Background/Supporting Information:

On February 15, 2008, the City Council approved the Asphalt Pavement Resurfacing Program. The purpose of this program is to extend the life of some city streets which are not scheduled for any preventative maintenance, renovation or reconstruction in the foreseeable future. This resurfacing program is targeting neighborhoods and MSA streets that are at a point in their life cycle where a new surface will extend the street's life and improve ride quality and neighborhood livability, and help slow the overall deterioration of our City street system.

The purpose of this letter is to designate the location, streets and improvements, and establish the special assessment improvement proceedings for street resurfacing.

The locations of the street resurfacing project are Shingle Creek Parkway from Humboldt Av N to 45th Av N and 45th Av N from 44th Av N to Lyndale Av N. Shingle Creek Parkway at this location is MSA route 188. Forty-fifth Av N at this location is MSA route 400.

As provided in Chapter 10, Section 8 of the City Charter, submitted herewith is a list of parcels with owner's names, as nearly as can be readily ascertained, which would be benefited by and assessed for the Shingle Creek Parkway and 45th Av N Street Resurfacing Projects.

Also submitted is a cost estimate of \$174,800 for the Shingle Creek Parkway Street Resurfacing Project and \$169,480 for the 45th Av N Street Resurfacing Project.

The street resurfacing special assessments would be determined by applying the 2010 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The 2010 resurfacing assessment rates are:

\$0.49 /sq ft – Non-Residential

\$0.19/sq ft – Residential
