PROPOSED DEVELOPMENT:

Construction Consultant Minneapolis Metro Inc. proposes to build a 2,048 square foot, four-bedroom, four-bath, single family home with a two-car detached garage.

The lot size is 58' x 128' = approximately 7,395 total square feet.

LAND DISPOSITION POLICY:

The sale of this property is in compliance with the City's Disposition Policy. The sales price of this property reflects the full re-use value.

FINANCING*:

Construction financing source is the Twin Cities Community Land Bank.

*Subject to application and underwriting requirements.

COMMENTS:

The subject property was acquired from Hennepin County as part of the Memorandum of Understanding that allows the City of Minneapolis to acquire up to 30% of tax-forfeited properties in targeted communities for \$1.00. After the property was acquired, the vacant land was subsequently marketed for development. This is the only completed offer received by CPED.

The developer's goal is to assist in the growing demand for home ownership opportunities for large families. The developer is working with Build Wealth Minnesota (BWM), a Minneapolis based non-profit organization that provides pre-purchase counseling services to underserved populations. In 2004, BWM, in a strategic alliance of other entities—public, private and non-profit, set up an initiative, *Own A Home Now*, to motivate and educate a diverse group of underserved populations. The goal is to assist these households to apply for and attain homeownership in the immediate future. BWM has successfully assisted a number of households to get into homeownership, including the use of City-funded housing programs.

Notification was provided to the Midtown Phillips neighborhood and they recommend this proposal be approved.
