X No financial impact (If checked, go directly to Background/Supporting Information).

Background/Supporting Information Attached

On March 31, 2006, the Council approved the expenditure of state Local Public Health funds for youth violence prevention. Along with the approval was a staff directive to develop recommendations for budget decisions on the expenditure of public health dollars. The City Five Year Goals and the development of an Urban Health Agenda will guide the Health and Family Support Department business planning which provides a structure for Mayor and Council budget decision-making.
