The Department is requesting approval of the following list of agencies recommended by the Public Health Advisory Committee (PHAC) for HUD CDBG Public Service funding for Years 37 and 38. These agencies were selected following a competitive RFP process that involved notifying over 500 community agencies and individuals about the availability of the funds. A total of 54 proposals were received with requests for \$3.6M in funding for the available maximum of \$400,000. A review committee consisting of representatives from the Public Health Advisory Committee, and community representatives that reflected both expertise in the priority areas and cultural competency, provided the review for PHAC discussion and recommendations.

The second list is agencies recommended by the PHAC to be approved but not funded under the current funding cap. Funding may be awarded to one or more agencies if any of the funded agencies is unable to comply with programmatic requirements or if additional funding becomes available.
