

## Nicollet Ave S Paving Update August 9, 2012

- **JUST IN**, access across Nicollet at 32<sup>nd</sup> is scheduled to close at 3:00pm today (Aug 9th), the rest of the access is scheduled to remain the same for now, will keep you posted.
- Storm Sewer installation of 24 inch pipe continues proceeding north of 33<sup>th</sup> St.
- CenturyLink has a contractor installing two conduits on the east side of Nicollet, proceeding north of 35<sup>th</sup> St.
- Grading Nicollet north of Super America (35<sup>th</sup> St.) will start this week and continue next week going through the intersection of 34<sup>th</sup> and if all goes well, the first lift of asphalt paving in this location will be installed late next week.
- The new sidewalks at the corner of Nicollet and 35<sup>th</sup> are planned to be installed next week. An exception may be the SW corner which needs traffic signal work in this location before the sidewalk can be placed.
- Traffic signal conduit is scheduled for installation at the intersection of 34<sup>th</sup> & Nicollet, next week.
- The temporary water main is still in use between 32<sup>nd</sup> and 34<sup>th</sup> Sts. and will remain until two new fire hydrants and the looping of the water main in three locations are completed. The remainder of the 2012 project area is off the temporary water service and back on the permanent water main and the temporary water main has been removed.
