To Submit Your Neighborhood Proposal:

We will accept and review submissions starting Monday, April 16, 2012. Neighborhood organization submissions are due by Friday, June 15, 2012.

You may either email your submission to:

ncr@minneapolismn.gov

or you may mail it to:

NCR
City of Minneapolis
Tri Tech Center, Room 220
331 2nd Avenue South
Minneapolis, MN 55401

Checklist:

1. Your organization’s name and contact information;
2. A narrative submission (see page 5, Section IV);
3. A budget. If you need help preparing a budget, please call NCR staff at (612) 673-3737;
4. A current copy of your bylaws;
5. Date of board approval of proposal;
6. Dates of your most recent annual filings (Federal 990, Registration with Minnesota Secretary of State, Annual Report to Minnesota Attorney General).

Questions about these guidelines, or need help with your neighborhood organization’s submission?

Please call Neighborhood Relations at (612) 673-3737,
or send an email with your question to ncr@minneapolismn.gov

I. COMMUNITY PARTICIPATION PROGRAM

A. Program Purposes

The Community Participation Program (CPP) provides funding to encourage and support participation through Minneapolis neighborhood organizations. These guidelines direct how at least \$3,000,000 per year will be provided to recognized Minneapolis neighborhood organizations for neighborhood-determined community engagement activities in the following key areas: (1) identifying and acting on neighborhood priorities; (2) influencing City decisions and priorities; and (3) increasing involvement.

1. Identifying and Acting on Neighborhood Priorities

As partners in building a better city and creating vibrant, safe, welcoming and livable spaces, neighborhood organizations and the City each have unique roles in identifying and acting on neighborhood priorities. Neighborhood organizations may from time to time prepare and submit Neighborhood Priority Plans as a way of directing neighborhood CPP project funds or providing input to City plans and budgets (see Section V: Neighborhood Priority Plans, below.)

2. Influencing City Decisions and Priorities

City decision-making is improved when we involve those most affected by these decisions. The City's core principles of community engagement state that those who are affected by a decision have a right to be involved in the decision-making process. Through partnering with neighborhood organizations, the City of Minneapolis can better reach—and be informed by—the people who are most affected by City decisions.

3. Increasing Involvement

The City and neighborhood organizations are better able to develop meaningful strategies—and successfully implement those strategies—when more people are informed and involved. The City and neighborhood organizations will work to maximize the involvement of residents and other stakeholders.

Neighborhood Organization Activities

While it is understood that neighborhood organizations and the City are jointly responsible for success in these three key areas, the purpose of funding through the Community Participation Program is to help neighborhood organizations to:

- Facilitate communication and connections among neighborhood residents and stakeholders to:
 - Gather input;
 - Inform and educate neighborhood residents and stakeholders on pending City or neighborhood issues and opportunities that affect them and their neighborhood;
 - Identify, act on, and advance neighborhood priorities;
 - Identify emerging issues within the neighborhood;
 - Build connections between neighborhood stakeholders;
 - Hold neighborhood-wide gatherings and utilize other means of increasing involvement;
 - Encourage and strive for the participation of everyone in the neighborhood regardless of their demographic group; and
 - Give neighbors a united voice.
- Collaborate with the City to establish city-wide goals, policy and budget priorities;
- Generate new ideas to address current issues in creative ways;
- Convene and collaborate with partners (public and private) on projects;
- Leverage funds to increase investment in neighborhood priorities;
- Encourage everyone to volunteer—to get involved and help accomplish outcomes that improve their quality of life;
- Support block clubs including co-recruiting efforts and encouraging activities in addition to crime prevention.

B. Neighborhood Priorities: Organize, Plan, Partner, and Implement

The three program purposes identified above will be accomplished using CPP funds to organize, plan, partner and implement. Neighborhood organization can direct the use of funds through either CPP submissions for organizing, planning, and partnering, or through implementation of projects as identified in Neighborhood Priority Plans.

Organize: The CPP submission outlines the process a neighborhood organization will use to inform and involve residents and others in addressing issues and opportunities, and to develop and implement a Neighborhood Priority Plan.

Plan: Neighborhood Priority Plans (see Section V, below) identify preliminary neighborhood priorities, as identified by the neighborhood. Neighborhood Priority Plans may be undertaken by single neighborhoods or several (such as a corridor initiative). A neighborhood may be involved in one or more plans. Plans may be submitted for each priority identified by the neighborhood, subject only to the neighborhood's capacity to work on addressing solutions to those priorities. Neighborhood Priority Plans can be of any duration.

Partner: The neighborhood organization will work with the Neighborhood and Community Relations Department (NCR) to identify any jurisdictional partners and develop formal agreements to begin implementation of Neighborhood Priority Plans. Partnerships with City departments and jurisdictions will help address neighborhood priorities and shape City priorities and decisions.

Implement: Neighborhood organizations and partners will work to implement, evaluate, and report on activities. Neighborhood projects may be identified in agreements between the neighborhood organization and jurisdictions, and may take the form of neighborhood CPP funded and directed projects; Memoranda of Understanding with City departments (and other jurisdictions); or inclusion of neighborhood priorities in City department budgets and priorities.

II. ELIGIBLE NEIGHBORHOOD ORGANIZATIONS

Only organizations that meet the eligibility criteria in Section II.A, below, may apply for CPP funds. Organizations that apply for and receive CPP funds must meet the Standards and Expectations of the program identified in section II.B, below.

A. Eligibility

A neighborhood organization must meet all of the following criteria to be considered eligible for Community Participation Program funding. The organization must:

1. Represent a geographically-defined neighborhood (in its entirety) within Minneapolis as identified by the most current Minneapolis Communities and Neighborhoods Map as amended and approved by the City Council (see Appendix C).
2. Provide for the participation of all segments of the neighborhood, including, but not limited to, homeowners, renters, property owners, business owners, immigrants, non-English speakers, low-income residents and communities of color.
3. Ensure that membership in the organization is open to all residents of the geographically defined neighborhood. Neighborhood organizations may not impose membership dues or require attendance at a certain number of meetings before voting rights are conferred.
4. Hold regular open meetings and take positive steps to encourage all interested parties to attend

and participate. An organization may only hold closed meetings in cases of labor and legal disputes.

5. Be incorporated (or identify an appropriate fiscal agent) and have adopted by-laws. The organization must also have a grievance procedure by which its members may have their concerns addressed by the organization, a conflict of interest policy and procedure, an Equal Opportunity Employment (EOE) or Affirmative Action (AA) plan and policy, and an Americans with Disabilities Act (ADA) plan and policy.
6. Have a board of directors elected, at least in part, annually by the membership of the organization. Neighborhood residents must comprise a majority of the organization's board. An elected board must be in place for a minimum of one year prior to the beginning of the contract year to be considered eligible for funding.
7. Have the capacity to properly manage and account for grant funds. This includes, but is not limited to, being current on all reporting on any previous Community Participation Program grants.
8. Organizations that primarily represent the interests of one segment of the neighborhood or concentrate primarily on one issue are not eligible (such as homeowner associations, rental property owner associations or business associations).

B. Standards and Expectations

The Neighborhood and Community Relations (NCR) Department encourages all neighborhood organizations to be thoughtful in their submissions for funding. While we encourage every neighborhood organization to make full use of their funding allocation, organizations should also be realistic about their organizational capacity for managing participation activities and the obligations required of community participation organizations. Organizations should be committed to full participation by all stakeholders, openness and transparency in their community participation process, and accountability to the community.

Eligible neighborhood organizations must make good faith efforts to:

- Conduct activities in an ethical manner;
- Build a sense of neighborhood identity within their communities;
- Conduct activities that promote the inclusion of all age, ethnic and economic groups in the neighborhood's community participation efforts and in the decision-making processes of the organization, including renters. Explore new methods to stimulate participation;
- Identify the issues of significance that confront their residents;
- Bring neighborhood residents and stakeholders together to create and implement a vision for their neighborhood;
- Build bridges among neighbors and diverse communities within the neighborhood;
- Work cooperatively on common issues with other neighborhood organizations;
- Encourage leaders and develop new leadership;
- Engage current members and attract new members;
- Maintain an organizational structure and election process that maximizes opportunities for all residents to become involved. The board should make reasonable attempts to make sure the diversity of the neighborhood is represented;
- Expand the organization's capacities through self-assessment and evaluation;

- Ensure that official records of the organization (including financial reports, approved minutes) are available for review by any member of the organization, consistent with State law. An organization may deviate from this rule only in case of labor and legal disputes.

III. FUNDING ACTIVITIES

The broad description of funding activities reflects that neighborhood organizations may pursue a wide variety of community participation strategies so long as the contracting neighborhood organization demonstrates that the funding activities are consistent with program purposes and standards and expectations stated in Section II.B, above.

CPP funds directed to projects identified in Neighborhood Priority Plans will be subject to policies established by the NRP Policy Board and as allowed by NRP statutes.

A. Eligible Expenses

Eligible budget line items for Community Participation Program funds include:

- Staff, office space, supplies, neighborhood communications, accounting and related services, travel, training or other educational pursuits in connection with participation, and consultant fees that directly relate to participation activities.
- Community organizing and outreach programs and neighborhood planning activities.
- Organization newsletters and newspapers.
- Neighborhood celebrations and events, if the event's purpose is to increase neighborhood awareness and involvement in the organization's planning and implementation efforts.
- Funds may be used for small equipment purchases. In the event of dissolution or insolvency of a contracting neighborhood organization, the City may reclaim equipment purchased with City funds and to retrieve copies of organizational records required to fulfill all City contracts and to help facilitate a new organization to represent the neighborhood.
- Fundraising expenses are eligible if revenues are to be used in support of further community engagement activities consistent with these guidelines, or in support of implementation of neighborhood priority plans or NRP Neighborhood Action Plans.
- Funds may be used to support the administrative costs associated with NRP planning and implementation.
- Funds may be used to support implementation of Neighborhood Priority Plans.
- Other activities consistent with the purposes of the Community Participation Program to identify and act on neighborhood priorities, impact City decisions and priorities, and increase involvement.

B. Ineligible Expenses

Ineligible budget items include:

- Undefined line items such as "miscellaneous" or "contingency";
- Food;
- Donations;
- Costs of legal action against the City; and

Is your neighborhood organization current on its filing requirements?

- Annual Registration with the Minnesota Secretary of State. Due anytime during the calendar year, but preferable to return early in the year.
- Annual Filing with the IRS (990 EZ or 990 N). Due on the 15th day of the 5th month following the close of your organization's fiscal year.
- Annual report to the Minnesota Attorney General's Office. Due on the 15th day of the 7th month following the close of your organization's fiscal year.

- Penalties and interest charges (such as insufficient fund fees, IRS penalties and interest, and similar fees).

C. Staff

Staff are considered to be employees of, or self-employed persons contracted by, the neighborhood organization. Each organization is responsible for budgeting an adequate amount to cover obligations in its employment agreement(s) (e.g., FICA, workers' compensation, unemployment, withholding, health insurance). Paid staff members or contractors may not be members of the Board of Directors.

D. Funding Adjustments

Neighborhood organizations may reallocate funds within their contract budgets following neighborhood organization Board approval, and by submitting revised budgets in writing to staff within the NCR Department administering the contract. NCR staff will review for neighborhood Board approval and consistency with the Community Participation Program Guidelines and will notify the neighborhood organization when the adjustment has been approved.

IV. REQUESTS FOR WRITTEN SUBMISSIONS

The NCR Department will request submissions from neighborhood organizations prior to the beginning of each funding cycle (see Appendix A, below). Submissions will be for the full funding cycle, and should review the organization's community participation activities for the past year and describe the organization's plans for the coming years. Reviews of past year activities and any proposed changes to the submission will be submitted for each of the following years of the funding cycle. These annual reports will be due by the end of the year. (See Section IV.B. Contracting and Reporting, below.)

The following areas must be addressed in an organization's submission:

1. Evidence of the organization's eligibility, as identified in Section II.A above.
2. Community participation efforts. Organizations should discuss: (1) the proposed outreach activity in the neighborhood, and (2) the proposed methods to involve residents and other stakeholders in one or more of the three key program purposes from Section I.A, above):
 - Identifying and acting on neighborhood priorities. Organizations should identify how they will engage residents and other stakeholders of their neighborhood in developing Neighborhood Priority Plans (see Section V Neighborhood Priority Plans below).
 - Impacting City decisions and priorities. Organizations should discuss their proposed efforts to (1) review and comment on City decisions and priorities that affect their neighborhood and (2)

Who is "Under-engaged?"

We have no specific definition of "under-engaged." Depending on the context, this question could be answered differently from neighborhood-to-neighborhood, year-to-year, project-to-project. At a minimum, your submissions should address how your organization will address racial and cultural diversity.

A good starting point may be to analyze Census data for your neighborhood (or other comparable data). Beyond the Census data, there may be other groups your organization sees as under-represented: "Do we engage local businesses enough? How about absentee landlords? We seem to have a lot of nonprofit services in our neighborhood, do we really talk with them enough?"

A different way of asking the question is "what groups of people are impacted by our work, and how well are they represented in our organization? Are we using the right tools to reach them? Are we working on the right issues?"

involve those residents and other stakeholders most affected by those decisions in the decision-making process.

- Efforts to increase involvement. Organizations should discuss their proposed efforts to maximize the involvement of residents and other stakeholders in the organization's decision-making processes and other activities.
3. Building organizational capacity. Organizations should discuss their proposed efforts to: (1) provide opportunities for the direct involvement of members, (2) build their membership and volunteer base, (3) encourage and develop new leadership, and (4) expand the organization's capacity through self-assessment and other activities.
 4. Building neighborhood relationships. Organizations should discuss their proposed outreach, networking, and inclusivity efforts to: (1) build a sense of a whole neighborhood among residents, (2) build bridges among neighbors and diverse communities within the neighborhood, (3) work with other neighborhoods and organizations on issues of common interest, (4) build partnerships with private and public entities, and (5) benefit the neighborhood as a whole.
 5. Involve under-engaged stakeholders. Organizations should discuss which stakeholder groups are typically un-engaged or under-engaged in their work, and how they will work to involve those groups. Organizations should also discuss how the NCR Department can help with this work.
 6. Housing Activities. Neighborhood organizations should discuss their work on housing and housing related activities. Organizations should estimate the percentage of time to be spent on these issues.
 7. Unused funds. Organizations should discuss how they plan to use unused funds from the previous cycle for community engagement or implementation of neighborhood priorities.
 8. Budgets. Submissions should include a budget showing how Community Participation Program funds will support the organization's community participation work and an amount set-aside for implementation of Neighborhood Priority Plans (specific information on the use of these set-aside funds will be provided through the Neighborhood Priority Plans process described in Section V, below). An annual budget for the organization should also be provided.
 9. New organizations. If an organization was not funded in the previous year, a report on the previous year's activities will be required.

A. Evaluation/Recommendation

Evaluation of submissions from neighborhood organizations will be conducted by the NCR Department. The City will fund only one organization to provide community participation services for a neighborhood, however, organizations that represent several neighborhoods may apply for funds for all of the neighborhoods that they represent. Submissions first will be evaluated to determine eligibility as in Section II.A, above. If more than one submission should be received for any neighborhood, the NCR staff will review and evaluate all submissions.

All submissions from organizations determined to be eligible will be evaluated based on how well they meet the Community Participation Program guidelines. The formula discussed in Appendix A: Determining Funding Levels will determine the maximum funding level for each neighborhood.

The NCR Director will make a final determination on approval within 45 days of receipt of the submission.

An organization not approved for funding may file an appeal with the Neighborhood and Community Engagement Commission (NCEC). Such an appeal must be received within thirty calendar days of the notice of the Director's decision by submitting it to the City's Development Finance Division (DFD). DFD will prepare a report on the appeal for the NCEC. The NCEC may uphold the original decision or change the decision.

Challenges to existing organizations will be considered only in the context of the current request for submissions. This in no way hinders any organization or individual from filing a grievance concerning the contracted neighborhood organization in accordance with the grievance procedure outlined in Section VII, below. Such a grievance may be filed at any time during the year.

If a neighborhood organization is applying for recognition and first-time funding in a neighborhood that does not have an existing neighborhood organization, the NCR Director may waive portions of the eligibility criteria in Section II.A above to allow for funding of the new organization.

B. Contracting and Reporting

Following NCR approval of submissions, NCR staff will prepare appropriate contracts with each neighborhood organization based on the organization's submission. City standard form contracts consistent with these program guidelines will be used and the scope of services will delineate neighborhood organization responsibilities consistent with the approved program guidelines and their submission for funding. Contract timing may be based on either a calendar year or the organization's fiscal year, at the option of the funded organization. Contracts may be originated, extended or amended on an annual basis within each funding cycle (i.e., for the second and third years of the funding cycle).

Prior to a contract extension, NCR staff will confirm that the neighborhood organization has submitted an annual report and a budget for the upcoming year.

Upon approval of contracts, each neighborhood organization may opt to receive an advance on its allocation of up to \$10,000, but not more than 25% of the approved submission (not including funds set aside for future implementation of Neighborhood Priority Plans). An organization may request a waiver for a larger advance in extraordinary circumstances. A request must be approved by the neighborhood organization board and submitted in writing to NCR and approved by the NCR Director.

Reimbursement requests for Community Participation Program related expenses may be submitted on an as-needed basis. Reimbursements are requested by submitting a standard Community Organization Report Form.

Annual reports to NCR will include a final accounting of use of Community Participation Program funds (using the standard Community Organization Report Form) and a narrative report of the neighborhood organization's Community Participation Program activities. The annual report should include an account of efforts the organization made to meet the standards and expectations outlined in Section II.B, above, and a report on the extent of the neighborhood organization's work on housing related activities. The neighborhood organization may additionally choose to submit a report documenting its experiences working with the City of Minneapolis.

NCR will make an annual summary report and assessment of Community Participation Program activities and outcomes, as well as make all neighborhood reports available, to the NCEC and the NRP Policy Board.

V. NEIGHBORHOOD PRIORITY PLANS

A neighborhood organization may submit one or more Neighborhood Priority Plans to communicate neighborhood priorities to the City and other jurisdictional partners. There is no deadline for submission of Neighborhood Priority Plans.

A Neighborhood Priority Plan identifies preliminary neighborhood priorities (as identified by the neighborhood) and potential partners. It should focus on the problem to be addressed, not necessarily the solution to that problem. It can be as simple or as comprehensive as the neighborhood organization desires, covering a single issue, or several. A Neighborhood Priority Plan may also be submitted jointly by more than one neighborhood.

Neighborhood Priority Plans must be developed and adopted through a thorough neighborhood participation process. Plans approved by a neighborhood will be submitted to the NCR for review. NCR staff will then present the Plans to the NRP Policy Board for approval. The NRP Policy Board will then forward those plans to the City Council or other appropriate jurisdiction for action. Approval by the City Council or participating jurisdiction will provide authority to NCR and City Departments or jurisdictional staff, as appropriate, to work with the neighborhood to address the priority outlined by the neighborhood in its Neighborhood Priority Plan.

A. Implementation of Neighborhood Priority Plans

After the submission and approval of a Neighborhood Priority Plan, a neighborhood organization will work with NCR and jurisdictional staff, as appropriate, to develop implementation agreements.

Implementation agreements are agreements with the neighborhood organization or between the neighborhood and a jurisdiction detailing what needs to be done, when and by whom to achieve the results called for by one or more of the priorities in the Neighborhood Priority Plans.

Implementation Plans will be signed off on by all of the necessary partners and will contain task assignments, schedules, resource allocations (including a budget of any CPP funds or other funds dedicated to implementation of projects) and evaluation criteria.

Implementation Plans will be reviewed and approved by NCR for consistency with Neighborhood Priority Plans and compliance with any legal requirements.

A Neighborhood Priority Plan may result in a single Implementation Plan or one of several, depending on the complexity of the issue.

B. Reporting

NCR staff will prepare two reports annually to synthesize this work. The first report will summarize neighborhood priorities submitted through Neighborhood Priority Plans. This report will be used to inform the budgeting and priority-setting processes of the City and other jurisdictions. The second report will describe the outcomes achieved through, or the barriers faced in, implementation of the Neighborhood Priority Plans. This report will focus on how well the City and other jurisdictions are collaborating with neighborhoods.

VI. SUPPORT AND MONITORING OF CONTRACTING NEIGHBORHOOD ORGANIZATIONS

The NCR Department will monitor organizations' compliance with the contract and provide support in the following ways:

- Maintain regular communication with neighborhood organizations.

- Provide support and assistance to neighborhood organizations in preparing submissions and reports, on an as-needed basis.
- Provide technical assistance to contracting neighborhood organizations as necessary to help guide and support their efforts in carrying out their community participation activities.
- Provide technical assistance to residents, neighborhood organizations, City Departments and participating jurisdictions in the development and implementation of Neighborhood Priority Plans.
- Attend neighborhood meetings to answer questions about the Department, the NCEC, the NRP Policy Board or funding programs of the Department on an as-needed basis.
- Provide support with appropriate documents, templates and training, on an as-needed basis.
- Provide relevant news and information to neighborhood organizations regarding NCR neighborhood program development, and to share information about successful neighborhood organization activities and practices.
- Receive Community Organization Report Forms on a regular basis and approve the release of funds within the terms and conditions defined by the contract.
- Conduct annual performance reviews to determine:
 - Adherence to the terms and conditions defined by the contract; and
 - The organization's assessment of City performance.

VII. GRIEVANCES AGAINST CONTRACTED NEIGHBORHOOD ORGANIZATIONS

A grievance against a neighborhood organization may be filed with the City if the following conditions are met:

- The grievance is within the jurisdiction of the City's community participation contract with the neighborhood organization;
- The grievance is regarding the process used by the neighborhood organization (but not about decisions or outcomes), or the grievance is regarding the management or use of Community Participation Program funds in a manner that is inconsistent with the program's standards and expectations (see Section II.B Standards and Expectations above);
- The person filing the grievance is a member of, or eligible for membership in, the organization, or is otherwise directly affected by the actions of the organization;
- The person filing the grievance has formally brought the issue to the attention of the neighborhood organization in a timely manner and the grievance has been addressed through the neighborhood organization's grievance procedure, or if the neighborhood organization has failed to respond to the grievance in a timely manner as addressed in the neighborhood organization's bylaws (but not to exceed 120 days); and
- The person filing the grievance agrees to accept the decision of the NCEC as final.

A grievance must be submitted in writing to the NCR Department. Upon receipt of the grievance, NCR will undertake an investigation of the complaint and prepare a report of its findings for the NCR Director, and will report the grievance to the NCEC at its next meeting. The NCR Director will issue a formal response to the grievance within 45 days of its initial receipt. This response will include the findings of the investigation and a proposed resolution to the grievance.

If the person filing the grievance or the affected neighborhood organization is unsatisfied with the Director's findings or resolution, they may appeal the matter to the NCEC within thirty days of the official response. The NCEC will convene a grievance committee to review the grievance. The decision of this grievance committee will be final and will be reported to the full NCEC.

VIII. UNUSED FUNDS

Community Participation Program funds that are un-contracted within the previous or current funding cycle, or contracted funds that are unspent and not rolled-forward by neighborhood organizations (see Appendix A below), shall be retained by NCR to fund special requests from a neighborhood organization for distinctive projects that are above and beyond the scope of the organization's community participation contract, but still contribute to the organization's participation efforts. Unused funds also may be rolled-forward into the general pool of dollars to be available for future cycles of funding for the Community Participation Program. The NCR shall review and approve reallocation, special requests or roll-forward of unused funds to future funding cycles.

IX. ADMINISTRATION

Administration of the program will be the responsibility of the NCR Department of the City of Minneapolis. The NCR Director will report annually to the NCEC and the NRP Policy Board about the activities of the Program. The NCEC shall review changes to the guidelines and make recommendations to the NRP Policy Board and City Council.

About Minneapolis Neighborhood Organizations

- Minneapolis has more than 80 residential neighborhoods, represented by more than 70 established neighborhood organizations.
- While most organizations represent a single neighborhood some represent 2, 3 or even 4 neighborhoods.
- Populations represented by Minneapolis Neighborhood organizations range from as few as 800 to more than 20,000 residents.
- Revenues for Minneapolis neighborhood organizations run from less than \$2,000 annually to more than \$500,000.
- There are neighborhood organizations in Minneapolis with histories going back more than 100 years, and some neighborhoods were named for the organizations that represent them!

APPENDIX A: DETERMINING FUNDING LEVELS

A. Funding Cycles

Allocations will be based on a three-year funding cycle.

- The allocation formula will be revised for each three-year cycle, using the most complete and current data available.
- Final allocations based on the three-year funding cycle will be approved by the NCR Director.
- Neighborhood organizations may submit a proposal for funding for the three-year period as described in Section IV of the Community Participation Program guidelines.
- Contracts will be initiated or extended on an annual basis within any three-year period. Balances on contracts may be rolled over to subsequent years within a three-year funding cycle, subject to review of performance by NCR staff.
- Unused funds may be accrued past the three-year funding cycles if the contracting neighborhood organization provides a plan for use of accrued funds.

B. Allocation Formula

Eligible neighborhood organizations will be allocated community participation funds according to the following formula.

Neighborhood Size (30%)

Population – 20% of a neighborhood’s total allocation will be based on the population of the neighborhood. The total number of people residing within all neighborhoods will be divided into the funds allotted to this variable to determine a per capita allocation. The population of each neighborhood will be multiplied by the per capita allocation. **Source: U.S. Census Bureau**

Housing Units – 10% of a neighborhood’s total allocation will be based on the number of housing units in the neighborhood. The total number of housing units within all neighborhoods will be divided into the funds allotted to this variable to determine the per unit allocation. This per unit allocation will be multiplied by the number of housing units within a neighborhood. **Source: Minneapolis Assessor’s Office**

Under-represented Groups (40%)

Non-Homesteaded Housing Units – 10% of a neighborhood’s total allocation will be based on the number of non-homesteaded housing units in the neighborhood divided by the total number of housing units in the neighborhood (the “non-homesteaded housing ratio”). The total number of the non-homesteaded housing ratios within all neighborhoods will be divided into the funds allotted to this variable to determine the per non-homesteaded housing ratio allocation. This per non-homesteaded housing ratio allocation will be multiplied by the non-homesteaded housing ratio for each neighborhood. **Source: Minneapolis Assessor’s Office**

Index of Racial/Cultural Diversity – 20% of a neighborhood’s total allocation will be based on an index of the racial and cultural diversity within the neighborhood. The Shannon Diversity Index is a statistical formula commonly used in population and biology studies to weigh the relative diversity

“How did you pick the variables and data you use to establish the allocation formula?”

Here is our criteria for the variables and datasets we chose:

1. Relevance to purposes of the program
2. Publicly available and neutral source
3. As current as possible
4. Data available at neighborhood levels
5. Citywide applicability

of a community. The source data is the U.S. Census classes for race (White, Black, American Indian, Asian/Native/Hawaiian and Other, Some other race alone, and two or more races). A neighborhood with equal numbers of individuals from each class would have a higher score than a neighborhood with a large number of individuals from a single class. **Source: U.S. Census Bureau**

English as a Second Language (ESL) Students – 10% of a neighborhood’s total allocation will be based on the number of Minneapolis Public School students in the neighborhood for whom a language other than English is the primary language spoken in their home. The total number of ESL students within all neighborhoods will be divided into the funds allotted to this variable to determine the per ESL student allocation. This per unit allocation will be multiplied by the number of ESL students that live within a neighborhood. **Source: Minneapolis Public Schools**

ESL data will be replaced by the “non-English language spoken at home” data from the American Community Survey once that data becomes available.

Note: under review by NCR Staff

Income (10%)

Low-Income Residents – 10% of a neighborhood’s total allocation will be based on the number of persons in a neighborhood with family incomes less than two-times the poverty rate divided by the population of the neighborhood (the “income ratio”). The total of the income ratios for all neighborhoods will be divided into the funds allocated to this variable to determine the per income ratio allocation. This per income ratio allocation will be multiplied by the income ratio for each neighborhood. **Source: U.S. Census Bureau**

Note: under review by NCR Staff

Neighborhood Livability (20%)

Crime Statistics – 10% of a neighborhood’s total allocation will be based on the average number of Part 1 crimes that were committed in the neighborhood over the most current three-year period. These crimes include homicide, rape, robbery, aggravated assault, burglary, motor vehicle theft and arson. The total average number of these Part 1 crimes committed within all neighborhoods will be divided into the funds allotted to this variable to determine the per crime allocation. This per crime allocation will be multiplied by the average number of these crimes committed within a neighborhood over the most current three-year period. **Source: Minneapolis Police Department**

Foreclosures – 10% of a neighborhood’s total allocation will be based on the average number of foreclosed properties in the neighborhood over the most current three-year period divided by the total number of structures in that neighborhood (the “foreclosure ratio”). The total of the foreclosure ratios within all neighborhoods will be divided into the funds allotted to this variable to determine the per foreclosure ratio allocation. This per foreclosure ratio allocation will be multiplied by the foreclosure ratio for each neighborhood. **Source: City of Minneapolis Healthy Housing Indicators**

APPENDIX B: 2011 NEIGHBORHOOD ALLOCATIONS

DRAFT

APPENDIX C: MINNEAPOLIS NEIGHBORHOOD MAP

DRAFT
