Minor Subdivision Application
MS-137

Date: December 20, 2005

Applicant: Greater Minneapolis Properties LLC

Address of Property: 4143 Fremont Avenue North

Project Name: Not applicable.

Contact Person and Phone: Moshe Weiss 651-398-4850

Planning Staff and Phone: Jim Voll 612-673-3887

Date Application Deemed Complete: November 15, 2005

End of 60-Day Decision Period: January 14, 2006

Ward: 4 **Neighborhood Organization:** Camden-Webber

Existing Zoning: R4 Multiple-family District

Proposed Zoning: Not applicable for this application.

Zoning Plate Number: 4

Legal Description: See survey.

Existing Use: A duplex.

Concurrent Review: Minor subdivision.

Development Plan: The survey showing the existing duplex is attached.

Background: The house at 4143 Fremont Avenue North is a recently constructed side by side duplex. The applicant is proposing a “party-wall” split to allow separate ownership of the two units of the existing duplex.

Required Findings:

1. The subdivision is in conformance with the land subdivision regulations, the applicable regulations of the zoning ordinance and policies of the comprehensive plan.

The subdivision is in conformance with the design requirements of the zoning code and the land subdivision regulations. The comprehensive plan shows this area as appropriate for residential development.

2. The subdivision will not be injurious to the use and enjoyment of other property in the immediate vicinity, nor be detrimental to present and potential surrounding land uses, nor add substantially to congestion in the public streets.

The site contains a side by side duplex with a garage. No new units will be added.

3. All land intended for building sites can be used safely without endangering the residents or uses of the subdivision and the surrounding area because of flooding, erosion, high water table, soil conditions, improper drainage, steep slopes, rock formations, utility easements or other hazard.

The site does not present the above hazards. No building sites are being created. The duplex is existing.

4. The lot arrangement is such that there will be no foreseeable difficulties, for reasons of topography or other conditions, in securing building permits and in providing driveway access to buildings on such lots from an approved street. Each lot created through subdivision is suitable in its natural state for the proposed use with minimal alteration.

No change to existing access or grading is proposed.

5. The subdivision makes adequate provision for stormwater runoff, and temporary and permanent erosion control in accordance with rules, regulations and standards of the city engineer and the requirements of the land subdivision regulations. To the extent practicable, the amount of stormwater runoff from the site after development does not exceed the amount occurring prior to development.

Existing utility and drainage provisions are adequate for the existing and proposed development.

Recommendation of the Community Planning and Economic Development Department – Planning Division for the minor subdivision:

The Community Planning and Economic Development Department – Planning Division recommends that the City Planning Commission adopt the above findings and **approve** the application for minor subdivision down a party wall for property located at 4143 Fremont Avenue North.
