Background/Supporting Information:

On February 15, 2008, the City Council approved the Asphalt Pavement Resurfacing Program. The purpose of this program is to extend the life of some city streets which are not scheduled for any preventative maintenance, renovation or reconstruction in the foreseeable future. This resurfacing program is targeting neighborhoods and MSA streets that are at a point in their life cycle where a new surface will extend the street's life and improve ride quality and neighborhood livability, and help slow the overall deterioration of our City street system.

The purpose of this letter is to designate the location, streets and improvements, and establish the special assessment improvement proceedings for street resurfacing.

The location of the street resurfacing project is Broadway St NE from Industrial Boulevard to the City limits. Broadway St NE at this location is a local city street. Broadway St NE from Stinson Blvd to Industrial Blvd was resurfaced in last years' program.

As provided in Chapter 10, Section 8 of the City Charter, submitted herewith is a list of parcels with owner's names, as nearly as can be readily ascertained, which would be benefited by and assessed for the Broadway St NE Phase II Street Resurfacing Project.

Also submitted is a cost estimate of \$462,400 for the Broadway St NE Phase II Street Resurfacing Project.

The street resurfacing special assessments would be determined by applying the 2011 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The proposed 2011 resurfacing assessment rates are unchanged from 2010 rates and are:

\$0.52 /sq ft – Non-Residential

\$0.20/sq ft – Residential
