Amending Title 5, Chapter 115 of the Minneapolis Code of Ordinances relating to Building Moving.

The City Council of the City of Minneapolis do ordain as follows:

Section 1. That Sections 115.30 and 115.40 of the above-entitled ordinance be amended to read as follows:

115.30. Permit required. Every licensed building mover shall, in each and every instance, before raising, holding up or moving any building from and/or to a location within the city limits, obtain a permit therefor from the director of inspections.

~~115.40. Procedure for permit. If any person desires to have any building moved to a location within the city limits, such person shall first obtain a council permit from the city council. Said permit shall contain an approval of the new site to which the building is to be moved. A licensed building mover shall file such permit with the director of inspections. Thereupon, the director shall grant such licensed building mover a moving permit to move said building. Said moving permit shall state specifically the route to be taken and all movement requirements designated by the city engineer and shall limit the time for the removal of said building. No building permit for the foundation, construction, alteration, or repair of such building shall be issued until such moving permit has been filed. Additionally, no building permit will be issued until a site plan is provided indicating building orientation and the locations of all building entrances in compliance with applicable zoning requirements. In no case shall a building be moved that is not worth sixty (60) per cent of the cost of a similar new building.~~
