

June 27, 2014

The 15th Ave. /4th St. Reconstruction Project is well underway. We have been doing cleaning and lining work on the water main on 4th St S. Temporary wood pole street lighting and salvage of the existing street lighting is also underway. Traffic detour signage is up and 4th St S (Cedar Ave to just west of 16th Ave S) and 16th Ave S (south of 6th St S) will be closed for the first stage of our construction.

NO PARKING signs will be up and enforced along the construction zone on 4th St S and 16th Ave S (south of 6th St S). Starting Monday June 30, we will be milling the street both 4th St and 16th Ave. Please be aware of the no parking and detour signs during the construction.

For access to 4th St S during this phase of construction, please use the 6th St S detour.

Please be aware of the construction zone and use the sidewalk for pedestrian movement. Thank you for your patience during construction.

Please visit the project website for additional information at:
