAY HOUSE IN OUR NEIGHBORHOOD.
Marc Yeager	Minneapolis, MN	2015-02-04	I'm signing because as a neighbor to the locale it is easy for me to foresee that the establishment of such a facility there could and would further degrade the surrounding business and residential communities already struggling with a non-ebbing traffic of illicit drugs. I also imagine a far richer use of such an aesthetic property.
Kathryrn Rozin	Minneapolis, MN	2015-02-04	We used to live in this area and moved because ultimately had reservations about raising kids in the current environment. They do not need more halfway houses, apt complexes and likewise. They need to protect and restore what's there and be able to safely utilize the wonderful parks, MIA, schools and businesses.
Uri Camarena	Minneapolis, MN	2015-02-04	Our area is already saturated with Supportive Housing. If you want to maintain a fair tax base and encourage revitalization of the area, The City should deny the request by NuWay.
Andy Cohen	Minneapolis, MN	2015-02-04	Much as I recognize the need for this service, there is already too much supportive housing density in Whittier and I am opposed to adding an additional facility in this neighborhood which would be flying in the face of City Code prohibiting such as well as the spirit of fairness and equality (i.e., not over-concentrating transitional housing in one neighborhood). In addition, as a Whittier business owner, it is essential to encourage compliance with City Code as well as investment that is going to enhance the neighborhood and its appeal.
Sarah Williams	Minnetonka, MN	2015-02-04	There's already a half way house by where I live, so I don't need another one to make this area even more dangerous...
Josh Shonkwiler	Minneapolis, MN	2015-02-04	I'm signing because I live 1 block away and don't want this element around my property and neighborhood. A handful of us are trying to bring this neighborhood back to it's former glory and this would be several steps backwards for us. There are already an over abundance of these types of properties in this area and they are constant problems. Put yourself in our shoes and ask what you would want done if this was your neighborhood. Absolutely I'll share with my network and get as much support as possible.
Jenna West	La Junta, CO	2015-02-04	Halfway houses are meant to help, but some can be dangerous. If there is already one, does there really need to be another?
Donna Belnavis	Minneapolis, MN	2015-02-05	I am already too swarmed by the "Indigence Our Us" dating services just walking to the bus stops on Nichollet .
william gower	Saint Paul, MN	2015-02-05	I visit that area of town a lot and have many friends that right near that building.
Laura Jean	Mpls, MN	2015-02-05	People who need services deserve to live in ANY Minneapolis neighborhood, not to be siloed into one with an over concentration of services and poverty. Tell City leaders it's time for equality in Minneapolis, enforcing zoning code and the diversification of supportive facilities is a good place to start changing our City's shameful history of contributing to the worst disparities in the country.

Name	Location	Date	Comment
Daphna Stromberg	Minneapolis, MN	2015-02-05	The ¼ mile restriction is designed to prevent over-concentration of transitional and supportive housing. The city should listen to its residents, enforce the code, and not remove the ¼ mile restriction for the convenience of owners of supportive housing who find it convenient to have all their facilities in the same area.
osla thomason	Minneapolis, MN	2015-02-05	It's time for equality in Minneapolis, enforcing zoning code and the diversification of supportive facilities is a good place to start changing our City's shameful history of contributing to the worst disparities in the country.
Kurt Nelson	Minneapolis, MN	2015-02-05	I'm concerned about a concentration of support facilities in the neighborhood. Whittier already has too many based on current code - adding more is not the right answer if we truly want to help people in the long run
Andrea Dahl	St. Louis Park, MN	2015-02-05	I'm signing because Whittier and Stevens are neighborhoods that are supporting many people in transition and recovery, and it's important to keep a balance between supporting those who are suffering and ensuring the neighborhood has a path forward to business development, increased safety, and historical preservation.
Brooks Mahoney	Minneapolis, MN	2015-02-05	I live between 2 of their current properties. They are not good neighbors. Some of their residents buy & use drugs & alcohol in front of my house & then go home to theirs leaving their bottles behind. Please no more!
Elise Matthesen	Minneapolis, MN	2015-02-05	I have friends who have needed Supportive Housing in the past. They needed it to get on their feet and rebuild themselves and get back into the wider world, not to be walled off into a single neighborhood. THAT'S WHY THE CODE EXISTS. ENFORCE IT.
Bruce Rasmussen	Minneapolis, MN	2015-02-05	The zoning code recognizes that it is bad urban planning to cluster "Supportive Housing" facilities. Whittier already has more than its share. A better use will come along.
Lee Klement	Minneapolis, MN	2015-02-05	Whittier is overloaded with Supportive Housing Facilities. This is not NIMBY, this is IHEIMBY - I Have Enough In My Back Yard. Literally, I have Wayside Incarnation House on the other side of my back fence. That's fine - but this over concentration must be halted.
Larry Ludeman	Minneapolis, MN	2015-02-05	There are already too many group homes in the Whittier neighborhood.
Catherine Lundoff	Minneapolis, MN	2015-02-05	Because I know folks who live in the neighborhood and adding this puts the concentration well over the current limits.
Sarah Humpage	St Paul, MN	2015-02-05	My husband and I bought a house a few blocks from the proposed new NuWay site last year. Learning that house after house in our neighborhood is a supportive or transitional living space has been such a disappointment to us. We knew that Whittier had some, but the concentration is stunning, and unlike anywhere else in the city, as far as I know. We'd like to stay in this neighborhood and raise our family here, but if the city continues to allow more and more supportive housing here, in violation of the sensible code we have to prevent such concentration, we will have to leave. Please, allow Whittier to be a welcoming, viable neighborhood.
Daniel Rogers	Minneapolis, MN	2015-02-05	Purchased a new home to help improve the area. Unreal density of rehabs already, ordinance already considers this and does not allow, please do not allow a modification. Thanks, Dan
Katie Naab	Excelsior, MN	2015-02-05	It's really sad to see these historic homes stripped of their beauty.
Melanie Logan	St Louis Park, MN	2015-02-06	Former resident of that area and i feel the area is already saturated with too many similar entities.

Name	Location	Date	Comment
Ellen Luken, AIA	Minneapolis, MN	2015-02-06	This building is an historic structure exemplary in its architecture, and unique to the history and development of Minneapolis as part of the Pillsbury legacy. It is on a par with the J.J. Hill Mansion in St. Paul. While the facility may not yet be nominated to the National Register of Historic Places, it certainly is eligible and should be treated as such. It is difficult to envision the use as a half-way house to be respectful and undamaging to the building interior.
Patrick Jones	Minneapolis, MN	2015-02-06	We already have more than our fair share of Supportive Housing facilities in our neighborhood.
Erica Christ	Minneapolis, MN	2015-02-06	The over-concentration of so-called affordable and supportive housing is the reason this is the most segregated city in the US. If the city leaders truly want equity, they will quit taking the easy way out on decisions about organizations and properties like this. They will deny the Reasonable Accommodation request and further recommend that the organization find new properties in areas that are, ahem, currently underserved by social service non-profits.
Julia Gordon	Minneapolis, MN	2015-02-06	I live in Whittier and agree that the area is already saturated with too many "reasonable accommodations". The historic mansion should be kept as that, historic Pillsbury legacy.
Marti Stewart	Minneapolis, MN	2015-02-06	As the Administrative Director at City of Lakes Waldorf School, we support this petition for the reasons that are clearly articulated. Our school community, with over 250 students and their families, has been a positive force in the revitalization of the Whittier Neighborhood and Nicollet Avenue. However, our school enrollment and continued presence in this neighborhood are dependent on continuing to provide a safe and hospitable environment for our staff, students, families and friends. Over the 15 years we have resided on the corner of 24th and Nicollet, we have had to contend with drug dealing, car break-ins, panhandling and alcohol and drug consumption in our play yard, parking lot and on the sidewalk surrounding our school. Over the years, these challenges have improved significantly, allowing us to continue to grow and thrive in Whittier and to support and partner with neighboring non-profits like Simpson Housing Services. We, however, need to ensure that this positive trend continues and that the city address the dense population of supporting housing facilities that already exist in our neighborhood. Please say no to the proposed NuWay Housing Facility. Thank you.
Amy Brown	Minneapolis, MN	2015-02-06	over-concentration of such facilities in our neighborhood already
Brian Flick	Minneapolis, MN	2015-02-08	because this zoning is not only detrimental to growth in the area, but adds to crime, and is a gross misappropriation and violation of city ordinance.
Heather Johnson	Minneapolis, MN	2015-02-08	Stop dumping criminals, addicts, and undesirable people in this area. You should be ashamed.
Stephen Mihalak	Minneapolis, MN	2015-02-09	This would be a huge mistake, especially being so close to a school and apartment complex. Why add to the disturbance that the school already causes my residents?
Slade winchester	Minneapolis, MN	2015-02-09	As a home owner in the neighborhood who has brought up four children nearby , I feel very strongly that this would perpetuate a problem that already exists in the Whittier neighborhood of an over concentration of Supportive Housing Facilities. Cities need diversity and to share the burden of Supportive Housing Facilities across the entire metro area, not concentrate these facilities into one area. This over concentration does not promote a strong community in the neighborhood. The sense of community is vital to the long term success of any City. Please do not approve NuWay'e request.
Linda Ferris	Minneapolis, MN	2015-02-09	Our neighborhood is saturated with these types of facilities. There is absolutely no need to add another.

Name	Location	Date	Comment
Michael Loewen	Minneapolis, MN	2015-02-09	There are more of these facilities in the area than supported by the agreed upon development plan.
Debra Behrens	Minneapolis, MN	2015-02-09	I live in the area and while I am fully supportive of providing services for those in need and those in transition, our neighborhood has more than our fair share of these facilities. I would like to see other communities step up to help before we are asked to do more.
Maureen Wells	Minneapolis, MN	2015-02-09	As a long time resident of Stevens Square/Loring Heights which is just across Franklin from this property, I am against the approval of yet another non-taxing paying organization in the area. There are better uses for this property. I support the petition to DENY NuWay.
Kristeb Cooper	Minneapolis, MN	2015-02-09	This place needs to be an boutique hotel
Joyce Tesarek	Minneapolis, MN	2015-02-09	We need a more positive use for this property. The needs for supportive housing are adequately met in the neighborhood.
Dan Anderson	Minneapolis, MN	2015-02-09	Too concretate in this area
Jon Bjornnes	Minneapolis, MN	2015-02-09	I have lived in my grandfathers house 50yrs, in the family since 1938
diane hansen	Minneapolis, MN	2015-02-10	I think supportive housing should be spread around the city and the suburbs, and not further concentrated in areas with many such facilities.
Lahli Trevis	Minneapolis, MN	2015-02-10	There are enough housing facilities for rehabilitation in this area.
Caroline toll	Minneapolis, MN	2015-02-10	While I am sympathetic to the need for support housing of this nature, this is adding to a already overburdened area
Diane Moe	Minneapolis, MN	2015-02-10	I'm signing this because of all the reasons stated: Whittier has way too many supporting housing facilities in the neighborhood; it is a historic mansion and should not be used this way; and the city needs to enforce their existing zoning codes. Please, please, do not allow this.
Pete Rhodes	Minneapolis, MN	2015-02-10	My wife and I have currently owned a home in Whittier for the pass 14 years. In this time we've seen the area continue to house more and more supportive housing which is eroding property values and revitalization efforts. I support the opportunity for recovery, I do not support the over saturation of these type facilities inequitably in one area. I believe in the rule of law. The city must enforce existing zoning codes and not allow yet another supportive home be placed in this neighborhood.
Marcee Hansen	Minneapolis, MN	2015-02-10	There are an abundance of these types of facilities.
Kylene Guse	Minneapolis, MN	2015-02-10	I am signing this petition because I agree there is an overconcentration of Supportive Housing in this neighborhood.
Carlos Patino	Minneapolis, MN	2015-02-10	I own a single family home in the area and I live there with my children. Having all these supportive housing facilities makes the area undesirable for families with children. There are already too many of these establishments in the area.
Jessica Crawford	Mpls, MN	2015-02-10	I oppose more such housing in Whittier.
rich kurhajetz	Minneapolis, MN	2015-02-10	I office in the Whittier neighborhood and I am looking for a single family home near my place of work. The large concentration of these types of facilities would (and will) prevent me from considering this neighborhood for my family.
Jennaee Gearhart	Minneapolis, MN	2015-02-11	My children are at school at City of Lakes Waldorf and I feel that this facility doesnt allow for the safety and comfort of our children!
Frank Anderson	Minneapolis, MN	2015-02-11	Don't need, have to many now. What about outer neighborhoods? Were is the Diversity in this City.

Name	Location	Date	Comment
Caroline Askew	Minneapolis, MN	2015-02-11	We run a school on the next block for young children and think the neighborhood is already saturated with service facilities. One more would be too much.
Meg Paschall	Minneapolis, MN	2015-02-11	We already have more than enough Supportive Housing in this neighborhood in Minneapolis. Also, we should find a better use for this historic building.
lawrence black	Minneapolis, MN	2015-02-11	The neighborhood needs more diversity, not more of the same. Also, due to the proximity with a grade school, I think that more research is needed as to the potential challenges this presents to the neighborhood as a whole.
Matt Kleinschmidt	Minneapolis, MN	2015-02-11	Although it is important to have housing facilities for newly recovering alcoholics/addicts (and being one myself - not newly though), I feel that too many of these facilities in one area is a ground for dealers, which can lead to crime (theft, stabbings, shootings, muggings). I certainly hope Nu-Way can open more facilities but they should spread their reach to other parts of town.
Dan Steeves	Minneapolis, MN	2015-02-11	I am on the board of directors, my wife is a teacher, and my children attend City of Lakes Waldorf School around the corner. I agree with others that concentrating this use in this area is bad for the long term health of the neighborhood.
Greg Sautter	Minneapolis, MN	2015-02-12	I have two children ages 3 and 6. My neighborhood already too many of these facilities. I want Whittier to be a safe place to play and grow.
Elizabeth Langer	Minneapolis, MN	2015-02-12	This is down the street from where my children go to school. There are so many problems in this neighborhood as things currently stand. This facility should be placed in another part of the city.
Colt Wall	Minneapolis, MN	2015-02-12	<p>While its notable that NuWay would like to open yet another supportive service facility, this is not the ideal location.</p> <p>Studies have shown a concentration of poverty and services does not create an atmosphere to encourage "stepping up." (see Chicago) Many cities adopted a 1/4 or 1/2 mile rule because of these specific issues. For the City of Minneapolis to turn its ear to the very ordinance(s) put in place to combat this is very disheartening.</p> <p>This is not one of those "not in my back yard" its more our front and back yard are full.</p> <p>Federal law does not give addicts the stigma of having a disability (they do not receive SSI), therefore the argument is mute.</p> <p>Furthermore, anyone can choose to live at the building, if they bought it! Instead of cutting up the building to house even more people is not what the building is intended for.</p>
Shannon Cady	Minneapolis, MN	2015-02-12	I am the owner of Cady Management and speak on behalf of Blaisdell Housing, which provides 151 homes to low income families and individuals within a 1 block radius of 2118 Blaisdell. We feel strongly that any additional Supportive Housing Facilities will negatively affect not only our residents, but the entire neighborhood. Supportive housing tends to attract an unfortunate and often criminal element looking to take advantage of vulnerable adults. Our neighborhood already has more than our fair share of this.
Deborah Wiss	Minneapolis, MN	2015-02-12	Historic preservation of this location needs to be protected.
Barbara Snow	Maple Grove, MN	2015-02-12	I am a resident of Stevens Square neighborhood and also a lover of our old historic mansions. We deserve a better use for this lovely building.
Julie Maguire	Minneapolis, MN	2015-02-12	I am in agreement with this petition...

Name	Location	Date	Comment
Robert Kneusel	Minneapolis, MN	2015-02-12	Enough is Enough in the Stevens Area please!!
sally fresquez	Minneapolis, MN	2015-02-13	I would like to see the home preserved. Once it's destroyed, it will be too late.
Laura Kossan	Minneapolis, MN	2015-02-13	This is a piece of history that cannot be destroyed!! How about an event/community space? Or something that respects and upholds the house's grandness!!!
Taylor Collins	Minneapolis, MN	2015-02-13	Our neighborhood needs to save this beautiful building and use it as an asset to the community!
Kerry Dikken	Minneapolis, MN	2015-02-14	I live here and there are a crazy amount of halfway houses here.
Troy Linck	Minneapolis, MN	2015-02-14	As a homeowner at 2418 Pillsbury Avenue, I am opposed to adding another group home to our neighborhood. I am supportive of the current residences but feel that other neighborhoods should share the responsibility of groups homes.
Rachel Ernst	Minneapolis, MN	2015-02-15	I live in the area, my kids go to school in the affected neighborhood, and I want the neighborhood to be historically preserved.
Michael Hill	Minneapolis, MN	2015-02-15	Please DENY NuWay's request.
Kathie Carlson	Minneapolis, MN	2015-02-16	I saw what has happened in the past, And Im tired of it.
Andrew Heiring	Minneapolis, MN	2015-02-16	This is not the highest and best use of a remarkable historic building
Dion Hughes	Minneapolis, MN	2015-02-16	As a business owner in the neighborhood, and a parent to children attending a neighborhood school, I am acutely aware of the density of supportive housing. I am against the city granting NuWay a Conditional Use Permit.
Kristen Oliver	Minneapolis, MN	2015-02-16	I agree that this is not the correct use for this property. I have personally visited this mansion and have seen the potential of many other viable options that would benefit the community in a different way. I am also currently obtaining my masters in historic preservation and am a large supporter of proper reuse of Minneapolis and St. Paul's historic resources.
Elliott Lynch	Minneapolis, MN	2015-02-17	I support historic preservation and neighborhood integrity.
Ivadel Spoerner	hopkins, MN	2015-02-17	This building should be utilized for positive historic preservation. There is no way this will maintain high quality appearance if use in this capacity.
Jeni Carrier	Minneapolis, MN	2015-02-17	I have lived in and been an active member of the Stevens neighborhood for nearly 2 decades. My efforts along with those of many others have turned the Stevens neighborhood into a thriving place to live. I would like the neighborhood to continue to have the opportunities to grow. My daughter is now taking up my torch and is active in the neighborhood.
Luc Mongeon	Minneapolis, MN	2015-02-17	We already have a density of supportive housing that is over and above what is permitted by city ordinance. Increasing the density will create some issues for the continued economic development of this area of the city.
happy reynolds	Minneapolis, MN	2015-02-17	I support affordable housing and family shelters However I do not support the continued destabilization of neighborhoods that are already in poverty and need support. Every zip code should be willing to house our citizens in crisis.
Tom George	Minneapolis, MN	2015-02-18	Too many social service, recovery facilities locted and concentrated within 1/4 mile spacing requirements
Benjamin Hertz	Minneapolis, MN	2015-02-18	I care about the preservation of our neighborhoods
greg ruud	mpls, MN	2015-02-18	Too many drug rehabs now in here and the mansion is a historic part of our neighborhood
Miles Taylor	Minneapolis, MN	2015-02-18	The mansion deserves to be protected and given wide public use, not cut up into yet another sober house, in an area that is struggling to combat the effects of a gross over-saturation of sober houses.
Colin Simpson	Minneapolis, MN	2015-02-18	I agree with the petition.

Minneapolis, MN

2015-02-18

This part of south Minneapolis has more than it's share of supportive housing. City officials should enforce the existing zoning laws which prohibit adding another facility so close to other existing facilities. Stop the madness.

PETITION

DENY NuWay's Housing Facility at 2118 Blaisdell

We embrace our diversity, including the large number of non-profits that operate in Whittier and Stevens. But it is clear there is an extreme overconcentration of Supportive Housing that threatens to limit future tax based development and individual investment. This clustering (which the Code was intended to prevent) is inequitable, inhibits our ability to attract greater diversity, enhance commerce, reduce crime and provide wide public use of the neighborhood's historic assets.

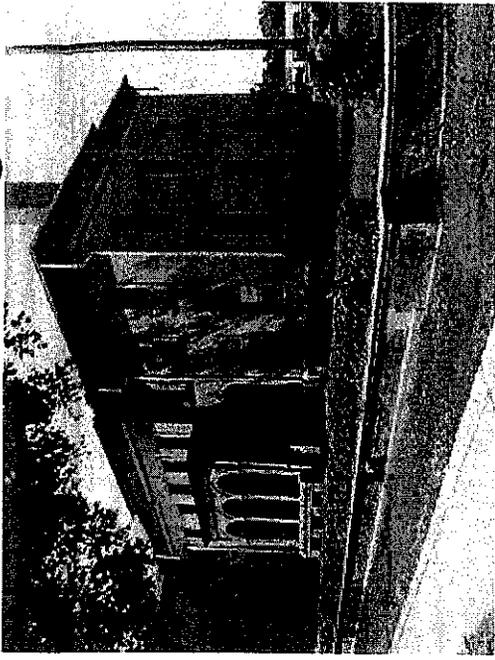

Whittier already has 30 "Supportive Housing" Facilities within ¼ mile of 2118 Blaisdell. The grand historic mansion is the proposed site for NuWay House, Inc. new treatment and housing facility, for nearly **200** drug and alcohol addicts per year.

City Code mandates that only 1 Supportive Housing Facility be within ¼ mile of another Supportive Housing Facility, or Inebriate Housing Facility, or Overnight Shelter, or Community Correctional Facility, or Motel, or Community Residential Facility. **Whittier has 30 facilities clustered within 1/4 of a mile.** Stevens Square-Loring Heights neighborhood has an **additional 18 facilities** in their densely populated area many of which are within ¼ mile of NuWay's proposed facility at 2118 Blaisdell.

The City should DENY NuWay's reasonable accommodation request and further not remove the 1/4 mile spacing restriction for the historic mansion at 2118 Blaisdell and NOT grant NuWay a Conditional Use Permit for this property.

With 30 Supportive and transitional housing facilities within ¼ mile of 2118 Blaisdell (and NuWay's 4 other Whittier properties) there is sufficient housing to allow persons struggling with addiction to live in the neighborhood.

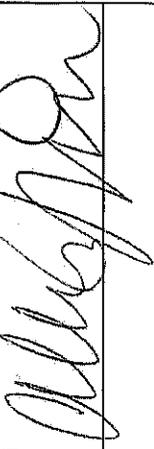

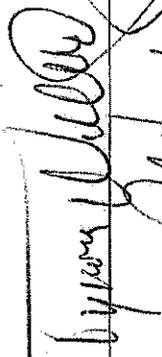

The City MUST enforce existing zoning codes, NOT remove the ¼ mile spacing restriction, and NOT allow NuWay to open another supportive housing facility at 2118 Blaisdell.

I Have Read the Petition and ask the City to DENY NuWay's reasonable accommodation request and further not remove the 1/4 mile spacing restriction for the historic mansion at 2118 Blaisdell and NOT grant NuWay a Conditional Use Permit for this property.

Subject: Re: NuWay

Hi Marian,

Thanks for letting me know about the zoning meeting tomorrow afternoon. Unfortunately, I won't be able to make it. I tried to submit the following statement with the petition I signed online but I don't think it was sent because of a technical glitch. I'm sending it with this email. You have my permission to read it or submit it if you'd like and if you deem it appropriate.

Thanks.
Colin

I am a homeowner that has lived next to a Nuway facility for nine years. I believe the addition of another Nuway facility in Whittier is not a positive addition to this neighborhood.

Living next to a building that houses a large number of recovering people is difficult. There is a high annual average of ambulance and police visits to the facility. Groups of people averaging a dozen or more loiter in the back and front of the facility from very early in the morning until 11 at night. I can't go into my yard, my alley or onto the public sidewalk without breathing or smelling cigarette smoke. The noise is constant. Large loitering groups of people can be loud. The groups of people that are housed at this Nuway facility are consistently loud.

From what I can tell, the patients housed at Nuway have restrictions from leaving the property. From what I can tell, Nuway has no air conditioning. So, especially in the summer time, all windows are open and often music can be heard at any hour of the day or evening until 11p.m., (at times with expletive laced lyrics that can be clearly heard from any position in my yard). Many times I've had to speak with an on site staffer at Nuway in concern to loud music or alarm clocks that are left ringing in open windows for sometimes literally days or about patients using the boardwalk in front of my house as an ashtray. Smoking, skateboarding, throwing footballs, etc. seem to be popular activities in the parking lot in the back of the facility, but the problem is that the parking lot is just that, a small blacktop area designated for parking. It seems to me that it is insufficient space for the patients; as a consequence, patients spill out into the alley or onto adjacent properties. Especially in the warmer months, you'll often see people smoking and speaking or often yelling into their cell phones while loitering either in the middle of the alley, on the occasional cement curb that resides on an adjacent property or in my own private driveway. Many times I have had to ask patients to abstain from

milling around in my driveway while on their cellphones, or abstain from throwing footballs, frisbees or kicking soccer balls etc. in an alley that is filled with parked cars. After nine years, I've come to expect these issues to arise every year. I've also come to expect the unexpected. Someone showing up at the facility after relapsing, is consequently locked outside of the facility and so staggers up and down the block while inebriated until the police come to pick them up. Or, the occasional patient that finds cause, unprovoked, to engage me in a totally inappropriate manner or one of my female tenants in an equally inappropriate manner while obscured behind one of the open windows on the north side of the facility that borders my property. I've witnessed the positive evolution of the Whittier neighborhood over the last 20 years. Whittier is already over saturated with facilities for recovering people. To allow another one in this neighborhood would be frankly a bit of an insult to all of those that have worked so hard to make this neighborhood what it is today.

On Tuesday, February 17, 2015 2:14 PM, Marian Biehn <marian@whittieralliance.org> wrote:

Hi Colin

Thursday is the Zoning Board hearing for the proposed NuWay facility at 2118 Blaisdell. The hearing is at City Hall Rm 317 at 4:30pm. I presume you signed the petition along with your neighbors. Will you be at the public hearing? Your experience living next to one of their facilities would be helpful.

Call me if you have any questions.
Thanks

June 9, 2014

Whittier Community Support Letter

To Whom It May Concern,

The Minneapolis Urban League operates the Urban League Academy located at 2201 Blaisdell Avenue South in Minneapolis. The Urban League Academy is 1 of 22 high schools in the Minneapolis Public School District. The student body makeup is 56 percent male and 44 percent female, and the total minority enrollment is 96 percent.

The Urban League Academy is charged with educating a population of mostly African American students who arrive at our doors late in their school years with credit issues and other social and behavioral challenges. Most of our students have attended an average of four previous schools.

Located in an already over saturated recovery community, the teachers at the Urban League Academy are nonetheless proud of our school's urban location. They understand our students' plight and are willing to work with Whittier residents to create a safe and nurturing environment of success for these vulnerable young adults.

It has been brought to my attention that yet another residential facility for substance abuse and mental health patients is being proposed for a location in the Whittier community. In addition, the location will house up to 25 recovering patients in a neighborhood that already has a disproportionate number of these facilities. I support the opportunity for change and recovery but not to the disadvantage of residents or patients. This must be a shared and balanced community placement.

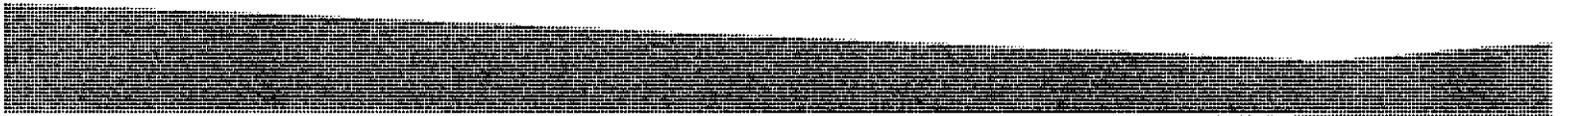

Placing this proposed substance abuse and mental health residential facility in Whittier amounts to an unfair distribution of such facilities, stigmatizing the community and creating non-favorable conditions in an already crowded recovery neighborhood. It is my position that this could lead to an unsuccessful recovery environment. I therefore, after outreach and discussion with residents of the Whittier community, side with those concerned who disapprove of the establishment of another NUWay recovery facility at 2118 Blaisdell.

Sincerely,

Scott Gray
President/CEO
