Receipt of this addendum SHOULD be acknowledged on the Bid Form.

Bids opened 10 AM, Local Time, December 20th, 2011

Purchasing Department
City of Minneapolis

Item No. 1:

Stand 109, the differences on the counter are:

1. Add sneeze guards at two locations
 - a. One center type
 - b. One right hand type

2. Eliminate one griddle location
 - a. That is griddle cutout and shelf
 - b. One left hand sneeze guard

See Stand 109 Drawing

Item No. 2:

Per Section 8 of the Specification - Counters to have built-in drop shelves to accept electric griddles. Cooking surface of griddle must be flush with finished surface of counter. Refer to cut sheet 4.62. Electric griddles supplied by others. Refer to Appendix A and B for quantities and locations.

Item No. 3:

Question - Can you give a more detailed description of the construction specifications on the breath protectors? (model number or style, physical sizes, material/finish/lights or built in warmers, style of mounting to the counter, etc.)

Answer - This is a custom fabrication. We know that the top edge needed to be 60 inches above finished floor. The bidder has the cut sheets of the griddle that they go around. The bidder also has a plan that the openings can be scaled to give them the measurements to bid. It is up to the bidder to tell us how they will fasten them to the counter as specified in the bid spec. #8. No warmers. No lights.
