

"Bike Bike" racks at a public building

Bicycle Hitches in Downtown Minneapolis

Sverve Racks at the University of Minnesota

Neighborhood Bike Rack 50/50 Cost Share Program

Interested businesses, community centers, and organizations within the City of Minneapolis are encouraged to participate in this unique program to promote bicycling.

Bicyclists are also encouraged to help the City of Minneapolis identify locations to put new bicycle racks.

The City of Minneapolis will participate in half of the cost of the bicycle rack and half the cost of installation for eligible locations.

All styles shown are eligible for the 50/50 cost share program including new parking meter Hitch.

Applicants can choose between several standard colors, galvanized steel (silver), or custom color coated racks.
