## **MEMORANDUM**

**TO:** Heritage Preservation Commission  
**FROM:** Brian Schaffer, Senior City Planner 612.673.2670  
**DATE:** February 24, 2009  
**RE:** Demolition Update: January 2009

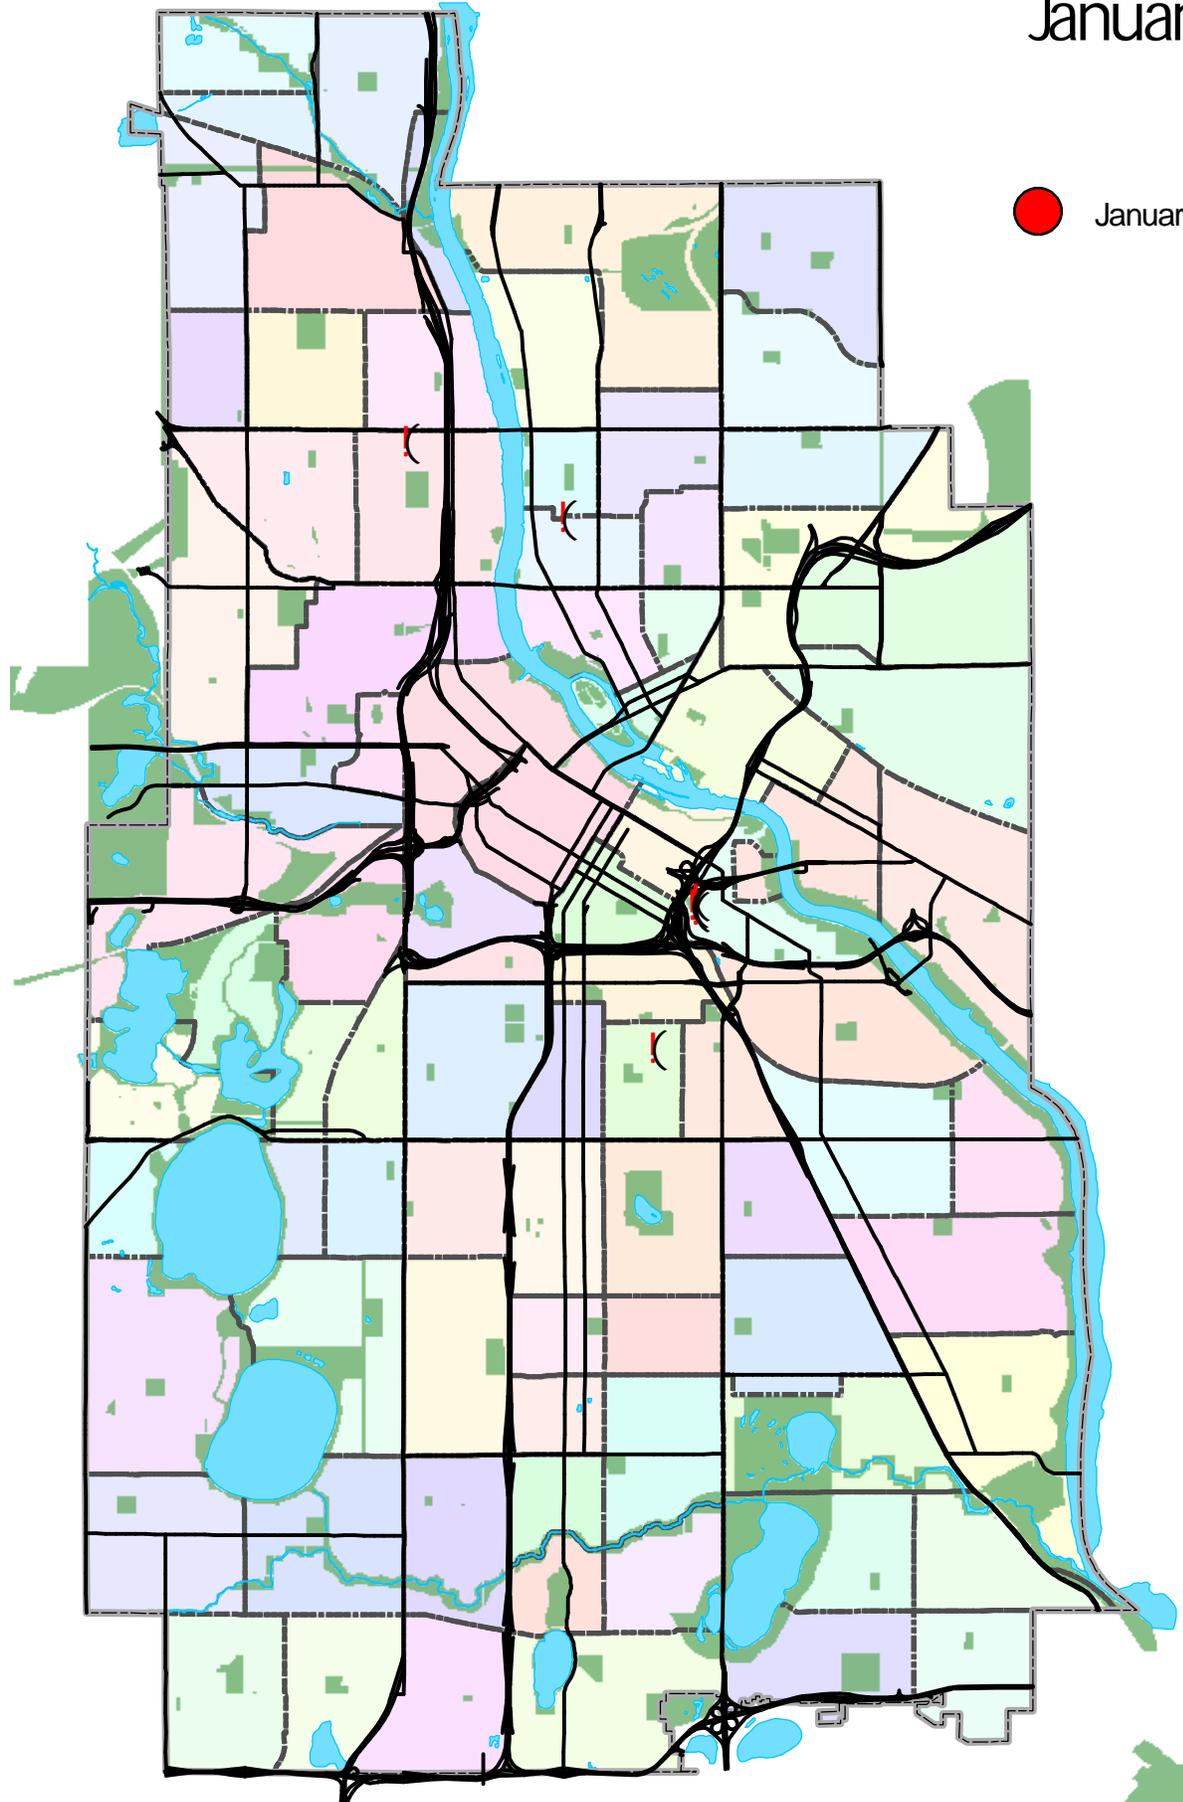

---

Seven properties were reviewed and approved for demolition in January 2009. In 2008, 317 properties were reviewed and approved for demolition by staff.

In the upcoming year, staff plans on introducing the concept of embodied energy into this report. In its simplest definition, embodied energy is the energy required to extract, process, manufacture, transport, and install building materials. Every structure that is demolished results in the loss of some or all of this embodied energy. We will be exploring ways to quantify the embodied energy lost and energy spent due to demolitions in Minneapolis.
