For Immediate Release:
November 24, 2008

Neighborhood meeting for input on Lyn-Lake area planning

WHAT: The City of Minneapolis, along with Lyn-Lake area neighborhoods and businesses, is continuing work on a small area plan to guide future development in the Lyn-Lake area.

The public is invited to attend the third in a series of community meetings that will help shape the plan of the Lyn-Lake area. There will be opportunities, at this meeting, to review computer modeling of existing buildings and what's allowed under current zoning and to view and discuss sketches of what future development in the Lyn-Lake area might look like.

WHEN: December 18, 2008, 7:00-9:00p.m.

WHERE: Intermedia Arts, 2822 Lyndale Ave S., Minneapolis

MORE: A small area plan is a document that is developed for a clearly defined geographic area that outlines a long-range vision for land use and development. A small area plan shares the goals, policies and implementation steps in the City's comprehensive plan while providing a finer level of detail.

The plan examines the current conditions of the area, develops a future vision of what residents, business owners, and other stakeholders want an area to become and then formulates specific goals, objectives, and policies that will help implement that vision. The Lyn-Lake Small Area Plan will be based on input received through a series of public meetings. All meeting notices and summaries will be posted on the site below along with all study documents.

Additional information can be found at
<http://www.ci.minneapolis.mn.us/cped/Lyn-Lake.asp>.

The meeting site is wheelchair accessible; if you need other disability related accommodations, such as a sign language interpreter or materials in alternative format, please contact Krista Bergert at 612 673 5015.
