Chapter 15 of the Code of Ordinances requires City officials and the Contractor to avoid any situation that may give rise to a "conflict of interest." A "conflict of interest" will arise if Contractor represents any other party or other client whose interests are adverse to the interests of the City.

As it applies to the Contractor, the City's Code of Ethics will also apply to the Contractor in its role as an "interested person" since Contractor has a direct financial interest in this Agreement. The City's Code of Ethics prevents "interested persons" from giving certain gifts to employees and elected officials.

21 Termination

The City may cancel this Contract for any reason without cause upon thirty (30) days written notice. Both the City and the contractor may terminate this Contract if either party fails to fulfill its obligations under the Contract in a proper and timely manner, or otherwise violates the terms of this Contract. The non-defaulting party shall have the right to terminate this Contract, if the default has not been cured after ten (10) days written notice or such other reasonable time period to cure the default, has been provided. If termination shall be without cause, the City shall pay Contractor all compensation earned to the date of termination. If the Contract is canceled or terminated, all finished or unfinished documents, data, studies, surveys, maps, models, photographs, reports or other materials prepared by the Contractor under this Contract shall, at the option of the City, become the property of the City, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents or materials prior to the termination.

Notwithstanding the above, the Contractor shall not be relieved of liability to the City for damages sustained by the City as a result of any breach of this Contract by the Contractor. The City may, in such event, withhold payments due to the Contractor for the purpose of set-off until such time as the exact amount of damages due to the City is determined. The rights or remedies provided for herein shall not limit the City, in case of any default by the Contractor, from asserting any other right or remedy allowed by law, equity, or by statute. The Contractor has not waived any rights or defenses in seeking any amounts withheld by the City or any damages due the Contractor.

22 Ownership of Materials

All finished or unfinished documents, data, studies, surveys, maps, models, photographs, reports or other materials resulting from this Contract shall become the property of the City upon final approval of the final report or upon request by the City at any time before then. The City, at its own risk, may use, extend, or enlarge any document produced under this Contract without the consent, permission of, or further compensation to the Contractor.

23 Intellectual Property

Neither the City nor the Contractor anticipate that any intellectual property rights will be created as a result of this Contract. For the purpose of this Contract, “intellectual property” shall include all inventions, improvements, discoveries, processes, computer programs or similar intangible interests that either the City or Contractor develop as a result of the work or project undertaken which is the subject matter of and during the term of the Contract.

Each party acknowledges and agrees that each party is the sole and exclusive owner of all right, title, and interest in and to its services, products, software, source and object code, specifications, designs, techniques, concepts, improvements, discoveries and inventions including all intellectual property rights thereto, including without limitations any modifications, improvements, or derivative works thereof, created prior to, or independently, during the terms of this Contract. This contract does not affect the ownership of each party’s pre-existing, intellectual property. Each party further acknowledges that it acquires no rights under this Contract to the other party’s pre-existing intellectual property, other than any limited right explicitly granted in this Contract.

24 Equal Benefits Ordinance

Minneapolis Code of Ordinances, Section 18.200, relating to equal benefits for domestic partners, applies to each contractor and subcontractor with 21 or more employees that enters into a “contract”, as defined by the ordinance that exceeds \$100,000. The categories to which the ordinance applies are personal services; the sale or purchase of supplies, materials, equipment or the rental thereof; and the construction, alteration, repair or maintenance of personal property. The categories to which the ordinance does not apply include real property and development contracts.

Please be aware that if a “contract”, as defined by the ordinance, initially does not exceed \$100,000, but is later modified so the Contract does exceed \$100,000, the ordinance will then apply to the Contract. A complete text of the ordinance is available at:

http://www.minneapolismn.gov/www/groups/public/@finance/documents/webcontent/convert_261694.pdf.

It is the Contractor’s and subcontractor’s responsibility to review and understand the requirements and applicability of this ordinance.

Contractor represents that it will protect cardholder data. 27 City Ownership and Use of Data

The City has adopted an Open Data Policy (“Policy”). The City owns all “Data Sets” as part of the compliance with the Policy. Data Sets means statistical or factual information: (a) contained in structural data sets; and (b) that is regularly created or maintained by or on behalf of the City or a City department which supports or contributes to the delivery of the project underlying this Contract or related programs and functions. The City shall not only retain ownership of all Data Sets, but also all information created through the City’s use of software and/or software applications that are licensed by the Contractor (or any subcontractor of the Contractor) to the City

The City shall also retain the right to publish all data, information and Data Sets independently of this Contract regardless of whether the data and information originated from the Contractor or any subcontractor, using whatever means the City deems appropriate. The City shall have the right to access all project data, regardless of which party created the content and for whatever purpose it was created. The Contractor shall provide bulk extracts of data that satisfy the public release criteria for use in and within an open data solution.

28 Responsible Contractor Requirement

The Contractor represents that it is a “responsible contractor.” The term “responsible contractor” as used in this document means a contractor as defined in Minnesota Statutes, Section 16C.285 subdivision 3. Any prime contractor or subcontractor that does not meet the minimum criteria in Section 16C.285 subdivision 3 or fails to verify that it meets those criteria is not a responsible contractor and is not eligible to be awarded a construction contract for the scope of work described in the bid documents. A false statement under oath verifying compliance with any of the minimum criteria shall render the prime contractor or subcontractor that makes the false statement ineligible to be awarded a construction contract for the scope of work defined in the bid documents and may result in the termination of a contract awarded to a prime contractor or subcontractor that submits the false statement. A prime contractor shall submit to the City, upon request, copies of the signed verifications of compliance from all subcontractors of any tier pursuant to Minnesota Statutes, Section 16C.285, subdivision 3, clause (7).

It is the policy of the City of Minneapolis to provide equal opportunity to all contractors, and to redress the discrimination in the City's marketplace against minority-owned business enterprises (MBEs) and woman-owned business enterprises (WBEs). The SUBP, as detailed in the Minneapolis Code of Ordinances Section 423.60, applies to any non-construction-related equipment, food, material, service or any part or combination thereof over \$50,000. Goals may be set on commodity and service contracts based on projected availability of SUBP firms.

There are no specific goals on this contract. However, should the bidder find an opportunity to sub-contract or purchase materials with any businesses on this project, the bidder is required to solicit SUBP firms.

SPECIFICATIONS
FOR
READY-MIX CONCRETE
City of Minneapolis
Department of Public Works

Section 1. WORK - The work to be done under these specifications shall consist of producing and delivering Ready-Mix Concrete in such quantities as to satisfy the needs of the City of Minneapolis. Ready-Mix Concrete shall be produced for, and delivered to, various locations within the City limits and to any City Department or Minneapolis Park Board facilities located less than three miles beyond City limits. The expected purchase quantity is stated as a good faith estimate on the bid form. The actual quantity purchased may be increased or decreased, to meet the City's requirements for the said period, without any adjustment to the vendor's bid price. The Vendor will have direct control of all mix-batching, therefore, the Vendor must produce all products delivered. The Ready-Mix Concrete shall be proportioned and mixed with methods and materials as specified herein, and as stated in the Minnesota Department of Transportation (MnDOT) Standard Specifications for Construction, 2014 edition for MnDOT mixes and the 2016 edition for all new concrete mixes, including any supplementary specifications or technical memorandums conforming to MnDOT approved mix designs.

Section 2. GENERAL REQUIREMENTS

- (a) Definition: Ready-Mix Concrete shall be a MnDOT **approved** concrete mix containing fly ash where applicable, which is proportioned and mixed in a central plant and hauled to the point of placement in revolving drum mixer trucks.
- (b) Materials: Materials used in the manufacture of Ready-Mix Concrete shall be subject to inspection by the City Engineer's testing representative and shall be in accordance with the specifications as stated in Section 1 and this document.
- (c) Plant and Equipment: The plant at which Ready-Mix Concrete is to be proportioned and mixed shall be a MnDOT Certified Plant. Each individual truckload of concrete shall be accompanied by a computerized batch weight ticket and delivery ticket. A MnDOT Certificate of Compliance shall be provided with every load of concrete.*

*All costs associated with the MnDOT Certificate of Compliance or batch weight tickets will be considered incidental for which no direct compensation will be made.

Section 3. ORDERING AND DELIVERING

- (a) Transportation Units: Ready-Mix Concrete shall be delivered in units equipped with a closed, watertight revolving drum, suitably mounted and powered and containing properly designed built-in mixing or agitation blades. The use of open or tub-type truck bodies, or bodies which are not equipped with blades for agitating, will not be permitted.
- (b) Capacity and Drum Speeds of Units: Mixers shall be operated within the limits of capacity and at a continuous speed of rotation as designed by the manufacturer of the equipment.
- (c) Ordering/Tickets: The Ready-Mix concrete Vendor shall establish a single contact for receiving, processing and dispatching concrete orders for the City of Minneapolis. This single contact will receive orders from various City of Minneapolis departments using MnDOT mix design numbers as stated in Section 1.

*The Vendor awarded the bid shall be required to attend any pre-production meeting with City of Minneapolis personnel to clarify all ordering and delivering procedures for the contract period.

The Ready-Mix concrete Vendor shall include on all Certificates of Compliance and delivery tickets the MnDOT mix design number, the designated City of Minneapolis project number and Divisions name, location of delivery, delivery quantity in cubic yards, and cumulative mix total for project.

- (1) All “good orders” will be filled as ordered. A good order is defined as any order placed before 1:00 p.m. the preceding work day, in which time, quantity, type of mix, rate of delivery and location are established and confirmed. **Modifications to a good order can be made by the City up to two hours in advance of delivery time at no extra cost to the City.**
 - (2) Upon receiving concrete orders from various City of Minneapolis divisions, all orders will be summarized and the Vendor will provide electronic access to of the summary sheet of all City of Minneapolis concrete mix orders before 6:30 a.m. the next business day. The electronic access can either be web based or e-mailed. The information made available to the City should include the following: division name, mix type, quantity, and project name/number, location, and time of delivery.
- (d) Delivery: Ready-Mix Concrete shall be delivered on orders from the City Engineer or his or her representative. Concrete shall be delivered to any project being constructed by the City of Minneapolis as designated by the City Engineer or his or her representative.

- (1) The City Engineer or his or her representative shall govern the rate of delivery and quantity. When rate of delivery is critical to City operations including machine placement or large volumes, delivery must be made in accordance to the agreed upon rate. The Vendor shall provide the Ready-Mix concrete at the rate of delivery ordered.
- (2) The Vendor will deliver Ready Mix concrete so that the material can arrive at the project, be tested per MnDOT specifications, and subsequently place within 90 minutes of the batch time as indicated on the Certificate of Compliance.
- (3) The Vendor will provide concrete, as directed by the City Engineer or his or her representative, for a city-defined emergency, at any and all times, 24 hours a day, within two hours of notice. A city-defined emergency will take precedence over all orders to any customer at any time.
- (4) There shall be no washing out of concrete ready mix trucks or concrete paving machines in the public right of way. At no time shall there be the possibility of this concrete wash water being conveyed to the ground water or other bodies of water. The Vendor shall provide systems on their ready mix trucks to immediately capture and contain all concrete wash outs from these ready mix trucks. In other cases excess concrete must be contained in water proof membranes to capture and properly dispose of wash water and residue from these activities.

Section 4. ADMIXTURES - When air-entrained cement or an air-entraining admixture is used, the air content of the concrete as determined from samples taken from the transportation unit at the point of discharge shall range between 5 and 8.5 percent, preferably 6-1/2 percent. If the measured air content falls outside the limits specified, the City Engineer's testing representative may refuse to permit the use of the load of concrete represented.

Specifications for the use of Fly Ash as a cement substitute shall be as stated in the Minnesota Department of Transportation Standard Specifications for Construction, 2014 edition for existing MnDOT mixes and the 2016 edition for all new concrete mixes and/or any subsequent specification amendment and/or technical memorandums.

Section 5. VOLUME OF CONCRETE - The basis of purchase shall be the volume of plastic concrete as delivered to the City of Minneapolis. The volume shall be determined from the total weight of the batch divided by the measured unit weight of the concrete.

Section 6. INSPECTION AND REJECTION - Ready-Mix Concrete not complying with these specifications will be rejected. Under no circumstances shall excess or rejected concrete be brought back to the batch plant and re-mixed with fresh concrete. Only with approval from the City Engineer's testing representative may additional water be added to the concrete after batching.

No dry batching is allowed. Any mixes that are dry batched without prior approval from the City of Minneapolis Engineering Laboratory will be provided to the City of Minneapolis at no cost.

The batching time on all truck tickets shall match the batching time on the Certificate of Compliance.

A MnDOT Certified Technician representing the Producer shall review and sign the first Certificate of Compliance for each pour and mix type.

Section 7. CONTACT - The name and phone number for a contact person must be included with the bid. This person should be able to provide information pertaining to all aspects and problems that may be encountered with this product 24 hours a day.

Section 8. PRICE - Proposals shall state the price per cubic yard for the contract period for each grade of concrete as specified on the Bid Form. The quantities shown on the bid form are good faith estimates of the City's requirements for said contract period and may be increased or reduced in any amount in any grade without any adjustment of unit price as the City may deem necessary to meet its requirements of said contract period.

Repeated failure to provide materials per City specifications requiring the purchase of materials from another source may result in disqualifying the Vendor in future bids.
- b. The contract shall further provide that if the Vendor shall be prevented from making delivery of materials by reason of any strike among the workers of the manufacturers of the said materials or among the employees of the common carriers necessarily depended upon to transport the said materials to the City, or by government regulations preventing the performance of the contract, or by other like reasons beyond the control of the Vendor, the City Engineer or his or her representative shall have the authority to use the next lowest bidder to complete the project work.

Section 14. BONDS - A performance bond and a payment bond in the full amount of this contract for the use of the City of Minneapolis and of all persons doing work or furnishing or engaging skill, tools, machinery, materials, insurance premiums, equipment, or supplies, under or for the purpose of this contract, conditioned as required by Section 574.26 of the Minnesota Statutes annotated, and for the strict and faithful performance of this contract on the part of the Vendor or his employees and payment of all just claims will be required of the contractor at the time of the execution of the contract. The bond shall be approved by the proper City Officers signing and countersigning the contract. The bond shall specifically provide for the assumption of the obligations for damages set forth in the first paragraph of Section 13.

I hereby certify that this specification was prepared by me or under my direct supervision and that I am a duly registered Professional Engineer under the laws of the State of Minnesota.
