ROOM 1-C CITY HALL, 350 S. 5th ST.
612-673-2080

Conditions of License
Owens Corning Fiberglass Corp., 1901 49th Ave. N.
Asphalt, Shingles & Roofing Manufacturer, Ward 4

Your license(s), if granted, will be based on the following conditions:

1. The company agrees to install, operate, test, and maintain the warning and alarm system for each converter on site according to manufacturer's specifications. Records of testing and maintenance shall be kept on site for 5 years and be immediately accessible to city staff.
2. The company agrees to install, operate, test, and maintain an automatic shutoff system that prevents overfilling of each converter. Records of testing and maintenance shall be kept on site for 5 years and be immediately accessible to city staff.
3. The company agrees to install, operate, test, and maintain a new overflow system that captures released asphalt and directs it to the ground for collection on each converter on site according to manufacturer's specifications. Records of testing and maintenance shall be kept on site for 5 years and be immediately accessible to city staff.
4. The Company will submit to MEM a copy of the complete wiring schematic of the above alarm equipment. A system inspection will be conducted by MEM staff within 90 days of License issuance. MEM understands that the information contained in the wiring schematic is proprietary business information and agrees that it will not disclose the information contained in those schematics to any third party without the prior written consent of the company.
5. The company agrees to set up a regular maintenance schedule of the equipment described in items 1, 2 and 3 and to regularly do checks according to manufacturer's specifications.
6. The company agrees to maintain its Emergency Action Plan. It will review the written plan annually and update it as needed regarding responses to accidental releases of asphalt or asphalt flux at the plant. It will keep a record of dates and changes made to the document.
7. The company will review emergency response procedures and recent changes to procedures relating to accidental releases of asphalt or asphalt flux with all staff annually. It will keep records of staff review including dates. The company will develop an emergency action plan regarding such releases for all new employees. It will keep a record of staff training, concerning such releases, including dates.
8. The company agrees to post the MN State Duty Officer and Minneapolis emergency response contact information for staff in appropriate locations.
