Capital Budget Narrative Overview

CAPITAL IMPROVEMENT BUDGET DEVELOPMENT

The City has a five-year capital improvement program (CIP). Annually, City departments & independent boards and commissions prepare new and/or modify existing capital improvement proposals. The Finance & Property Services Department staffs the Capital Long-Range Improvement Committee (CLIC) process where capital budget requests are first reviewed.

CLIC is a citizen advisory committee to the Mayor and City Council. The committee is authorized to have 33 appointed members, composed of two members per Council Ward and seven at-large members appointed by the Mayor. The committee elects a Chair and Vice Chair and breaks itself into two programmatic task forces of approximately the same number of members. Each task force elects a Chair and Vice Chair. Collectively, these six elected members form the Executive Committee and represent CLIC in meetings with the Mayor and City Council.

The two task forces are currently titled “Transportation” and “Human Development.” The task forces receive and review all Capital Budget Requests (CBRs) for their program areas as submitted by the various City departments, independent boards and commissions.

During several half-day or full-day meetings, departments and boards formally present their needs and offer explanations for their requests. Task force members then rate all proposals using a rating system with specific criteria and create a numerical ranking for each project. Highest-ranking priorities are then balanced against available resources by year to arrive at a five-year capital improvement program recommendation to the Mayor and City Council.

For this five-year plan covering years 2013 - 2017, there were 96 CBRs reviewed and rated. The total requested capital budget for the five years was \$670.59 million.

CLIC’s recommendations serve as the basis from which the Mayor and City Council’s decisions are made. The Mayor makes recommendations on the capital budget as well as the operating budget. The Council adopts the five-year capital plan simultaneously with the operating budget.

HIGHLIGHTS OF THE 2013-2017 CAPITAL IMPROVEMENT PROGRAM

Five-Year Capital Program Totals: For 2013 – 2017, the five-year capital program for City departments, independent boards and commissions totals \$605.07 million including all funding sources. The 2013 portion of this program is \$121.45 million. This budget funds accelerated improvements to the City’s infrastructure by continuing support to the expanded net debt bond program that was put in place last year.

The table below provides a high level summary by year of the Mayor's Recommended five-year capital program including all funding sources:

Property Tax Supported Net Debt Bond Program:

The Net Debt Bond (NDB) program is paid for with property tax collections. The five-year financial direction for the bond redemption levy includes increases in 2014 and more significant increases in 2015 and beyond for capital improvements. These increases are possible due to improvements in the internal service fund financial plans which reduce the demand for property tax resources. The plan to pay off the remaining pension bonds in 2012 also creates financial capacity to continue the expanded net debt bond program. These property tax supported bonds help to leverage many other funding sources in the five-year plan. Below are highlights of certain NDB totals (in millions) – individual project funding details are contained later in this document.

Expanded NDB Resources for Capital Improvements: The base NDB funding levels were increased in the 2012 – 2016 capital program by \$56 million from \$94 million to \$150 million. For 2013 – 2017 and future years, the intent is to sustain a higher level of NDB funding to continue the infrastructure acceleration program which would otherwise have concluded in 2013. This capital infusion will improve all classes of City infrastructure with a greater emphasis on paving projects, parks, traffic signals and economic development projects that enhance the property tax base. These additional resources are combined with municipal state aid, special assessments and Infrastructure Acceleration Program (IAP) funds. Total funding for individual projects can be found in the “Capital Budget Detail for Funded Projects” report later in this document.

\$ mils	2013	2014	2015	2016	2017	TOTAL
Net Debt Bond funding totals	\$40.24	\$29.60	\$29.16	\$25.00	\$25.00	\$149.00

Public Works – NDB funding: The 2013 capital budget includes \$28.77 million in NDB funding for Public Works projects. Included in the five-year plan is \$6.8 million for infrastructure projects related to economic development to enhance the property tax base. These economic development projects will be managed by the Community Planning and Economic Development Department in cooperation with the Public Works Department as part of the Street Paving section of the capital program. Below is a summary of the 2013 - 2017 NDB allocation for the Public Works infrastructure program.

\$ mils	2013	2014	2015	2016	2017	TOTAL
Net Debt Bond funding	\$28.77	\$19.76	\$17.82	\$14.81	\$12.77	\$93.93

Neighborhood Parks NDB and other funding sources: The 2013 capital budget includes \$7.5 million for Park improvements including \$5.0 million of net debt bonds, \$1.5 million of Park capital levy and \$.125 million of infrastructure acceleration funding. Below is a summary of the total 2013 – 2017 funding for neighborhood parks capital improvements, excluding the Diseased Tree Program.

\$ mils	2013	2014	2015	2016	2017	TOTAL
Net Debt Bond funding	\$ 5.00	\$ 2.50	\$ 2.50	\$ 2.50	\$ 2.50	\$15.00
Park Capital Levy	\$ 2.00	\$ 1.50	\$ 1.50	\$ 1.50	\$ 1.50	\$ 8.00
Infrastructure Acceleration	\$.13					\$.13
Other Local Governments	\$.37					\$.37
Total Neighborhood Parks	\$ 7.50	\$ 4.00	\$ 4.00	\$ 4.00	\$ 4.00	\$23.50

In addition to the neighborhood parks funding mentioned above, the Park Board also allocated additional Park Capital Levy funding for parkway paving and parkway street lighting of \$4 million and \$6.25 million respectively in this five-year capital plan. These projects will be managed by the Public Works Department and will also contain additional funding sources including net debt bonds, special assessments and other local government funding.

NDB funding for Municipal Building Commission (MBC), Information Technology and Miscellaneous Projects: The 2013 capital budget includes \$6.47 million in NDB funding for these categories. Projects include public art, technology related improvements and physical building, office space and security improvements for Police, Fire and other City buildings, including City Hall. These categories use 26.9% of the available NDB resources in the five-year plan. Below is a summary of the 2013 - 2017 NDB funding for MBC, Information Technology and Miscellaneous projects.

\$ mils	2013	2014	2015	2016	2017	TOTAL
Net Debt Bond funding	\$ 6.47	\$ 7.34	\$ 8.83	\$ 7.70	\$ 9.73	\$40.07

Infrastructure Acceleration Program (IAP): In addition to the NDB funding above, this capital budget completes the infrastructure acceleration program with \$1.43 million for 2013. This program which was implemented from 2009 to 2013 helped to accelerate improvements to paving projects, economic development, street lighting, pavement and bikeway maintenance and park infrastructure improvements. Funding came from one-time trust funds and leveraged other funding sources – funding for individual 2013 projects is identified as “Transfer from Special Revenue Funds” later in this document.

Utility Fee Supported Capital: The 2013 - 2017 capital budget includes funding for sanitary and stormwater sewers, water and parking related infrastructure improvements which are supported by utility rates and parking fees. Long-term financial plans are used to determine utility fees and parking rates required to support operations and infrastructure costs. Individual project details and utility rate details can be found later in this document.

Below is a summary of the Mayor's Recommended capital budgets for these businesses:

Submitting Agency	Infrastructure Category	2013	2014	2015	2016	2017	Total	Percent of Total

Relationship between the Capital and Operating Budgets: As part of each capital budget request, submitting agencies identify whether the capital request will result in an increase or decrease in annual operating costs. Departments are instructed to manage operating cost increases or decreases within existing operating budget funding levels.

CITY DEBT

Minneapolis' total general obligation debt decreased from \$883 at 12/31/2011 to an estimated \$763 at 12/31/2012.

The City has not yet issued any bonds in 2012 but is currently planning a bond sale. The current plan calls for the issuance of \$31.40 million of new money bonds to support various capital programs and \$60.26 million of refunding bonds to replace existing bonds with lower interest rates which will reduce future interest costs. The debt graphs and tables that follow include the issuance of these anticipated bond issues to provide estimated year end 12/31/2012 debt balances. The balances above do not include new bonds to be issued for Target Center improvements since the amounts are undetermined but bond issuance could occur later in 2012 or sometime in 2013. Details regarding the specifics of the bonds issued will be provided in the 2013 City Council Adopted Budget.

The City had the following general obligation note activity in 2012:

In December 2011, the City entered into contracts for two general obligation term loan notes totaling \$43.82 million with a local bank to refund the remaining balances of five series of variable rate bonds. The general obligation tax-exempt variable rate refunding notes are being issued to replace Dexia Credit Local as the liquidity provider on the variable rate bond series. The refunding transactions took place on January 3, 2012 at which time the notes were drawn in full.

Proceeds from the \$15.84 million General Obligation Term Loan Note Series 2011A along with funds on hand were used to redeem \$5.82 million of General Obligation Block E Bonds, Series 2000A, \$7.11 million of General Obligation Various Purpose Refunding Bonds, Series 2003 and \$3.86 million of General Obligation Tax Increment Bonds (Mill Quarter Ramp), Series 2005 bonds. The interest rate on the note is equal to 70% of the one-month LIBOR rate plus a spread. The final maturity date on the Series 2011A note will be December 1, 2032.

Proceeds from the \$27.98 million General Obligation Term Loan Note Series 2011B along with funds on hand were used to redeem \$15.61 million of General Obligation Guthrie Parking Ramp Bonds, Series 2003 and \$13.30 million of General Obligation Guthrie Parking Ramp Bonds, Series 2005. The interest rate on the note is equal to 70% of the one-month LIBOR rate plus a spread. The final maturity date on the Series 2011B note will be December 1, 2033.

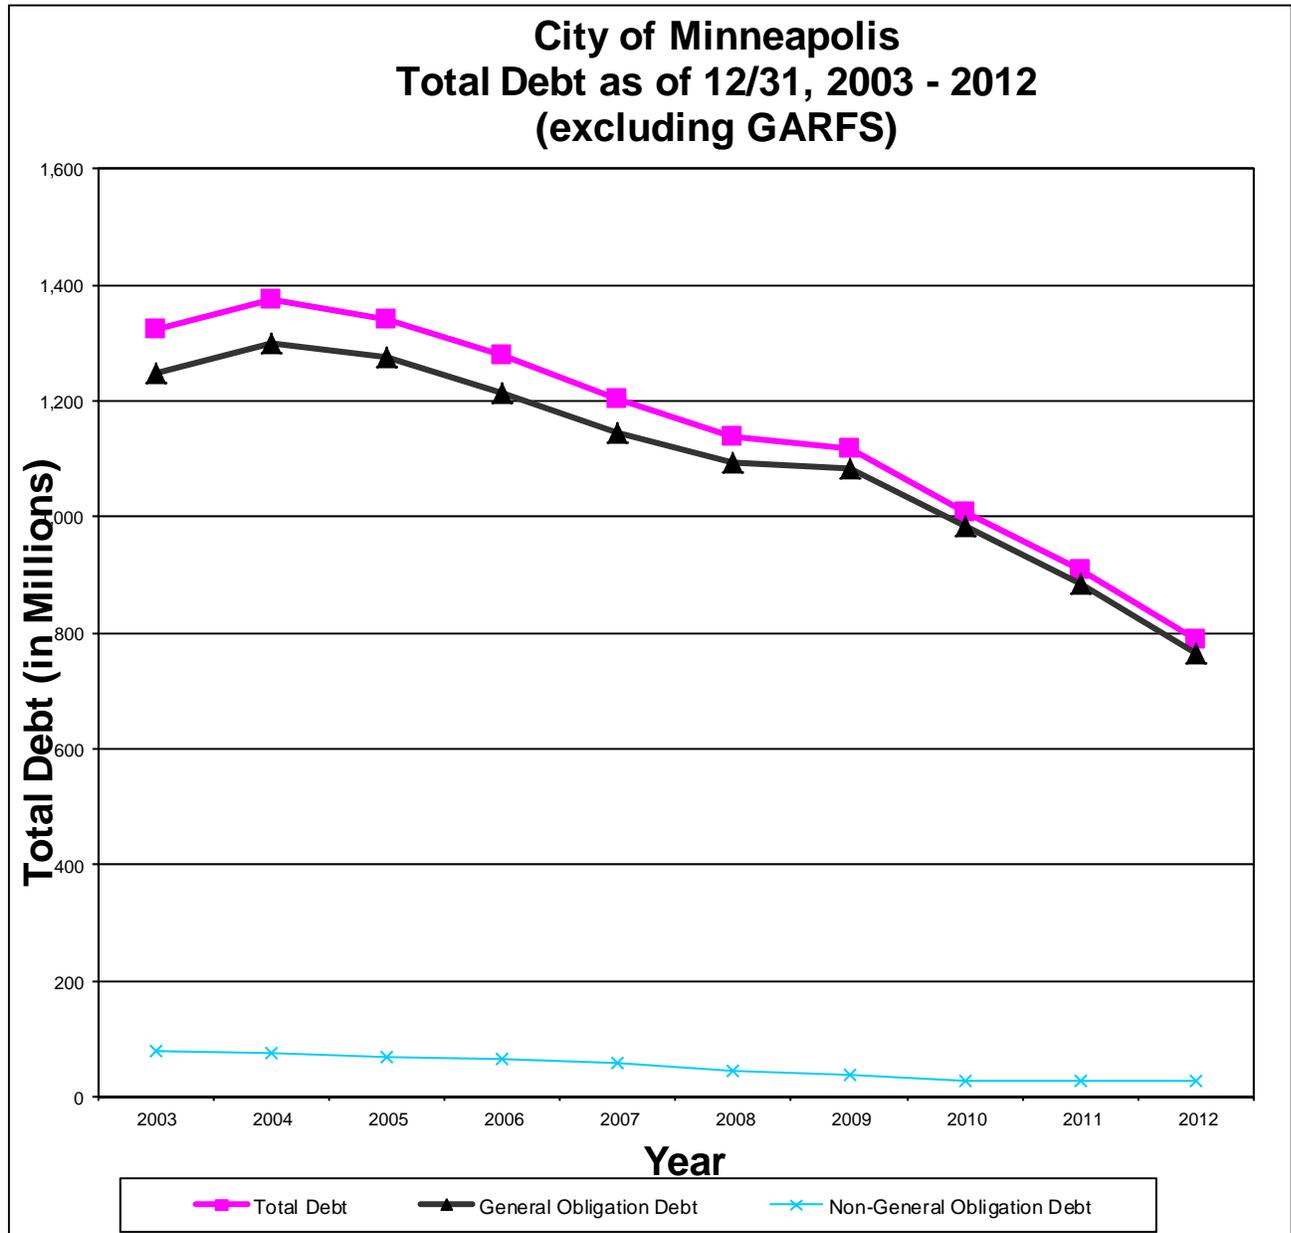

The City has entered into six general obligation notes with the Minnesota Public Facilities Authority (PFA) to finance the City's drinking water ultra-filtration projects and new filter presses project. The notes are part of a federally sponsored below market financing program related to the Safe Drinking Water Act and the City saves 1.5% on interest costs by participating in the program. During 2012, the City received additional proceeds of \$.15 million on Note 5 which completed the projects financed with these notes totaling \$104.19 million over the years. At 12/31/2012, the outstanding debt balance of the six notes in this program will be \$87.86 million.

In July 2012, the City entered into a general obligation note with the PFA to finance a portion of the 37th Ave N Storm Sewer project. This note is part of the Clean Water Revolving Fund and has provisions similar to the Water notes mentioned above. The City anticipates receiving the full \$.59 million of note proceeds by the end of 2012. The interest rate on this note is at 1.0% with a final maturity date of August 20, 2013.

Debt Trends

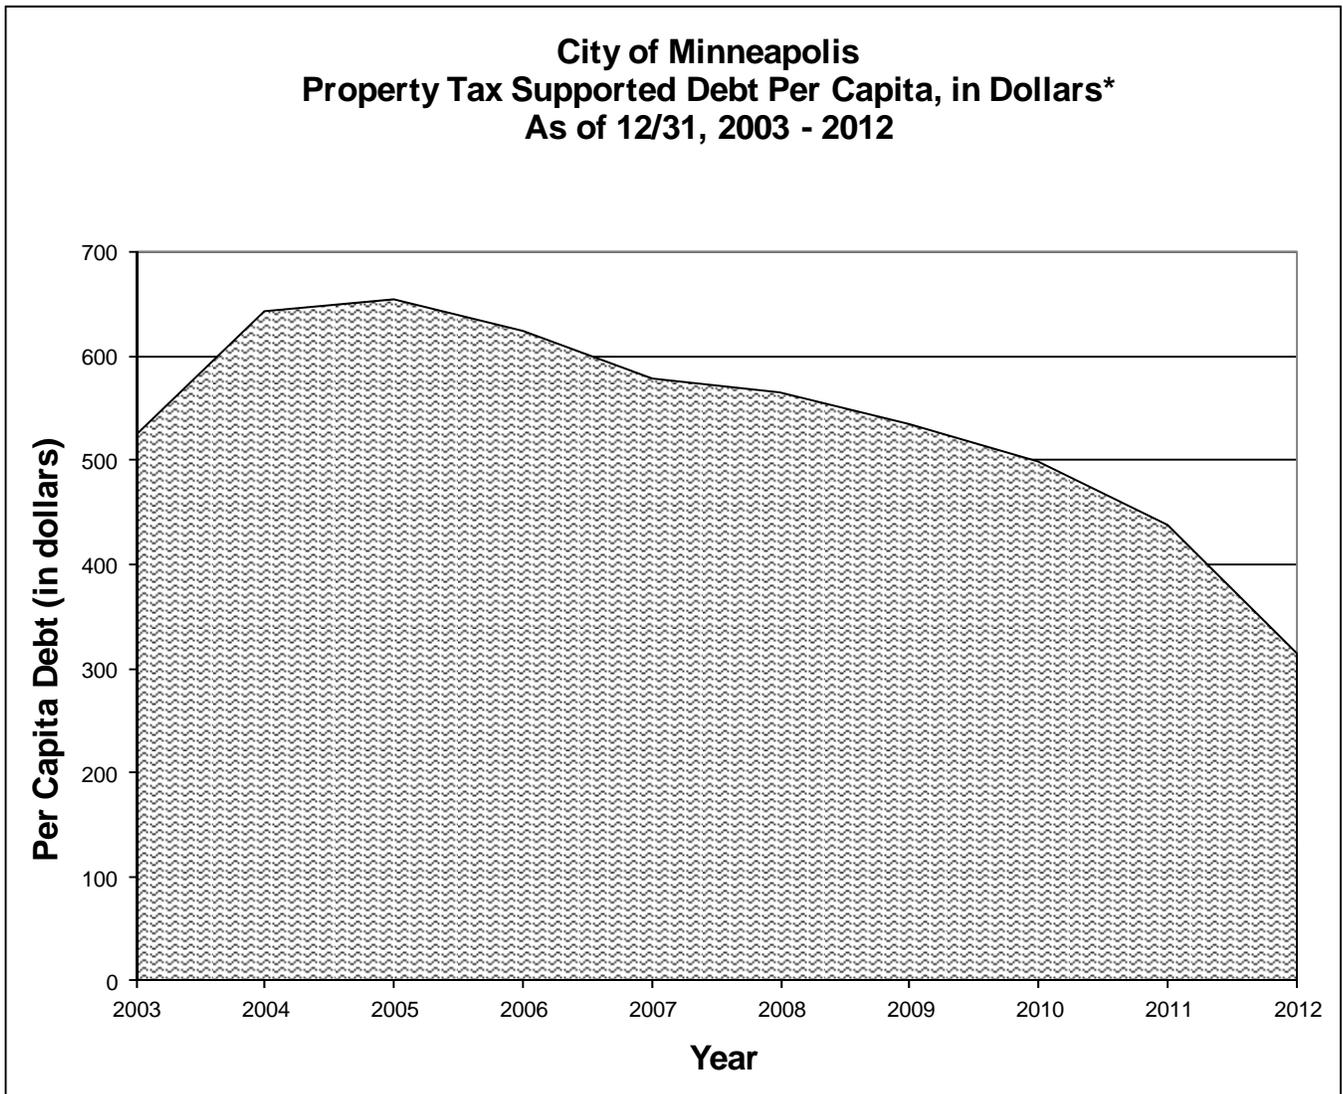

Management of the City's debt involves consideration not only of the absolute amount of debt, but also attention to yearly trends in the relationship of the debt to other financial measures. For purposes of the charts below, \$88.185 million of General Agency Reserve Fund System (GARFS or common bond fund) bonds are not included as City Debt.

The accompanying chart shows a ten-year history of the total City debt level for years 2003 – 2012. The total includes general obligation debt, backed by the full faith and credit of the City, and non-general obligation debt, which includes tax increment backed revenue bonds and notes.

PER CAPITA DEBT

The chart below shows changes in general obligation debt per capita over the past decade for the portion of the City's debt paid for with property taxes. From 2003 - 2005, the City issued significant property tax supported debt to fund the Library Referendum capital program and to pay unfunded pension obligations for the City's three closed pension funds - the Minneapolis Police Relief Association (MPRA), Minneapolis Fire Relief Association (MFRA) and Minneapolis Employee Retirement Fund (MERF) resulting in a spike in the debt per capita. The reductions from 2006 to 2012 are partially due to the City using one-time resources to accelerate the pay down of all categories of property tax supported debt including infrastructure, library referendum and pension bonds. A large part of the reduction in 2012 reflects paying off \$50.5 million of pension bonds.

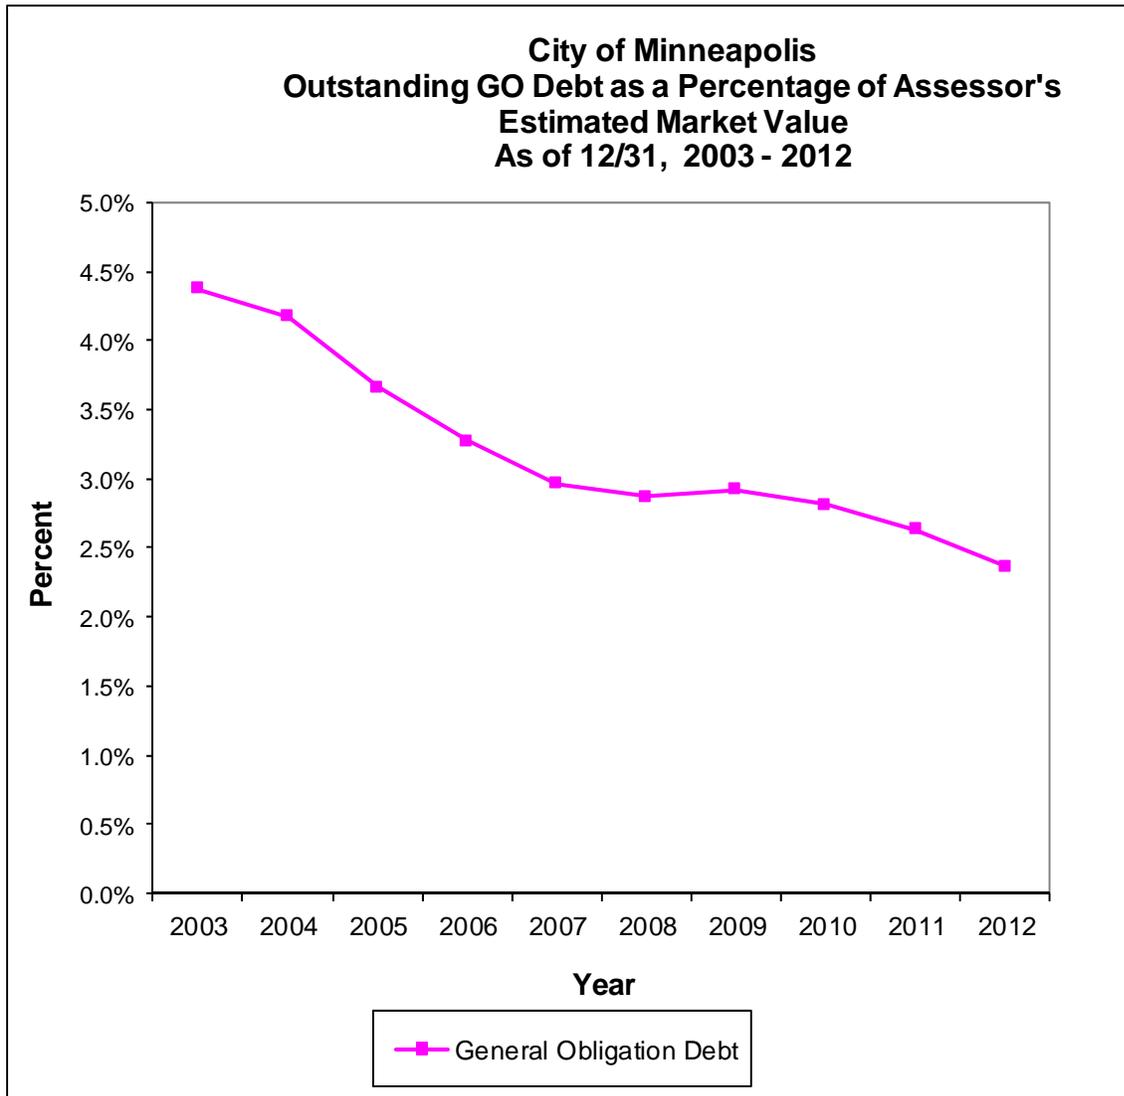

* Figures shown are adjusted indebtedness, which represents the total general obligation indebtedness of the City less that indebtedness supported by revenues other than general property taxes. Funding from self-supporting enterprises of the City offset a portion of the property tax supported pension related debt included above. Population figures used in this graph come from the official census in 2010 or from data provided by the Metropolitan Council for the other years.

DEBT CAPACITY – TOTAL DEBT

A primary goal of the City's debt management effort is to maintain ability to incur debt at low interest rates without endangering ability to finance essential City services.

One key management ratio used in monitoring the City's debt is total general obligation (GO) debt outstanding as a percent of estimated full market value of Minneapolis' taxable property. The ratio of outstanding GO debt to the Minneapolis City Assessor's market value of taxable property equaled less than three percent from 2007 through 2012, with a slightly improving trend. While property values experienced a decline of approximately \$6.4 billion during this timeframe, the trend line benefitted by a reduction of \$412 million in Total Debt applicable to the calculation.

The chart below shows 2003 as the highest total debt/market ratio due to one of the higher total debt levels coupled with lower property values. Total GO Debt peaked in 2004, but the impact was offset by increasing market values of the City's taxable property. Peak GO debt was \$1.3 billion in 2004 and has been falling each year to \$766 million at the end of 2012, a \$533 million decrease. Property valuations grew during the 2004 – 2006 period continuing the favorable trend line but have trended down from 2007 – 2012.

COMPUTATION OF THE CITY'S LEGAL DEBT MARGIN

The following is the computation of the estimated legal debt margin to be reported in the City's Comprehensive Annual Financial Report for December 31, 2012. This calculation determines the maximum statutory limit of general obligation debt that can be issued by the City for which property taxes are levied as the source of repayment for the bonds.

REVENUE SOURCE RELATED DESCRIPTIONS:

Other – Refers to all other categories of resources used to support capital programs including grants from other governmental agencies or private foundations, transfers from City operating funds, land sale proceeds, etc. In addition to the other sources above, Public Works has several divisions that have a reimbursable project for tracking and billing overhead costs and for performing construction activities that are billed to the specific projects, benefiting City departments, outside government agencies and private businesses.

Stormwater Bonds/Stormwater Revenue - bonds related to the Stormwater enterprise. Debt Service is paid by user fees charged for enterprise services.
