Background/Supporting Information:

On March 10, 2011, the City Council designated the location, streets and improvements proposed to be made in the 6th St S and 7th St S areas. The cost estimate for 6th St S is \$1,261,513 and \$528,870 for 7th St S.

The street resurfacing would be a mill and overlay of the street surface with plant mix asphalt and other paving related improvements as needed. These paving projects are scheduled for summer or fall of 2011 and will be constructed by the City's workforce.

The street resurfacing special assessments were determined by applying the 2011 Uniform Assessment Rates to the land area of benefited parcels located within the street influence zone along the improved streets. The 2011 resurfacing assessment rates as follows:

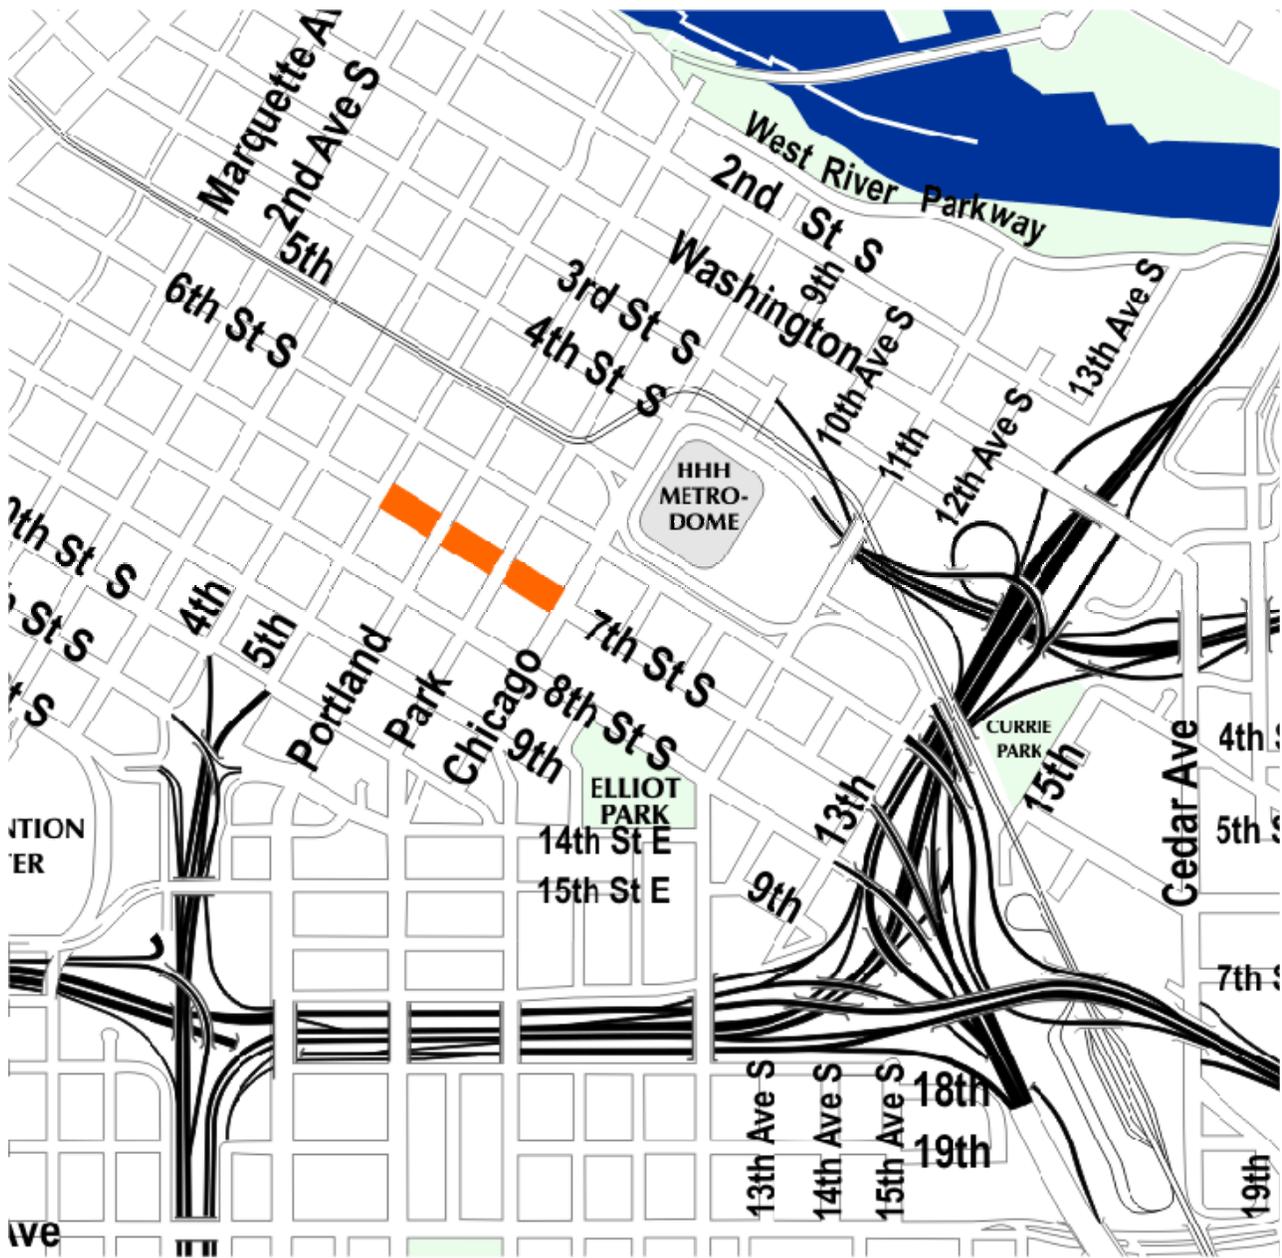

\$0.52 /sq ft – Non-Residential
\$0.20 /sq ft – Residential

The proposed total assessment amount for the 6th St S project is \$134,301.81. The proposed total assessment amount for the 7th St S project is \$38,420.62. Individual assessments of more than \$150 would be collected over 5 years beginning on the 2012 real estate tax statements with interest charged at the same rate as the City pays in interest for selling assessment bonds. Assessments of \$150 or less would be collected in their entirety on the 2012 real estate tax statements with interest charged at the same rate as the City pays in interest for selling assessment bonds. Information has been provided in the Notices as to how persons may prepay the special assessments in full without interest if they so choose.

City Council has passed resolutions whereby a deferment of a special assessment may be obtained by showing hardship for any homestead property owned by a person 65 years of age or older or retired by virtue of a permanent and total disability.
