Subject: Transit Access Project Resolution at tomorrow's committee meeting
Date: Monday, April 18, 2016 3:24:02 PM

Council Members Reich, Gladden, Bender, Palmisano, Gordon, and Yang,

The investment in the Transit Access Project at I-35W and Lake Street is an incredible opportunity to greatly improve an important gateway to Lake Street.

The Lake Street Council is in full support of the resolution, that you will be considering at tomorrow's Transportation and Public Works Committee, to include public art at the station.

We have been concerned that recent sketches at the Lake Street level show a station area that is devoid of placemaking. I appreciate your support for this resolution.

Allison
