

A City that works					
Goal					
Title	Quality of City services	City employee engagement	Access to City information	Diversity of City workforce	Value for tax dollar
<b>Proposed Community Indicator</b>	Resident rating of overall satisfaction with City services	City of Minneapolis overall employee engagement (composite measure)	Resident rating of ability to get information about City services and programs	Percentage of females and people of color in City of Minneapolis Workforce	Resident rating of value for tax dollar
<b>Sustainability indicator modified or carried forward</b>					
<b>Associated sustainability and community indicators</b>	Lead poisoning: Children tested + homes inspected	Resident rating of City government	Resident rating of City government	Non-white board and commission members	Non-white board and commission members
	Miles of bikeways	Non-white board and commission members	Non-white board and commission members	Access to City information	Miles of bikeways
	Tree canopy coverage	Rating of value for tax dollar	Resident rating of opportunities for resident participation in City government decision making		Tree canopy coverage
	Trees planted annually	Access to City information			Trees planted annually
	Number of violent crimes	Quality of roads and bridges			Number of violent crimes
	Resident rating of City government	Resident rating of opportunities for resident participation in City government decision making			Resident rating of City government
	Non-white board and commission members				Lead poisoning: Children tested + homes inspected
	Resident rating of opportunities for resident participation in City government decision making				Access to City information
	Garbage and recycling				Quality of roads and bridges
	Rating of value for tax dollar				Complete and livable communities
	Access to City information				Access to transportation alternatives
	Quality of roads and bridges				Resident rating of opportunities for resident participation in City government decision making
	Complete and livable communities				Garbage and recycling
	Access to transportation alternatives

Minneapolis Community Indicators: Mapped to Sustainability Indicators [Draft]

One Minneapolis							
Goal							
Title	Healthy food access	Infant mortality	Early literacy	Opportunities for resident participation	Asthma	Equitable justice system	Poverty
<b>Proposed Community Indicator</b>	Percentage of residents living in Low Healthy Food Access Areas. Low Healthy Food Access Areas must meet poverty, vehicle access and year-round healthy food source criteria.	Infant mortality rate	Percentage of third grade students who meet or exceed proficient reading levels	Resident rating of opportunities for resident participation in City government decision making	Rate of hospitalization from asthma	Low-level crime arrests	Disparity in poverty rate
<b>Sustainability indicator modified or carried forward</b>	Sustainability measure modified	Sustainability measure carried forward		Sustainability measure modified	Sustainability measure carried forward		Sustainability measure carried forward
<b>Associated sustainability and community indicators</b>	Poverty disparity	Low birth weight	Poverty disparity	Non-white board and commission members	Air toxics	Unemployment disparity	Infant mortality rate
	Infant mortality	Teen pregnancy	Lead poisoning	Resident rating of City government	Air pollution levels	Cost-burdened households	Unemployment disparity
	Healthy weight + obesity rate	Healthy weight + obesity rate	Graduation rate	Educational attainment	Number of properties in Tier 2 and Tier 3 rental licensing	Homelessness	Cost-burdened households
	Low birth weight	Poverty disparity	Low birth weight	Access to City information		Cost-burdened households	Graduation rate
	Greenhouse gas emissions citywide	Unemployment disparity	Cost-burdened households			Resident perception of safety	Homelessness
	Cost-burdened households	Lead poisoning: Children tested + homes inspected	Number of affordable housing units produced through City programs			Wages	Transportation alternatives
	Homelessness	Air pollution levels	Homelessness			Educational attainment	Low birth weight
	Complete and livable neighborhoods	Air toxics	Unemployment disparity				Teen pregnancy
	Access to transportation alternatives	Cost-burdened households	Educational attainment				Lead poisoning: Children tested + homes inspected
	Garbage and recycling	Number of affordable housing units produced through City programs	Wages				Commute mode share
		Homelessness					Green jobs
		Graduation rate					Number of affordable housing units produced through City programs
		New HIV cases					Access to transportation alternatives
		New Gonorrhea cases					Wages
		Access to transportation alternatives					Educational attainment
		Healthy food access					Quality housing
		Educational attainment					Healthy food access
		Employment					Reading proficiency
							Educational attainment

The Results Minneapolis team will review all associated measures to determine causality.

Goal	
Title	Unemployment
Proposed Community Indicator	Disparity in unemployment rate
Sustainability indicator modified or carried forward	Sustainability measure carried forward
Associated sustainability and community indicators	Poverty rate
	Homelessness
	Infant mortality rate
	Low birth weight
	Green jobs
	Cost-burdened households
	Graduation rate
	Educational attainment
The Results Minneapolis	

A Hub of Economic Activity and Innovation					
Goal					
Title	Employment	Sales	Business startups	Educational attainment	Wages
Proposed Community Indicator	Number of individuals employed in the 20 largest employment sectors in Minneapolis	Minneapolis sales and use tax revenue	Number of employees employed by start-ups	Percentage of adults aged 25 and older with a high school diploma (or equivalent), some college and college degree	Average monthly earnings of employees with stable jobs
Sustainability indicator modified or carried forward				Sustainability measure modified	
Associated sustainability and community indicators	Green jobs	Creative vitality	Green jobs	Graduation rate	Poverty disparity
	Commute mode share	Green jobs	Creative vitality	Poverty disparity	Unemployment disparity
	Residents and workers driving to work alone		Employment	Unemployment disparity	Infant mortality rate
	Creative sector workers			Homelessness	Low birth weight
	Jobs in the arts			Infant mortality rate	Commute mode share
	Number of artists			Low birth weight	Green jobs
	Graduation rate			Teen pregnancy	Cost-burdened households
	Unemployment disparity			Cost-burdened households	Graduation rate
	Creative vitality			Employment rate	Employment
	Access to transportation alternatives			Reading proficiency	Educational attainment
					Access to transportation alternatives
The Results Minneapolis team will review all associated measures to determine causality.					

Great Places						
Goal						
Title	Healthy lakes	Greenhouse gas emissions	Air quality	Parks and open space	Garbage and recycling	Quality of roads and bridges
<b>Proposed Community Indicator</b>	Lake Aesthetic and User Recreation Index (LAURI): Public health, aesthetics, habitat quality, water clarity, recreational access	Citywide greenhouse gas emissions by activity	Days with air pollutant concentrations exceeding health-based levels	Resident rating of proximity to quality parks	Total waste stream and disposal method (garbage, recycling, organics)	Average Pavement Condition Index ratings and bridge condition information
<b>Sustainability indicator modified or carried forward</b>	Sustainability measure carried forward	Sustainability measure carried forward	Sustainability measure carried forward		Sustainability measure modified	
<b>Associated sustainability and community indicators</b>	Annual beach closure days	Municipal greenhouse gas emissions	Air toxics	Tree canopy coverage	Air pollution levels	Commute mode share
	Spread of aquatic invasive species	Municipal renewable energy projects	Rate of hospitalization from asthma	LAURI rankings	Greenhouse gas emissions citywide	Cyclists counted
	Pollutants in stormwater runoff	Commute mode share	Greenhouse gas emissions citywide	Healthy weight + obesity rate	Rate of hospitalization from asthma	Miles of bikeways
	Rain gardens	Residents and workers driving to work alone	Commute mode share	Trees planted annually	Green jobs	Residents and workers driving to work alone
	Resident rating of proximity to quality parks	Green Companies	Residents and workers driving to work alone	Rain gardens	Air toxics	Access to transportation alternatives
	Tree canopy coverage	Citywide renewable energy projects	Tree canopy coverage	Impaired waters		
	Trees planted annually	Air pollution levels	Trees planted annually	Beach closures		
	Impaired waters	Air toxics	Green jobs	Invasive species		
	Green jobs	Tree canopy coverage	Transportation alternatives	Green jobs		
		Trees planted annually	Garbage and recycling	Brownfield sites		
		Green jobs	Access to transportation alternatives	Access to transportation alternatives		
		Garbage and recycling				
		Access to transportation alternatives				
<b>The Results Minneapolis team will review all associated measures to determine causality.</b>						

Minneapolis Community Indicators: Mapped to Sustainability Indicators [Draft]

Living Well						
Goal						
Title	Quality housing	Access to transportation alternatives	Complete and livable neighborhoods	Cost-burdened households	Creative Vitality Index	Safety
<b>Proposed Community Indicator</b>	Number of properties in Tier 2 and Tier 3 rental licensing	Percentage of people who live within ½ mile of transit routes and bikeways	Percentage of residents living in close proximity to amenities and services, potentially including frequent transit service, schools, healthy food, and parks or green spaces	Percentage of households that pay more than 30 percent of their gross income for housing	Measures the impact of the creative sector. Includes the regional share of jobs, spending and organizations.	Number of violent crimes
<b>Sustainability indicator modified or carried forward</b>		Sustainability indicator modified		Sustainability measure carried forward	Sustainability indicator carried forward	Sustainability measure carried forward
<b>Associated sustainability and community indicators</b>	Lead poisoning: Children tested + homes inspected	Residents and workers driving to work alone	Healthy weight + obesity rate	Number of affordable housing units produced through City programs	Creative sector workers	Poverty rate
	Infant mortality rate	Miles of bikeways	Greenhouse gas emissions citywide	Homelessness	Jobs in the arts	Employment rate
	Low birth weight	Cyclists counted	Citywide renewable energy projects	Unemployment disparity	Number of artists	Infant mortality rate
	Rate of hospitalization from asthma	Commute mode share	Air pollution levels	Poverty disparity	Employment rate	Low birth weight
	Cost-burdened households	Healthy weight + obesity rate	Air toxics	Infant mortality rate		Homicide rate
	Homelessness	Greenhouse gas emissions citywide	Miles of bikeways	Low birth weight		Resident perception of safety
	Poverty disparity	Air pollution levels	Commute mode share	Commute mode share		Educational attainment
		Air toxics	Cyclists counted	Residents and workers driving to work alone		
		Cost-burdened households	Residents and workers driving to work alone	Graduation rate		
		Homelessness	Tree canopy coverage	Access to transportation alternatives		
			Trees planted annually	Healthy food access		
			Rain gardens			
			Number of affordable housing units produced through City programs			
			Airport noise			
			Access to transportation alternatives			
			Healthy food access			
			Resident rating of access to quality parks			
			Cost-burdened households			
			Resident perception of safety			

The Results Minneapolis team will review all associated measures to determine causality.

<b>Goal</b>	
<b>Title</b>	Safety
<b>Proposed Community Indicator</b>	Resident perception of safety
<b>Sustainability indicator modified or carried forward</b>	
<b>Associated sustainability and community indicators</b>	Number of violent crimes
	Infant mortality rate
	Low birth weight
	Air pollution levels
	Air toxics
	Commute mode share
	Brownfield sites
	Homicide rate
	Low-level crime arrests
<b>The Results Minneapolis</b>
