

Dear Minneapolis Public School Parents and Students,

It is a pleasure to welcome you to the City of Minneapolis Health Department School Based Clinics. We are a group of dedicated medical and mental health care professionals that are located within 7 high schools in Minneapolis.

We offer a wide range of services including but not limited to medical and mental health care. One of the services we offer is a Sports Physical which is needed once every 3 years for any adolescent trying out, practicing or playing a school league sport. Within this packet is a **School Based Clinic Consent and Minnesota State High School Sports Qualifying History Form**. Both the consent and history form need to be completely filled out and signed/dated by a parent or guardian.

If you have insurance or a medical assistance product, we will bill your insurance carrier. Please note, we accept only what the insurance pays for. There will never be a bill sent to the parent/guardian. We will also see students that have no insurance.

Please give the School Based Clinic a call that is nearest or most convenient for you. We can answer any questions and schedule your child for a Sports Physical.

We look forward to hearing from you!

Sincerely,

*Barbara Kyle*

School Based Clinic Manager
