Background/Supporting Information:

On December 12, 2008, City Council adopted an ordinance that amended the Minneapolis Code of Ordinances by adding a new Chapter 465 that established the Downtown Business Improvement Special Service District.

A public hearing is required to approve the services and service charges for the Downtown Business Improvement Special Service District, commonly called the Downtown Improvement District or "DID".

The work or service provision in the DID will be managed and delivered by the non-profit entity called the Minneapolis Downtown Improvement District via a contract with the City. The scope of services and budget are described in the attached Operating Plan.

The assessments for the DID will be based on the following:

- a) Services that have a direct relationship to lineal footage, (e.g., sidewalk sweeping), are based on the lineal frontage of a property; and
- b) Services that benefit the entire District without relationship to lineal frontage (e.g., security ambassadors) are based on the property's Gross Building Area (or land area if undeveloped) per City Assessor records. This addresses the relationship between the quantity of people within a building and the use of the District services.
- c) The District is divided into different service areas based on the needs of the District. In 2010, the District will have the same three service areas as in 2009: core; standard plus; and standard. Property owners in the core area will receive a higher level of services than those in the standard plus area, which will in turn receive more than those in the standard are, and costs will be pro-rated accordingly.

Residential, government and certain non-profit properties are exempt from the assessment but may opt in to receive services. Some city-owned properties are included in the assessments.

The total budget exceeds the total service charge (assessments) by \$74,355, an amount to be raised through other sources.

T&PW - Your Committee, having under consideration the Downtown Business Improvement Special Service District, now recommends passage and summary publication of the accompanying Resolution approving special services, the cost estimates, service charges and the lists of service charges for 2010 in the Downtown Business Improvement Special Service District and directing the City Engineer (with the Minneapolis Downtown Improvement Service District) to proceed with the work.
