

# City of Minneapolis Green Business Refrigeration Program

Refrigeration can be one of the biggest drivers of energy use in restaurants, grocery, convenience and liquor stores.

## Program Details

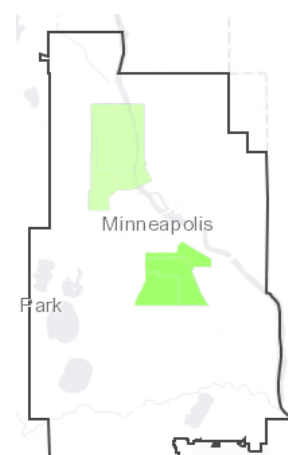

- To be eligible for City funding, the business must be located in Minneapolis and eligible to participate in Xcel Energy's Commercial Refrigeration Efficiency Program. Location and program eligibility will be verified by program administrators prior to disbursing funds.
- Maximum City funding per project is \$10,000 and on a first come, first served basis until funds are depleted.
- The City of Minneapolis also offers attractive financing packages; see <http://minneapolismn.gov/cped/ba/businesssupport> for more information.

The City of Minneapolis is providing funding for up to 20% of the total project cost to small business owners who implement refrigeration tune-ups and efficiency upgrades after receiving an on-site assessment from Xcel Energy. Xcel Energy provides its Minnesota business customers with free, on-site refrigeration assessments. The service helps businesses identify what types of improvements can save energy and money, and offers rebates for many types of energy-efficient upgrades.

Schedule a free refrigeration assessment from Xcel Energy.

## Green Zones Businesses

Businesses located in select Green Zone areas of Minneapolis will receive funding for up to 30% of the total project cost. This funding combined with utility rebates can pay for up to 50% of the total project cost.
