

Proposed North Minneapolis Greenway Route Map

This map shows a proposal for converting low-traffic residential streets into a greenway in north Minneapolis. In most places, the proposed greenway would provide a park-like trail that increases space for pedestrians and bicyclists while reducing or eliminating motorized traffic and parking. In some cases, extra green space would allow for new amenities, like community gardens, pocket parks, or public art.

No decisions about a greenway route have been made. Community input will be used to make changes to both the route and the designs included on this map.

The City of Minneapolis welcomes community input on this project and will explore funding options if the community supports the greenway. There is no start date set to build the greenway as the project is still in an engagement phase.

Future planning efforts will explore connections to the south, such as the Cedar Lake and Bassett Creek Trails.
