

Inventory of Existing Signs

INVENTORY OF EXISTING SIGNS

EXISTING SIGNS

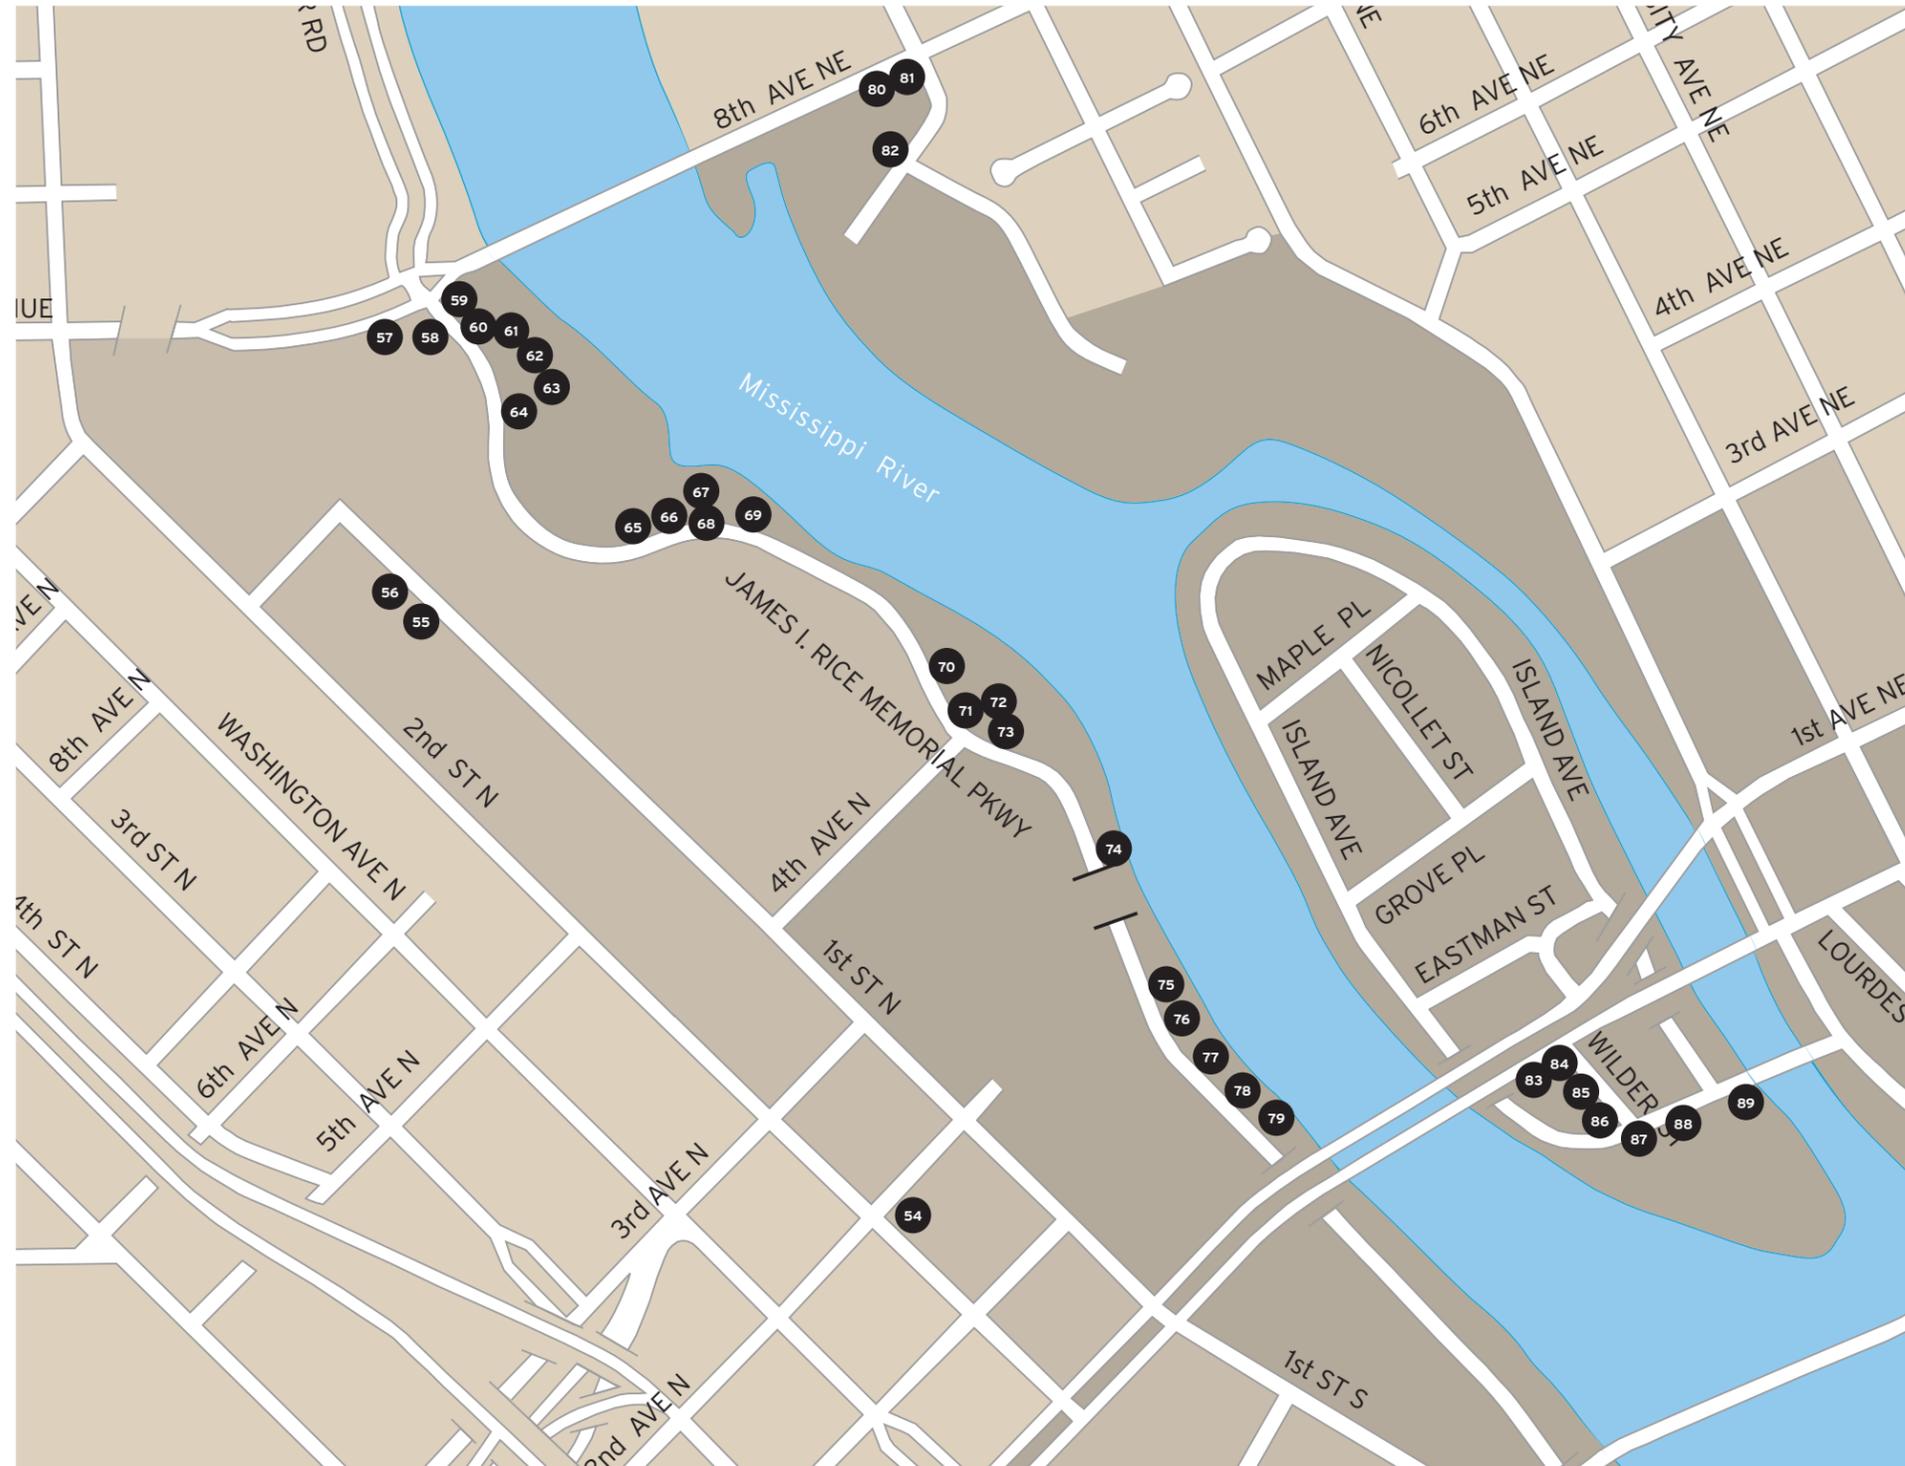

Following is an inventory of signs within the designated Minneapolis Riverfront District. It includes directional signs, Minneapolis Park and Recreation Board signs and trail markers, Heritage Trail interpretive signs, neighborhood signs and parking entrance signs. It does not include destination signs or MnDOT traffic regulatory signs.

This inventory helps us better understand the current situation regarding signage in the District. This research was used to make decisions about which signs or graphics to incorporate into the new system, which to eliminate and which to leave in place.

SCHEDULE FOR EXISTING SIGNS

REMOVAL

At the time new directional signs are installed, these signs can be removed. Mississippi Mile is replaced with Minneapolis Riverfront District, and new traffic signs provide direction to destinations.

REPLACE

These signs are to be replaced with the new District standard. For optimum consistency and unification, parking lot entrance signs would be replaced with the new District standard. Great River Road signs will be integrated with new District structure. Responsibility and timing are yet to be determined.

MODIFY

Heritage Trail kiosks are to be modified to new Riverfront standards. Modifications would include painting cabinets and applying the metal ornament to the top. Graphic panels would be replaced with new maps and information. Historic information would remain, or be incorporated within the modification.

MINNEAPOLIS PARK AND RECREATION BOARD

The Minneapolis Park and Recreation Board will consider if they wish to adopt the proposed Riverfront framework structure for their signs that are located within the Minneapolis Riverfront District.
