

# NFPA 1710 Organization and Deployment of Fire Suppression Operations

## First Alarm Response Capability - Chapter 5

**Defined Response** - Structure fire in a typical 2000 ft<sup>2</sup>, two-story single-family dwelling **without basement and with no exposures** shall provide for the following:

Required Task	Minimum Staff
Establish incident command	1
Establish and maintain uninterupted water supply	1
Establish and maintain an attack line and a backup line	4
Provide for one support person for each line	2
Provide for one search and rescue team	2
Provide for one ventilation team	2
Provide for aerial support	1
Establish initial rapid intervention crew	2
<b>Total 1710 Deployment Standard</b>	<b>15</b>

**Additional Resources** - Fire departments that respond to fires in high, medium, low hazard occupancies that **present hazards greater than those found in the low hazard occupancy described above** shall deploy additional resources.

High hazard occupancies: schools, hospitals, nursing homes, explosive plants, refineries, high-rise buildings, and any other high life or large fire potential occupancies.

Medium hazard occupancies: apartments, offices, merchantile, and industrial occupancies not normally requiring extensive rescue or fire fighting forces

Low hazard occupancies: one, two, or three family dwellings and scattered small businesses and industrial occupancies
