## **Background/Supporting Information**

The extension of Cedar Lake Trail from Royalston Avenue to West River Parkway is nearing the start of its construction. The bids have been received and we are in the process of executing the contract with the low qualifying bidder. We anticipate construction to begin in mid-July of this year with trail open to users by this November.

### Duddy LLLP Final Settlement

Since 2006, City staff has worked with the representatives of Duddy on how the Cedar Lake Trail Phase III project would pass along its property. In order to maintain the project schedule, in March 2009 the City Council authorized the use of eminent domain to acquire the necessary easements.

During this time discussions were also underway to use portions of parcels owned by Hennepin County Regional Railroad Authority (HCRRA). In early 2008, HCRRA contacted Public Works requesting that we investigate how the Cedar Lake Trail could be integrated with a possible future rail transit Multimodal Station. HCRRA had recently reevaluated their long-term transit vision and foresaw a higher rail transit volume for the corridor adjacent to the Trail than previously anticipated. The discussions culminated with HCRRA requesting that the City acquire permanent transportation easements in lieu of the trail easements Public Works had intended to obtain from Duddy. In March 2009, HCRRA and the City executed an agreement granting the use of its property and specifying, among other things, how the Duddy easement acquisition costs would be shared.

As the eminent domain process proceeded, the City and Duddy continued to negotiate and the parties shared their appraisals. The City's transportation and temporary construction easements appraised valuation of \$1,128,650 was submitted to the District Court Administrator as our Quick Take Deposit. In their appraisal, Duddy's valued the easements at \$2,195,500.

After further negotiations, the parties agreed to \$463,000 above the Quick Take Deposit as the tentative valuation for the settlement of all claims. The total payment for all cost associated with the acquisition of the permanent transportation and temporary construction easements would be \$1,591,650 (\$1,128,650 + \$463,000). Based on the City's agreement with HCRRA which included HCRRA's contribution for acquiring a transportation easement instead of a trail easement, the City will bear \$1,260,407 and HCRRA \$331,243 of the total cost of \$1,591,650.

Public Works agreed on the tentative settlement valuation based on the following factors. The City will surely incur additional attorney, appraisal and commissioners fees of its own to complete its eminent domain proceedings. Due to the recently enacted state eminent domain statute, property owner rights to recover attorney fees after condemnation have been strengthened. In our counsel's opinion along with the additional compensation above the Quick Take Deposit for the easements, Duddy would clearly be awarded compensation for their additional claims. Since Duddy LLLP has notified us that they will accept the tentative settlement, Public Work requests the approval of the terms and compensation and request authorization to have the proper City officers execute the final settlement agreement with the Duddy LLLP.

### Acquisition of Additional Parcel 21 Easements

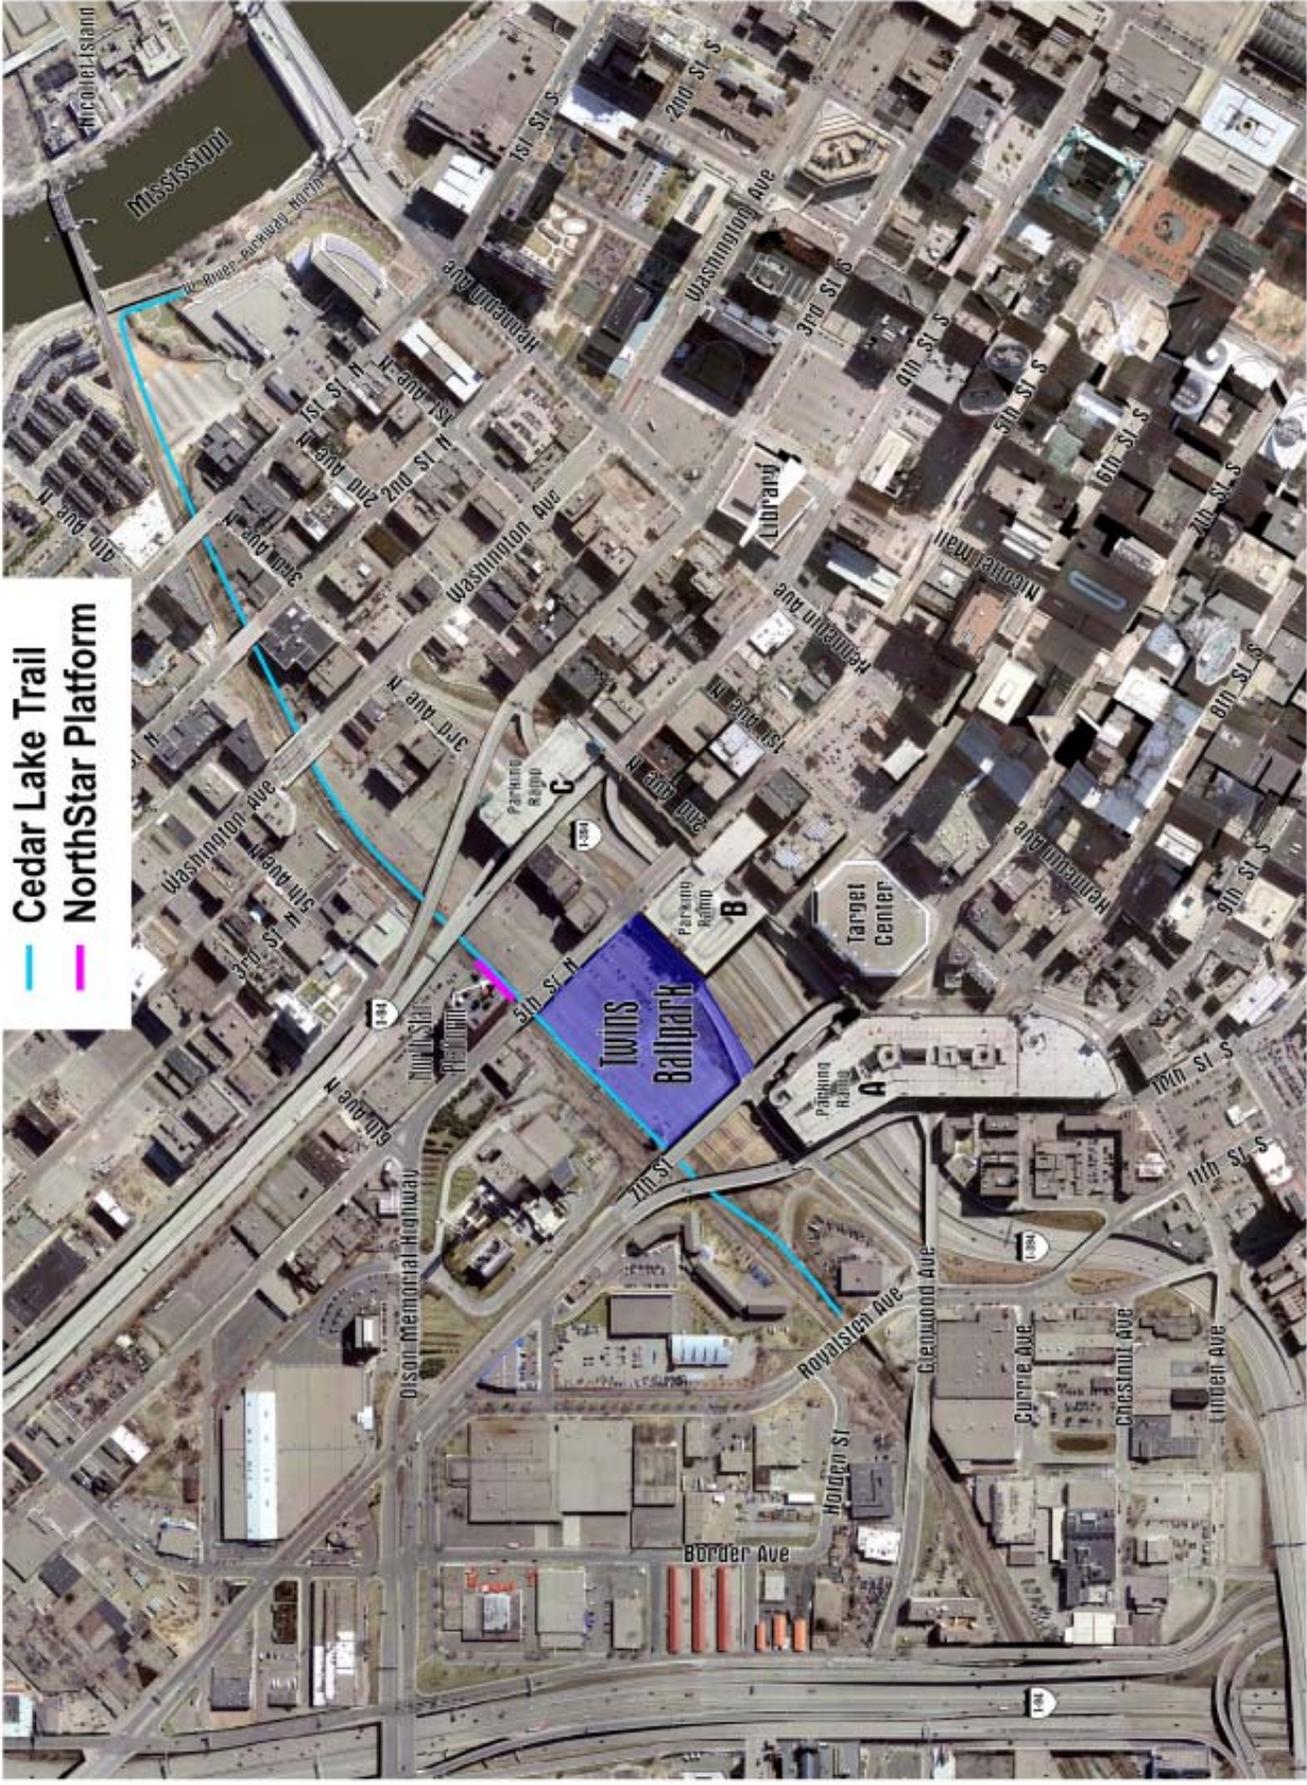

In January of this year, Public Works had believed all the right of way acquisition process for the Cedar Lake Trail--Phase III Project had been concluded and all rights necessary to build the project had either been acquired or were subject to completion of pending eminent domain proceedings. During the preparation of the pending eminent domain proceedings, it came to our attention that additional permanent easement over Parcel 21 should be acquired (currently 72 square feet, proposed increased to 161 square feet). It was also determined that temporary construction and permanent slope easements (~198 square feet) should also be acquired. The additional easements will assist with the construction of the trail.
