

July 12, 2005

Mr. Don Elwood
Principal Engineer
City of Minneapolis Public Works
309 Second Avenue South, Room 300
Minneapolis, MN 55401

Dear Don,

In late June you received a letter from Lee Wallace, Chair of the Streetscape and Property Assessment Sub-Committee, stating that the base level streetscape petition had been signed by property owners representing 62.1% of the lineal footage in the east segment for the Lake Street Reconstruction and Streetscaping Project.

During the past two weeks, additional signatures have been obtained. The percentage of linear footage now represented by property owner signatures is 65.3%.

Sincerely,

Tom L. Johnson
