**Subject:**

Set Public Hearing for Non-Governmental Tax Exempt Parcel Street Maintenance Assessment

**Description:**

Adopting of a Committee Report designating the Citywide street maintenance assessment against properties exempt from ad valorem taxation and directing the City clerk to give notice of a public hearing to be held on October 27, 2015 before the Transportation & Public Works Committee.

**Previous Actions:**

None

**Ward/Neighborhood/Address:**

Various

Not Applicable

**Background/Analysis:**

The purpose of this letter is to establish the special assessment proceedings for a street maintenance assessment against nongovernmental tax exempt parcels.

The street maintenance assessment methodology and assessment role was updated in 2009. The City Council approved the methodology and assessment role with a direction to public works staff to phase in the recommended assessment rate over three years which began on payable 2010 property taxes. The assessment rate (\$0.01957) is unchanged from the 2015 rate. Therefore, only two types of properties will be receiving a public hearing notice:

1. Properties that were not eligible for the assessment last year but are eligible this year. For example, if a property changed from taxable to tax exempt status in the last year, they will get a public hearing notice for the street maintenance (and street lighting) assessment.
2. Properties that have an increased assessment due to increased assessable area. There are situations where property lines changed in the past year resulting in more assessable area and therefore a higher assessment. While the rate did not change, the increased assessment necessitates notice for the public hearing.

**Financial Review:**

**No financial impact.**

**Attachments:**

1. Committee Report

**T&PW** – Your Committee reports that in accordance with procedures set out at Minnesota State Statutes, Section 429.101 and authority derived from special legislation applying to the City of Minneapolis, the City finds it to be in the interest of all citizens that the maintenance of the city street system promotes the general health, safety and well-being of the citizenry and provides a benefit to each and every parcel within the City and further that the cost of street maintenance should be offset by imposing a street maintenance assessment upon benefited parcels that are otherwise exempt from ad valorem taxation. And further the City Engineer has presented to your committee the details required by State Statutes Section 429 in connection with Street Maintenance District #1 for assessment of the maintenance costs on Minneapolis streets for the convenience and safety of the whole City of Minneapolis area.

A summary of the facts relative to this assessment is as follows:

Number of assessable parcels in the City of Minneapolis – 1,314 approx.

Total assessable square footage - 28,502,893 approx.

Annual cost per square foot - \$0.01957

Your Committee recommends that the City Clerk be directed to give notice of a Public Hearing to be held by the Transportation and Public Works Committee on October 27, 2015, in accordance with the provisions of Minnesota State Statutes, Section 429, to be considered for the establishment of said proposed Street Maintenance District #1.
