

Neighborhood Vitality through Digital Equity

Thinking Bigger - Collaborations Will Get You There

How can resident's access to and use of computers, mobile devices and the Internet:

- Help meet goals in your community?
- Enhance your community organizing efforts?
- Improve racial equity in Minneapolis?
- Improve employment, economic development, and local business initiatives?

What technology challenges do you see in your community?

What solutions do you propose?

- Who can help – who should be involved to help solve the challenges?
- What role do you think Neighborhood Associations and Community organizations play related to the challenges and opportunities?
- How could we scale up efforts city-wide? Work collaboratively to have a bigger impact?
