RE: Bid Award for Polyester Resin Materials, OP# 6586

I would like to request that the bid award for the above mentioned Official Publication be awarded to JWM Environmental Incorporated.

We have compared the prices submitted on the single bid to previous bid prices. Attached is a table showing our comparison results, whereby the prices submitted on a number of the bid items are lower than that received in the last bid. Some of the items have increased however taken annually it appears the increase is around 13%. We attribute this to increased shipping costs as a result of rising fuel prices. Additionally the chemicals bid under these specifications are derivatives of petroleum for which they are also susceptible to the influence of rising fuel prices.

All in all the submitted prices appear competitive and I do not find them to be artificially higher a result of the single bid.

Please contact me at 673-2421 if there are any questions.

Thanks
