

Save energy, save money

Home energy efficiency visits

Interested in saving money on your utility bills while keeping comfortable? Community Energy Services is a one-stop energy efficiency program to help Minneapolis homeowners save money and use less energy. Two energy professionals go to your home, install materials, and recommend upgrades that are right for your home – whether it's insulation, a more efficient furnace or air sealing to prevent ice dams. Come to a free Community Energy Services workshop to learn more. The program is presented by the Center for Energy and Environment with support from City of Minneapolis American Recovery and Reinvestment Act funds.

For owner-occupied homes – single-family, duplexes, triplexes and fourplexes.

For more information or to reserve your spot, visit www.mnces.org or call **(612) 219-7334**.

The Community Energy Services program includes:

- A free home energy improvement workshop.
- A home visit from our energy experts who will install high-quality, energy-saving materials.

A home visit fee of \$30 covers:

- Blower door and combustion safety tests.
- Access to qualified contractors trained by our energy experts.
- A year of tracking your home's energy use.
- Up to \$400 worth of products and services.

Come to a free Community Energy Services workshop to learn more.
