Supporting Information

Project Location & Description:

Resource, Inc. is a non-profit organization that empowers people to achieve greater personal, social and economic success. The company offers over 50 specialized programs in the areas of vocational rehabilitation, employment, chemical dependency, and mental health.

At this time, Resource, Inc. is requesting approval for the issuance of up to \$3.4 million in Bank Qualified Bank Direct Tax-Exempt 501(c)(3) Revenue Bonds. The proposed project will consist of: 1.) the refunding of previously issued revenue obligations in respect to the company's facilities located at 900 20th Avenue South, 1825 Chicago Avenue and 1826 Chicago Avenue all located in Minneapolis; 2.) refinancing bank indebtedness with respect to the 1825 Chicago Avenue facility; 3.) the potential purchase of a building located at 1906 Chicago Avenue; 4.) renovations to the Company's property at 1900 Chicago Avenue; and 5.) financing of miscellaneous renovations to any of the above mentioned properties.

Type of Financing:

Industrial Development Bonds (commonly known as IDBs or tax-exempt revenue bonds) have been used by the City of Minneapolis since 1972 to finance the capital needs of many small companies and organizations. In 2002, the City developed a financing program to provide cost-effective tax-exempt financing for small 501(c)(3) nonprofit organizations. Tax-exempt revenue bonds have often not been a practical financing option for small organizations in the past due to the high cost of borrowing. Providing a streamlined application and documentation process has resulted in lower borrowing costs for non-profits.

Within the existing federal tax code, there is the ability to issue bank qualified debt that local lenders can purchase and take advantage of the partial tax deductions on the interest earnings. With bank qualified status, banks are allowed to deduct 80% of their "carrying costs" associated with buying tax-exempt bonds. Banks get the dual benefit of tax-exemption and deductibility of carrying costs. This translates into lower borrowing costs for the nonprofit organizations that work with the City on the issuance of bank qualified debt. Bank qualified revenue bonds are underwritten and collateralized just like any conventional bank loan, but the interest rate to the borrower is lower due to the tax-exempt status.

The City of Minneapolis has had a Bank Qualified Revenue Bond Program since 2002, and since then the City has assisted almost 40 small nonprofit organizations in gaining access to capital. From 2002-2008, the City has been limited to the annual \$10 million limitation of bank qualified bond authority. However, the American Recovery and Reinvestment Act of 2009 (ARRA) increased this limit from \$10 million a year to \$30 million; and the limit now applies to the individual borrower instead of the issuer (City) in the case of conduit bonds for nonprofit organizations for 2009 and 2010. This provision in the ARRA greatly expands our availability of the bank qualified revenue bond program for nonprofits for the next two years.

The proposed MCDA Revenue Bonds are to be underwritten and purchased by Bremer Bank.
