METHODOLOGY INSTRUCTIONS

The NSP3 mapping tool now provides a summary IISNP3 score for all projects drawn. Click on "View Projects", which will list all of the projects (target areas) that have data calculated. It shows the IISNP3 score for each target area along with the total estimated housing units in that area. At the bottom of the list is a sum of all housing units in all target areas and the IISNP3 score for all target areas drawn. Grantees are advised to know their state minimum and if the summary score is less than the state minimum the grantee should delete, add, or revise target areas. Note that if you delete or add, the tool only recalculates after you close the "View Projects" box and reopen it. HUD also advises grantees to think carefully
