- Action requires an appropriation increase to the Operating Budget
- Action provides increased revenue for appropriation increase
- Action requires use of contingency or reserves
- Other financial impact (Explain): Request is covered by grant funds.
- Request provided to the Budget Office when provided to the Committee Coordinator

Background/Supporting Information

The City of Minneapolis has recently received \$3,000,000.00 from the US Department of Housing and Urban Development to perform lead hazard reduction in dwelling units occupied by children. Most of these activities will be performed in the East and Mid-Town Phillips neighborhoods, removing lead hazards from up to 300 housing units during a three year period. We are requesting approval to proceed with an RFP for lead hazard reduction services to be performed during the project. This RFP will be reviewed by the Permanent Review Committee and will not proceed without their approval.
