Small Area Plan(s)	Historic Mills Master Plan and Update

Date Application Deemed Complete	Not applicable	Date Extension Letter Sent	Not applicable
End of 60-Day Decision Period	Not applicable	End of 120-Day Decision Period	Not applicable

BACKGROUND

This application was continued from the City Planning Commission meetings of August 26th, September 19th, October 28th, and December 2nd, 2013, January 13, 2014, and March 24, 2014. The City of Minneapolis Department of Community Planning and Economic Development filed an application to vacate the remaining no-outlet alley adjacent to the property of 300 2nd Street South and 333 1st Street South. The City currently owns the property of 300 2nd Street South. This application was continued from the August 26, 2013 meeting of the Planning Commission to allow additional time to assess whether or not the vacation of the alley would create or increase the nonconformity of the adjacent property of 333 1st Street South with the building code requirements for fire separation due to the existence of windows on the side of the building abutting the alley. Additional information has been obtained to address those concerns. However, the property owner of 333 1st Street South has requested an access and maintenance easement to retain access to 3rd Avenue South and to allow additional room for maintenance on the south side of the building. City staff is considering this request. There have been complications in drafting the cross easement that are close to being resolved, but additional time is still needed. Therefore, staff is recommending that the planning commission continue the vacation application to a future meeting date in order to allow the City to consider the access easement request and to allow time for any necessary authorization to allow it.

RECOMMENDATIONS

Recommendation of the Department of Community Planning and Economic Development:

The Department of Community Planning and Economic Development recommends that the City Planning Commission continue the alley vacation to the City Planning Commission meeting of June 9, 2014.
