If the proposed location is private property, the applicant shall provide written consent from the property owner.

(9) Each year at the time of filing the application for such a permit, the applicant shall pay to the city finance officer a sum as established in Appendix J, License Fee Schedule.

(c) Location review and restrictions. Proposed operating locations shall be reviewed as follows:

(1) Mobile food vendors may only operate within the boundaries of the district in section 465.10. The list of potential operating locations shall be available for review in the department of licenses and consumer services.

(2) Upon receipt of a complete application for a permit, the permit shall be referred to the director of public works for approval or disapproval. The use of the permit operating location for mobile food vending must be compatible with the public interest in use of the sidewalk areas as public right-of-way. In making such determination, the director of public works shall consider the width of the sidewalk, the weight that can be supported by the paving at the proposed location, the proximity and location of existing street furniture, including but not limited to, utility poles, parking meters, bus shelters, benches, street trees, newsracks, as well as, the presence of bus stops, truck loading zones, taxi stands, valet parking...
zones, or other approved sidewalk cafes or mobile food vehicles to determine whether the requested location would result in pedestrian or street congestion.

(3) The director of public works shall not approve a location where a mobile food vehicle would substantially impair the structural capacity of a sidewalk, movement of pedestrians or vehicles, or pose a hazard to public safety. The director shall not approve any location which is adjacent to a bus stop, taxi stand, or handicap loading zone, within thirty (30) feet of an intersection, within three (3) feet of a curb, or directly in front of a property entryway. Pedestrian walkways of no less than six (6) feet must be maintained around the mobile food vehicle.

(4) No mobile food vehicle vendor application will be accepted for a license operating location operating on a public sidewalk where a restaurant, with direct access to the sidewalk, is adjacent or within one hundred (100) feet on the same block. This requirement may be waived if the application is submitted with the written consent of the proprietor of the restaurant. No person or corporation shall either pay or accept payment for the written consent provided herein.

(5) The approved operating location shall be indicated on the permit and shall include the area of the mobile food vehicle. The permit must be prominently displayed on the vehicle.

(8) Licensee shall not operate any such business within five hundred (500) feet of any city, county, or state fair, carnival, circus, festival or civic event that is licensed or sanctioned by the city council except when licensee has obtained a temporary food permit from the director of licensing and consumer services as being a participant under the auspices and control of such event.

(9) Licensee shall not operate any such business within five hundred (500) feet of a controlled entrance to a regional sports arena or facility, except when the licensee has obtained written permission from the owner and furnished such written permission to the director of licensing and consumer services at least fifteen (15) days in advance of such use.

(d) **Approved food and beverage list.** The manager of environmental health shall maintain a record of approved food and beverage items which may be prepared and sold by mobile food vehicle vendors. Requests to have a food or beverage item considered for approval shall be submitted in writing to the manager of environmental health, who shall determine whether the food or beverage item is capable of preparation and service from the mobile food vehicle based on the equipment being used and the design and construction of the vehicle.
Form and condition of permit. In addition to naming the permittee, the approved operating location site diagram, and other information deemed appropriate by the director of licenses and consumer services, the mobile food vehicle vending permit shall contain the following conditions:

(1) Each mobile food vehicle vending permit shall expire on April first of each year.

(2) The permit shall not be transferrable from person to person or from place to place without approval of the director of licenses and consumer services.

(3) The approved operational location may be changed, either temporarily or permanently, by written notice of the director of licenses and consumer services or his or her designee.

(4) The permit is valid for one (1) vehicle only.

(5) There shall be issued to each permittee a suitable decal that shall be permanently and prominently affixed to the vehicle.

Restrictions. The mobile food vehicle shall comply in all respects with all requirements of state law, including but not limited to Minnesota Rules Chapter 1315, Chapter 1346, and Chapter 4626, and any requirements found in any other law, statute, rule, resolution, ordinance, or regulation of any kind and the following:

(1) All equipment must meet applicable National Sanitation Foundation (NSF) food service equipment standards.

(2) All foods, beverages, and ice must be obtained from an approved commercial source. Food cannot be stored in a home.

(3) Any food preparation or food storage done off-site must be accomplished at the primary licensed food establishment location. Food cannot be prepared in a home.

(4) Hours of operation shall be limited to the hours between 7:00 a.m. and midnight. The hours of operation for mobile food vehicles located within three hundred (300) feet of a residential building or a mixed use building with a residential component shall be limited to the hours between 7:00 a.m. and 10:00 p.m.. No approved mobile food vehicle shall be left unattended on a sidewalk nor remain on the sidewalk outside of these allowed hours of operation.

(5) Every approved mobile food vehicle vendor shall operate for a minimum of one hundred eighty (180) days during the license term.

(6) No mobile food vehicle vendor shall use or maintain any outside sound amplifying equipment, lights, or noisemakers, such as bells, horns, or whistles.

(7) All waste liquids, garbage, litter and refuse shall be kept in leak proof, nonabsorbent containers which shall be kept covered with tight-fitting lids and properly disposed of at the licensed food establishment. No waste liquids, garbage, litter or refuse shall be dumped or drained into
sidewalks, streets, gutters, drains, trash receptacles, or any other place except the licensed food establishment. The garbage receptacle shall be easily accessible for customer use. The permittee shall be responsible for all litter and garbage left by customers.

(8) The mobile food vehicle shall not have a drive-through.

(9) The manager of environmental health may summarily close any licensed food establishment, including a mobile food vehicle, pursuant to section 188.580.

(10) A mobile food vehicle vendor shall obey any lawful order of a police officer to move to a different permitted location to avoid congestion or obstruction of the sidewalk or remove the vehicle entirely from the sidewalk if necessary to avoid such congestion or obstruction.

(11) The mobile food vehicle shall comply with the provisions of section 466.280 and 536.20 relative to signage and advertising on the vehicle.

(12) No mobile food vehicle shall use external signage, bollards, seating, or any other equipment not contained within the vehicle.

(13) Any power required for the mobile food vehicle located on public sidewalks shall be self-contained and shall not use utilities drawn from the public right-of-way. Mobile food vehicles on private property may use electrical power from an adjacent property only when the owner provides written consent. All other power sources must be self-contained. No power cable or equipment shall be extended at grade across any city street or alley, or the Walk Zone of any city sidewalk.

(14) The height of the mobile food vehicle, including all accessory equipment, shall not exceed ten (10) feet for operation on a public sidewalk or thirteen (13) feet, six (6) inches for operation on a parking lot. The director of public works may reduce the allowed maximum height on a public sidewalk in a particular location in consideration of existing right-of-way obstructions, including trees.

(g) Permit adverse action. An application or approved permit may be denied, revoked, suspended, or not renewed, after notice and an opportunity for a hearing thereon, for any of the following reasons:

(1) The application contains material omissions or false, fraudulent, or deceptive statements.

(2) The vehicle is operated in such a manner as constituting a public nuisance per this Code or state statutes.

(3) The proposed operation is in violation of any federal, state, or local laws including, but not limited to, the provisions of this Code pertaining to food, fire prevention, and health or safety.

The provisions of this section are not exclusive. Adverse license action may be based upon good cause as authorized by Chapter 4, Section 16 of the Charter. This section shall not preclude the enforcement of any other provisions of this Code or state and federal laws and regulations.
188.490. Vehicles to be identified. Each vehicle, used for transporting perishable and readily perishable food, shall have printed on each side of said vehicle in plain letters not less than one (1) inch in height, the name and post office address of the licensee. (99-Or-119, § 1, 10-29-99)

188.500. Unpackaged processed food. (a) Unpackaged processed food, except readily perishable food as defined in section 186.50 of this Code, may be displayed and sold in bulk in self-service containers if all of the following conditions are satisfied:

2. Each self-service container has a utensil with a handle for dispensing the product.
3. Self-service containers, lids and utensils are constructed of nontoxic materials and provide for easy cleaning and proper repair.
4. Self-service containers, lids and utensils are maintained in a sanitary condition and in a manner that prevents spoilage and infestation.

(b) Unpackaged processed food may be displayed and sold in bulk in other than self-service containers if all the following conditions are satisfied:

1. Each sidewalk cart shall be separately licensed and may operate only at the location specified in the license, except as permitted in subsection (20). However, in the event a licensee holds licenses for more than one (1) location, the licensee may place any of the licensee's licensed carts at any location for which the licensee holds a license. No licensee may trade
carts or locations with another licensee; however, should a licensee apply for and be granted a different location for a cart during the licensing year and chooses to surrender the original location for that cart, the fee for such midseason cart location transfer shall be the fee indicated in section 188.250 of this Code for transfer alone.

(2) Application procedure:

a. Each applicant shall file an application with the department of licenses and consumer services on forms provided by the department. In addition to the requirements of section 188.180 of this Code, the director of licenses and consumer services may require such information on the application as the director considers reasonable and necessary.

b. No application for a single license or for the first of several licenses shall be accepted for filing unless the applicant files therewith plans and specifications for the cart which have been approved by the manager of environmental health. Provided, however, that if the cart is not ready and available for inspection sixty (60) days after the application is filed, the applicant's proposed operating location shall be available to other applicants, and the applicant shall be required to select a new location. No application from a single applicant for licenses beyond a first license shall be accepted for filing unless the applicant possesses sidewalk carts ready and available for inspection for each location beyond the first location. A single applicant, for the purposes of this section, shall mean an individual person, or any member of that person's immediate family and shall also include a corporation and any corporation with substantially the same ownership or ownership by persons of the immediate family of the stockholders of that corporation or partnership.

c. Each applicant shall include in the application a proposed operating location. The proposed location shall be referred to the director of public works for the approval or disapproval. The director of public works shall not approve a location where a sidewalk cart would substantially impair the movement of pedestrians or vehicles, or pose a hazard to public safety. Further, the director of public works shall not approve any location which is adjacent to a bus stop, taxi stand, or handicap loading zone, within fifty (50) feet of an intersection, within three (3) feet of a curb, or directly in front of a commercial entryway. If the applicant's proposed location is disapproved, the applicant shall be so notified, and the applicant may select an alternate location, which shall also be referred to the director of public works for approval or disapproval. A holder of a valid license for the previous license year may renew that license and thereby reserve that location for another license year. Any license not renewed by April fifteenth shall cause that location to become available to other applicants. Licenses may be renewed between April first and April fifteenth by the payment of a late fee in addition to the
license fee. All licensees shall be notified of the availability of locations which have been vacated or for which licenses have not been renewed. The notification shall include a due date for applicants for these locations and a date upon which a lottery will be held to choose among multiple applicants.

d. The director of public works shall refer the subject of sidewalk cart food vendors on the Nicollet Mall to the advisory board provided for in Minnesota Statutes, Section 430.101, subdivision 3. The advisory board shall report its recommendations concerning the number and location of sidewalk cart sites on the Nicollet Mall to the director of public works. The director of public works shall review the board’s report and prepare a list of approved locations on the Nicollet Mall. The list shall be available in the department of licenses and consumer services to any applicant or interested person.

e. No location which has been chosen in a previous application shall be available for selection.

(3) All sidewalk cart food vendor licenses shall expire on April first of each year subject to renewal year to year thereafter.

(4) No sidewalk cart shall have dimensions exceeding four (4) feet in width, eight (8) feet in length and eight (8) feet in height. However, a cart may be equipped with an awning which overhangs by not more than twelve (12) inches in any direction. Each sidewalk cart shall be self-propelled and capable of being moved and kept under control by one (1) person traveling on foot. A special license may be granted to a handicapped person to operate a sidewalk cart propelled by electric motor, provided that the applicant shall meet all other conditions for a license.

(5) Location restrictions:

a. Sidewalk cart food vendors may operate only within the area bounded by the following: Commencing at the intersection of Third Avenue North and the Mississippi River, thence southeasterly along the Mississippi River to Interstate 35 West, thence southerly along Interstate 35 West to Interstate 94, thence westerly and northerly along Interstate 94 to Glenwood Avenue, thence easterly to Tenth Street, thence northerly to Third Avenue North, thence northeasterly to the point of beginning or the sidewalk abutting the south side of Vineland Place between Lyndale Avenue South and Bryant Avenue South.

b. A sidewalk cart food vendor licensed under this section may operate on privately or publically owned property, within the boundaries described in subparagraph (1) above, with the express written consent of the property owner, and the approval of the director of public works.

(6) A sidewalk cart food vendor license shall not be transferable from person to person or from place to place without approval of the director of licenses and consumer services.
Every licensee shall maintain a permanent location within the City of Minneapolis for the storage and preparation of food and beverages carried by the licensee's sidewalk carts, and for the cleaning and servicing of those carts. Such permanent location shall comply in all respects with the requirements of the Minneapolis Food and Beverage Ordinances, and shall be separately licensed as a food distributor. **CHAPTER 204. ENVIRONMENTAL PRESERVATION: ENVIRONMENTALLY ACCEPTABLE PACKAGING**
204.10. Legislative purpose. The city council finds that discarded packaging from foods and beverages constitutes a significant and growing portion of the waste in Minneapolis' waste stream. Regulation of food and beverage packaging, therefore, is a necessary part of any effort to encourage a recyclable and compostable waste stream, thereby reducing the disposal of solid waste and the economic and environmental costs of waste management for the citizens of Minneapolis and others working or doing business in Minneapolis.

The council further finds that plastic packaging is rapidly replacing other packaging material, and that most plastic packaging used for foods and beverages is nondegradable, nonreturnable and nonrecyclable.

The council also finds that the two (2) main processes used to dispose of discarded nondegradable, nonreturnable and nonrecyclable plastic foods and beverage packaging, are land filling and incineration, both of which should be minimized for environmental reasons.

The council therefore finds that the minimization of nondegradable, nonreturnable and nonrecyclable food and beverage packaging originating at retail food establishments within the City of Minneapolis is necessary and desirable in order to reduce the city's waste stream, so as to reduce the volume of landfilled waste, to minimize toxic by-products of incineration, to make the waste stream less damaging to the environment, and to make our city and neighboring communities more environmentally sound places to live. (89-Or-060, § 1, 3-31-89; 96-Or-059, § 1, 6-28-96)

204.20. Definition. As used in this chapter, the following terms and phrases shall have the meanings as defined in this section:

(a) Packaging shall mean and include food or beverage cans, glass bottles, or plastic bottles.

(b) Environmentally acceptable packaging shall mean and include any of the following:

(1) Returnable packaging: Food or beverage containers or packages, such as, but not limited to, soft drink bottles and milk containers that are capable of being returned to the distributor, such as, but not limited to, dairies and soft drink bottlers, for reuse at least once as a container for the same food or beverage;

(2) Recyclable packaging: Packaging that is separable from solid waste by the generator or during collection for the purpose of recycling.

(c) Food establishment, as used in this chapter, means a "food establishment" as defined in section 188.10 of the Minneapolis Code of Ordinances.

(d) Director shall mean the director of environmental health of the regulatory services department of the City of Minneapolis or the director's designee. (89-Or-060, § 1, 3-31-89; 90-Or-067, § 1, 2-23-90; 96-Or-059, § 2, 6-28-96)
204.30. **Prohibitions and duties.** (a) No person owning, operating or conducting a food establishment within the City of Minneapolis shall do or allow to be done any of the following within the city: Sell or convey at retail or possess with the intent to sell or convey at retail any food or beverage contained, at any time at or before the time or point of sale, in packaging which is not environmentally acceptable packaging. The presence on the premises of the food establishment of packaging which is not environmentally acceptable packaging shall constitute a rebuttable presumption of intent to sell or convey at retail, or to provide to retail customers packaging which is not environmentally acceptable packaging; provided, however, that this subparagraph shall not apply to manufacturers, brokers or warehouse operators, who conduct or transact no retail food or beverage business.

(b) Packaging used to contain food or beverages consumed at the point of sale shall be considered environmentally acceptable packaging only when the food establishment provides consumers with an opportunity to recycle and utilizes a qualified recycling system. A qualified recycling system shall have the following elements:

1. A clear and verifiable process for separating recyclable packaging from discarded solid waste; and
2. Collection and delivery of recyclable packaging to a recycling facility for processing in the same or at least similar manner as recyclable packaging collected in a municipally approved recycling program. (89-Or-060, § 1, 3-31-89; 96-Or-059, § 3, 6-28-96)

204.40. **Enforcement.** The director shall have the duty and the authority to enforce provisions of this chapter. (89-Or-060, § 1, 3-31-89; 96-Or-059, § 4, 6-28-96)

204.50. **Rules and regulations.** The director may, upon notice and hearing, promulgate such rules and regulations as may be necessary to carry out the purposes of this chapter and protect the health of the public, including the development of exemptions under section 204.70 for packaging for which there is no commercially available alternative. In promulgating such rules, the director shall consider the legislative purposes provided in section 204.10 of this chapter and shall consult with the operators of affected food establishments. (89-Or-060, § 1, 3-31-89; 96-Or-059, § 5, 6-28-96)

204.60. **Advisory committee on environmentally acceptable packaging.** (a) The city council shall, by resolution, establish an advisory committee on environmentally acceptable packaging. The resolution shall provide for the membership, manner of appointment, the committee’s charge and its duration. 204.70. Exemptions. Notwithstanding any other provision to the contrary, this chapter shall not apply to:

(a) Any packaging used at hospitals or nursing homes;

(b) Any packaging which is not environmentally acceptable, but for which there is no commercially available alternative as determined by the director by rule promulgated pursuant to section 204.50. In determining whether there are commercially available alternatives, the director shall consider the following: (1) the availability of environmentally acceptable packaging for affected products; (2) the economic consequences to manufacturers, suppliers, retailers and other vendors of requiring environmentally acceptable packaging when available; and (3) the competitive effects on manufacturers, suppliers, retailers and other vendors involved in the sale of product brands or labels available only in packaging that is not environmentally acceptable packaging. Every rule creating an exemption under this paragraph shall be reviewed annually by the director to determine whether current conditions continue to warrant the exemption. (89-Or-060, § 1, 3-31-89; 90-Or-067, § 2, 2-23-90; 95-Or-044, § 1, 3-31-95; 96-Or-059, § 7, 6-28-96)

204.80. Penalties. Each violation of any provision of this chapter or of lawful regulations promulgated under section 204.50 hereof shall be a petty misdemeanor, for which the maximum fine shall be fifty dollars ($50.00). Each day on which a violation occurs constitutes a separate violation. (89-Or-060, § 1, 3-31-89)

204.90. License adverse action. A violation of section 204.30 shall be sufficient grounds for the revocation, suspension, denial or nonrenewal of any license for the food establishment at which the violation occurs. (89-Or-060, § 1, 3-31-89)

204.100. Severability. If any part or provision of this chapter or the application thereof to any person, entity, or circumstances shall be adjudged unconstitutional or invalid by any court of competent jurisdiction, such judgment shall be confined in its operation to the part, provision or application which is directly involved in the controversy in which such judgment shall have been rendered, and shall not affect or impair the validity of the remainder of this chapter or the application thereof to other persons, entities, or circumstances. (89-Or-060, § 1, 3-31-89)

204.110. Effective date. This ordinance shall take effect January 1, 1991. (89-
