Attach two photographs of each box from two different views (so that **all four sides are being shown**). Each view/ photo should show the box in context to the surrounding streetscape. Each photo should be labeled with the number corresponding to the box as listed in the table above. Also attach a map of the locations.

(Note: Please do not use screenshots of Google street view/earth/maps, Google is not always up to date and may not represent the current box, box type, or conditions)

1 A

1 B

- Please label images according to how they are listed in the Table.
- Make sure images show all four sides of the Box.
- Images should also show surrounding area.
- DON'T take screen shots of GOOGLE STREET VIEW, not up to date.
