

## **Lead Hazard Market Value Reduction Minnesota Statutes 2005, 273.11 Subd. 22**

### Steps to implementation

1. Designate an agency within the city or county to issue certificates of completion.
2. Set out qualifying criteria
  - A report by a licensed risk assessor or paint inspector showing lead present.
  - Work order or other documentation describing work completed.
  - Proof of cost of lead hazard reduction project.
  - Clearance report by licensed risk assessor clearance technician.
3. Create Certification of completion.
4. Create form for Assessors office.
5. Present to IGR
6. Provide information to community that this program is available.
