Background/Supporting Information:

On February 26, 2010, the City Council designated the location, streets and improvements proposed to be made in the Bryn Mawr neighborhood area.

The location of the street resurfacing project is bounded by Glenwood Av on the north, Morgan Av S on the east, I-394 on the south and Xerxes Av on the west. All of the streets being resurfaced in this project are local City designated streets.

The street resurfacing would be a mill and overlay of the street surface with plant mix asphalt and other paving related improvements as needed. This paving project is scheduled to begin in early summer of 2010 and will be constructed by the City's workforce.

The street resurfacing special assessments were determined by applying the 2010 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The 2010 resurfacing assessment rates as follows:

\$0.49 /sq ft – Non-Residential

\$0.19/sq ft – Residential

The proposed total assessment amount for the Bryn Mawr project is \$997,821.97. Individual assessments of more than \$150 would be collected over 5 years beginning on the 2011 real estate tax statements with interest charged at the same rate as the City pays in interest for selling assessment bonds. Assessments of \$150 or less would be collected in their entirety on the 2011 real estate tax statements with interest charged at the same rate as the City pays in interest for selling assessment bonds. Information has been provided in the Notices as to how persons may prepay the special assessments in full without interest if they so choose.

City Council has passed resolutions whereby a deferment of a special assessment may be obtained by showing hardship for any homestead property owned by a person 65 years of age or older or retired by virtue of a permanent and total disability.
