SUBJECT: Class 5 Aggregate Bid

Connie:

The Public Works Engineering Laboratory is recommending rejecting the apparent low bidder (Midwest Asphalt) for the Class 5 Aggregate Base bid. The "alternative" bid they submitted was for a recycled Class 7 aggregate, which does not meet the specifications put forth in our request for bids for a Class 5 base material.

We would recommend the awarding of the bid to Aggregate Industries, with 50% of the material hauled at the tractor trailer price of \$13.77 and 50% hauled at the tandem axle price of \$14.79.

Sincerely,

Joe Klejwa, P.E.
